

The flexible comprehensive solution: BOGE C 4 (D)R to C 15 (D)R

Modular system allows
customised configuration!

CONFIDENTIAL CONTROLS

The **Focus** control unit with LC display and pressure sensor system is included as standard. However, the **Focus** control S-B will be also available as an option, with its integrated efficiency indicator, well-proven BOGE leakage monitor and energy air flow input.

PERFECTLY INTEGRATED

The C series compressors are intelligently designed, with all of the essential components integrated in the compact module. The lack of flaps and connection points makes it practically impossible for leaks to occur. It also allows pressure losses to be minimised.

HIGHLY EFFICIENT

High air delivery rates achieved with particularly low power input – this is the trademark of the special BOGE design of the C series compressors. The top efficiency ratings are also partly due to the intelligent arrangement of the components. All in the interest of producing consistently high-quality compressed air.

EFFECTIVELY DRYED

Where space is at a premium: the C-DR series contains a dryer and tank in a remarkably small floor area and runs with gratifying quietness – which means it can be used directly at the workshop. Numerous treatment and filtering options make the system a flexible solution.

Boge Compressor Manual
