Business Studiesmemorandum February And March 2014:

Federal Register ,2013-12 Treasury Bulletin ,1969-05 **Evaluating the Obama Presidency** Meena Bose,Paul Fritz,2024-07-22 In 2007 and 2008 Barack Obama ran for president with a message of a shared purpose uniting all Americans and was elected with expectations that he would usher in a new national culture under an approach grounded in public engagement that would transcend partisan divisions But in an institutional system designed for incremental and contested policy making governance enacting these transformational ambitions proved to be far more difficult than anticipated This innovative volume assesses the legacy of President Obama with a conceptual focus on the challenge of meeting his goals with the realities of governing A diverse group of political science history and communication studies experts systematically examines Obama s performance accomplishments and shortcomings through the lens of the expectations gap the tensions and obstacles of translating campaign promises into policies The wide representative set of case studies address campaigning and coalition building party polarization presidential communication executive power leadership and decision making and domestic and foreign policy With original and deep analysis these scholars make a unique enduring contribution to understanding the Obama presidency the office of the president and indeed American politics This insightful accessible book will be of great interest to students and scholars of the presidency political communication rhetoric and broadly across US government and democracy **The Obama Legacy** Bert A. Rockman,Andrew Rudalevige,2019-05-31 Hope and change were the keywords of President Barack Obama s 2008 campaign and in his farewell address on January 10 2017 he cited the evidence that he d delivered from reversing the Great Recession rebooting the auto industry and unleashing the longest stretch of job creation in the nation s history to winning marriage equality and securing the right to health insurance for another 20 million citizens At the same time and with a view to the country s divisive polarization he made a plea for the decency of our people and the sense of common purpose that we so badly need right now In hindsight it is increasingly possible to understand whether and how Obama s legacy matched his rhetoric as well as to evaluate from various angles what his presidency accomplished and what this has meant for US politics public policy and civic life going forward In *The Obama Legacy* some of the leading observers and scholars of US politics take up this challenge In twelve essays these writers examine Obama s choices operating style and opportunities taken and missed as well as the institutional and political constraints on the president s policy agenda What were Obama s personal characteristics as a leader What were the policy aspirations output and strategy of his presidency What was his role as a political and public leader to the various constituencies needed to generate presidential power And how did his presidency interact with other political forces Addressing these questions and others the authors analyze Obama s preferences tactics successes and shortcomings with an eye toward balancing the personal and institutional factors that underlie each all the while considering how resilient or fragile Obama s legacy will be in the face of the Trump administration s eager efforts to

dismantle it **World Scientific Reference On Entrepreneurship, The (In 4 Volumes)** ,2016-12-28 This multi volume set focuses on a topic of growing interest to academics policymakers university administrators state and regional economic development officials and students entrepreneurship In recent years we have witnessed a proliferation of entrepreneurship courses programs and initiatives at universities Universities have also become entrepreneurial hubs as they commercialize research via patents licenses and startup companies It is also important to note that entrepreneurship cuts across numerous fields in business administration such as management strategy operations management finance marketing and accounting as well as across numerous social science disciplines including economics sociology political science and psychology Volume 1 is a comprehensive analysis of entrepreneurial universities highlighting efforts undertaken by numerous universities to partner with industry and develop an entrepreneurial culture on campus and in the surrounding region Volume 2 is focused on entrepreneurial finance containing chapters on salient topics such as venture capital angel investors initial public offerings IPOs and crowdfunding Volume 3 presents evidence on entrepreneurial opportunities relating to sustainability and other forms of corporate social responsibility social entrepreneurship and ethical issues that arise in the context of entrepreneurial activity Volume 4 provides global evidence on university technology transfer and academic entrepreneurship This set is required reading for those who want a full understanding of the managerial financial and public policy implications of entrepreneurship *Tax Planning for International Mergers, Acquisitions, Joint Ventures and Restructurings* Ansgar A. Professional Journal of the United States Army, 2016-07 Military Review, 2016 **The Closing of the Liberal Mind** Kim R. Holmes, 2017-12-12 A former U S Assistant Secretary of State and currently Acting Senior Vice President for Research at The Heritage Foundation Kim R Holmes surveys the state of liberalism in America today and finds that it is becoming its opposite illiberalism abandoning the precepts of open mindedness and respect for individual rights liberties and the rule of law upon which the country was founded and becoming instead an intolerant rigidly dogmatic ideology that abhors dissent and stifles free speech Tracing the new illiberalism historically to the radical Enlightenment a movement that rejected the classic liberal ideas of the moderate Enlightenment that were prominent in the American Founding Holmes argues that today's liberalism has forsaken its American roots incorporating instead the authoritarian anti clerical and anti capitalist prejudices of the radical and largely European Left The result is a closing of the American liberal

mind Where once freedom of speech and expression were sacrosanct today liberalism employs speech codes trigger warnings boycotts and shaming rituals to stifle freedom of thought expression and action It is no longer appropriate to call it liberalism at all but illiberalism a set of ideas in politics government and popular culture that increasingly reflects authoritarian and even anti democratic values and which is devising new strategies of exclusiveness to eliminate certain ideas and people from the political process Although illiberalism has always been a temptation for American liberals lurking in the radical fringes of the Left it is today the dominant ideology of progressive liberal circles This makes it a new danger not only to the once venerable tradition of liberalism but to the American nation itself which needs a viable liberal tradition that pursues social and economic equality while respecting individual liberties

China's Belt and Road Initiative The International Institute for Strategic Studies (IISS),2022-12-16 The IISS Strategic Dossier China s Belt and Road Initiative provides a geopolitical and geo economic assessment of President Xi Jinping s flagship foreign policy initiative The dossier explores the Belt and Road Initiative s role in China s domestic industrial strategy and in the country s growing influence around the world It studies how Beijing s ambitions management and financing of the initiative have evolved since its launch in 2013 In addition the volume reflects on the future of China s initiative following the COVID 19 pandemic The dossier is organised around a region by region assessment of what Beijing has sought to achieve in different countries and how the Belt and Road Initiative has played out over time The volume examines recipient countries responses to the Belt and Road Initiative and how these have affected it It also looks at responses from other global and regional powers to China s economic activities around the world and offers thoughts on ways the West might better contend with Beijing s geo economic influence

Holistic Flexibility for Systems Thinking and Practice Rajneesh Chowdhury,2024-06-14 This book explores how the conceptual lens of Holistic Flexibility presents new advancements in systems thinking Systems thinking is often associated with frameworks and methodologies that often confine the discipline to academic circles in operations research and management science OR MS Holistic Flexibility for Systems Thinking and Practice challenges this status quo and talks about

systems thinking as a state of mind giving it a cognitive character The book presents both theoretical deliberations and practitioner cases of Holistic Flexibility The development of systems thinking in OR MS is described leading to the latest debates on the subject and the key pillars of Holistic Flexibility are discussed in detail A range of case studies are presented that offer a firsthand experience of Holistic Flexibility in practice Learnings are drawn to highlight the importance of a spiritual approach in management an understanding which is used to further develop the conceptual lens of Holistic Flexibility since it was first introduced This book presents a range of competencies required for systems practitioners to address and respond to complex situations in an interconnected world A bold attempt to pragmatize systems thinking and systems practice the ideas presented in this book weave a thread between the development of the discipline current debates and what lies ahead It will be highly beneficial for OR MS researchers and graduate students who are interested in systems thinking as well as researchers interested in connecting modern management thinking and Eastern mysticism *US Presidential Doctrines Handbook - Volume 1 President Barack Obama Doctrine - Strategic Information and Materials IBP, Inc.,2017-01-11* **European Energy Security and US-Russian Competition** Ioanna Mavromati,2025-10-31 This book argues that the influence of US Russian security competition on the energy policies of EU member states and on the development of a unified European energy security policy has been significantly underestimated While most previous studies have focused on internal EU dynamics and the role of Russian interests this work takes a broader perspective by examining how transatlantic rivalries have shaped European approaches to energy security By tracing the evolution of European energy security policy from the Cold War era through the present the book connects shifts in policy to the changing dynamics of US Soviet and later US Russian energy competition It demonstrates that after the Soviet Union s collapse the United States did not initially view European reliance on Russian energy as a threat However as US Russian competition intensified Washington increasingly framed Europe s dependence on Russian gas as a security risk and actively sought to block the expansion of Russian energy infrastructure into Europe The book also explores how despite the EU s early treaties being energy focused energy security only became a central foreign policy concern for the Union in the mid 2000s Ultimately the author argues that scholars of international relations must consider both great power dynamics and intra European factors to fully understand the development of European energy policy The book will be of interest to students and researchers in geopolitics international relations energy politics regional studies and European studies *A Guide to Federal Contracting* Dan Lindner,2017-10-18 The federal government is the largest buyer of goods and services in the world spending hundreds of billions of dollars per year employing hundreds of thousands of people as civil servants or contractors Yet no textbook is commercially available to discuss how federal contracting is done in a format that is written for the general public as well as the practitioner This publication is intended fill this void to demystify the volumes of regulations and policies and provide in one volume a succinct yet thorough

treatment of federal contracting requirements and regulations Bringing together concepts of business law politics public and social policy pricing and procedures for contract placement and administration the author draws on over 30 years of federal government experience to cover the vast spread of this important process which impacts our daily government operations
