James Orange, 2019-03-22 This is volume 2 of James Orange History of Nottingham During the Industrial Revolution much of Nottingham's prosperity was founded on the textile industry in particular the city became an internationally important centre of lace manufacture In 1831 citizens rioted in protest against the Duke of Newcastle's opposition to the Reform Act 1832 setting fire to his residence

Nottingham Castle     *Julie Snow Architects* Julie Snow, Julie Snow Architects, 2005-04-07 It is an unfortunate reality that architects practicing in the great expanse between the East and West coasts all too often find themselves beyond the radar of the profession's so-called tastemakers. And it is especially a shame in the case of Julie Snow, a Minneapolis-based architect who has over the past decade developed one of the most inventive practices anywhere in the United States. Snow's meticulously constructed work has the structural opacity and formal integrity that characterized Mies van der Rohe's architecture but with a sense of humanity and a sensitivity to the environment that seems borrowed from her Midwestern progenitor Frank Lloyd Wright. This, the first monograph on Snow's work, provides in-depth documentation of 14 of her residential, institutional, corporate, and public projects, including the Koehler Residence in New Brunswick, Canada; a series of Minneapolis Light Rail Stations; the Minnesota Children's Museum; and the University of South Dakota School of Business. *Julie Snow Architect* is produced in collaboration with award-winning designer Andrew Blauvelt and features an introductory essay by Jan Abrams, director of the Minnesota Design Institute.

Todd Saunders - Architecture in Northern Landscapes Jonathan Bell, Ellie Stathaki, 2012-12-21 Todd Saunders, 1969, is one of the most important young contemporary Canadian architects working internationally. His architecture, simple yet powerful, incorporates elements of his country's architectural identity, including the use of wood and carefully picked Modernist influences, bringing it at the same time into the 21st century with excellent execution, carefully chosen materials, and a hands-on approach. Saunders, who lives and works in Bergen, Norway, has successfully executed work in both Canada, Norway, and Finland, creating architecture with a strong sense of northern identity, an individual approach that is informed by the strong sense of natural landscape. The most important projects include Aurland Lookout, Long Studio, Fogo Island Tower, Studio Fogo Island, Squish Studio, Fogo Island, and Villa G. The first reference monograph on a remarkable young architect working in Scandinavia and Canada, the monograph provides interesting unpublished documents curated by Jonathan Bell, Architecture Editor, *Wallpaper* magazine, and Ellie Stathaki, Deputy Architecture Editor, *Wallpaper* magazine, as well as three interviews by Olaf Gipsier, Zita Cobb, and Brian MacKay-Lyons. The artwork of the book is by the internationally renowned graphic designer Henrik Nygren.     *the publishers weekly*, 1875

Archinesia 06 Imelda Akmal, 2014-01-01 *Craftmanship Within the History of Architecture in Indonesia* In the sixth edition of *ARCHINESIA* Bookazine, we explore what the Indonesian team of curators does in the 14th International Architecture Exhibition in Venice, Italy, that is still going until November 16, 2014. In response to the biennale's title, *Fundamentals*, with the theme pitched by Rem Koolhaas to all participants about *Absorbing Modernity 1914-2014*, the Indonesian team presents a historical record of the influence of craftsmanship and materials in the course of modern Indonesian architecture. This perspective was not widely discussed, although given the region's many similarities, it would not be a surprise that craftsmanship and materials also play a significant role in other Southeast Asian countries besides Indonesia. It may be that the topic is a reflection of what is happening in cognate countries.
