political ideology and religious conversion 3 Historiographical surveys of geographical regions and 4 Visual and textual discourses This fourfold arrangement of chapters provides a coherent structure to accommodate different perspectives of classical reception across the world and their geographical ethnographic ideological symbolic social and cultural contexts Essays cover a wide geography and include studies in Italy France England Scotland the Nordic countries Greece Austria Portugal Romania Germany Poland India Singapore China the USA Mexico Brazil New Zealand and Australia Other essays in the volume focus on thematic issues or topics pertaining to classical architecture such as ornament spolia humanism nature moderation decorum heresy and taste An essential reference guide The Routledge Handbook on the Reception of Classical Architecture makes a major contribution to the study of architectural history in a new global context

The Break with the Past Deborah Ascher Barnstone, 2017-08-15 Between 1918 and 1933 the German interwar avant garde was a primary force driving European cultural innovation and modernism These innovations continue to influence artistic practice theory and arts education today thus making a comprehensive study of the relationship between individual war experience and the immediate response of avant garde architects after the war all the more important The Break with the Past pursues several important interrelated questions What were the disparate war experiences of German architects and did they have different effects on Weimar cultural production Did political orientation play a part in support for the war In aesthetic choices What changes occurred in avant garde architectural practice after 1918 How do they compare with pre war positions and practices and expectations for post war outcomes In order to address these questions the book uses individual case studies of four leading architects Bruno Taut Walter Gropius Erich Mendelsohn and Hans Scharoun This is a valuable resource for academics and students in the areas of Art and Architecture History German history and Cultural Studies European Culture and Modernism

Architecture Beyond the Cupola Alberto Pugnale, Alberto Bologna, 2023-05-24 This book reviews Dante Bini's inventions and designs focusing on his form resistant Binishell and other pneumatic construction systems Dante Bini's double profile of architect and builder underpins the narrative of the entire book It is used to analyse the evolution of the early reinforced concrete Binishell patent into a variety of automated construction systems based on the use of air Dante Bini has always been quite proactive in promoting his work and disseminating the results of his experimentations and achievements via journal articles conference presentations and public talks promotional brochures in multiple languages were also prepared to export and license his patents in various countries from Italy to the Americas and Australia Despite this a rigorous study of Dante Bini's work is still unavailable and the relevance of this figure to contemporary architecture has yet to be discussed comprehensively This book fills in this gap and arrives at the right time during the last two decades there has been an exponential interest in shell and spatial structures particularly concerning the use of complex geometries and innovative construction techniques This book will be of interest to academics in architectural design theory and construction history and practitioners and students interested in expanding their knowledge in the design and construction of
