Pantsov,2023-03-21 An extensively researched comprehensive biography of Chinese Nationalist leader Chiang Kai shek one of the twentieth century s most powerful and controversial figures Chiang Kai shek 1887 1975 led the Republic of China for almost fifty years starting in 1926 He was the architect of a new republican China a hero of the Second World War and a faithful ally of the United States Simultaneously a Christian and a Confucian Chiang dreamed of universal equality yet was a perfidious and cunning dictator responsible for the deaths of over 1 5 million innocent people This critical biography is based on Chiang Kai shek s unpublished diaries his extensive personal files from the Russian archives and the Russian files of his relatives associates and foes Alexander V Pantsov sheds new light on the role played by the Russians in Chiang s rise to power in the 1920s and throughout his political career and indeed the Russian influence on the Chinese revolutionary movement as a whole as well as on Chiang s complex relationship with top officials of the United States It is a detailed portrait of a man who ranks with Stalin Roosevelt Hitler Churchill and Gandhi as leaders who shaped our world *Ecology and Conservation of Butterflies* A.S. Pullin,2012-12-06 This book was conceived to mark the Silver Jubilee of the British Butterfly Conservation Society Interest in the conservation of butterflies has increased so rapidly that it is difficult to relate to the situation 25 years ago Butterflies were on the decline in Britain Europe and elsewhere but we lacked data on the extent of the decline and the underlying reasons leaving us unable to implement effective conservation measures An early recognition of the plight of British butterflies and moths led to the foundation of the society by a small group of conservationists in 1968 Today the society has over 10000 members owns a number of reserves and sponsors research conservation and monitoring activities at the local and national level As part of the Silver Jubilee celebrations an international symposium was held at Keele University in September 1993 entitled Ecology and Conservation of Butterflies This symposium clearly showed how much important work has been done in recent years and also gave me the impression that the subject had reached a watershed This was not because the decline of butterflies has stopped or even slowed down far from it the threat to our butterflies continues to increase from habitat destruction and intensification of land use The watershed is in our understanding of the relationship between butterflies and their habitat **Library of Congress Catalogs** Library of Congress,1976 *Soil Survey of Missaukee County, Michigan* William E. someone decide that books might be written and published for child readers Originating from an exhibition held at the
Pierpont Morgan Library in New York this bibliographical study focuses on the child as the audience for books in the English
language The authors show how certain creative talents driven by a sense of purpose or a wish to make some money
attempted to appeal directly to children and how the publishing industry came to realise that this audience might constitute a
profitable market As well as plotting the chronological development of children s book publishing the authors also show how
publishers adapted their strategies to exploit this new market Sweetness and light did not prevail everywhere but even in
some of the most forbidding examples presented here there was a commercial optimism that both merriment and wisdom
might be happily combined within the pages of children s literature **1970 Census of Housing** ,1971 **The Land of**
