time While the crew s efforts to save TWA 841 were initially hailed as heroic that all changed when safety inspectors found twenty one minutes of the thirty minute cockpit voice recorder tape blank The captain of the flight Harvey Hoot Gibson subsequently came under suspicion for deliberately erasing the tape in an effort to hide incriminating evidence The voice recorder was never evaluated for any deficiencies From that moment on the investigation was focused on the crew to the exclusion of all other evidence It was an investigation based on rumors innuendos and speculation Eventually the NTSB despite sworn testimony to the contrary blamed the crew for the incident by having improperly manipulated the controls leading to the dive This is the story of a NTSB investigation gone awry and one pilot s decade long battle to clear his name
