The ABCs of Human Survival Arthur Clark, 2010 The ABCs of Human Survival examines the effect of militant nationalism and the lawlessness of powerful states on the well being of individuals local communities and global citizenship Based on the analysis of world events Dr Arthur Clark presents militant nationalism as a pathological pattern of thinking that threatens our security while emphasizing effective democracy and international law as indispensable frameworks for human protection Within the contexts of history sociology philosophy and spirituality The ABCs of Human Survival calls into question the assumptions of consumer culture and offers as an alternative strategies to improve overall well being through the important choices we make as individuals

Strategic Nonviolent Power Mark A. Mattaini, 2013-10-01 History indicates that there are powerful routes to liberation from oppression that do not involve violence Mohandas Gandhi called for a science of nonviolent action one based on satyagraha or the insistence on truth As Gandhi understood nonviolent resistance is not passive nor is it weak rather such action is an exercise of power Despite the success of Gandhi's Quit India movement the resources dedicated to the application of rigorous science to nonviolent struggle have been vanishingly small By contrast almost unimaginable levels of financial and human resources have been devoted to the science and technologies of killing war and collective violence Mark Mattaini reviews the history and theory of nonviolent struggles against oppression and discusses recent research that indicates the substantial need for and advantage of nonviolent alternatives He then offers a detailed exploration of principles of behavioral systems science that appear to underlie effective strategic civil resistance and people power Strategic Nonviolent Power proposes that the route to what Gandhi described as the undreamt of and seemingly impossible discoveries of nonviolent resistance is the application of rigorous science Although not a simple science Mattaini's application of ecological science grounded in the science of behaviour brings exceptional power to the struggle for justice and liberation At a time when civil resistance is actively reshaping global political realities the science of nonviolent struggle deserves the attention of the scientific activist strategic military spiritual and diplomatic communities as well as the informed public

From Principles to Practice in Education for Intercultural Citizenship Michael Byram, Irina Golubeva, Han Hui, Manuela Wagner, 2016-11-01 The contributors to this volume have collaborated to present their work on introducing competences in intercultural communication and citizenship into foreign language education The book examines how learners and teachers think about citizenship and interculturality and shows how teachers and researchers from primary to university education can work together across continents to develop new curricula and pedagogy This involves the

creation of a new theory of intercultural citizenship and a procedure for implementation The book is written by teacher researchers who aim to help other teachers and concludes with reflections on the lessons they have learnt which will help others to implement these ideas in their own practice The book is essential reading for foreign language educators and researchers students in pre service teacher training and teachers in in service training **The ABC's of Human Survival**

Arthur Clark,2010 **Human Rights and Wrongs** Helen Fein,2015-12-03 Human Rights and Wrongs explains the persistence of crimes against humanity since the Holocaust including slavery terror and genocide Using extended country descriptions and analyses the book goes beyond case studies to explain such gross human rights violations in terms of an integrated theory of life integrity giving readers vivid illustrations in addition to a theoretical framework Distinguished author Helen Fein then asks how we can arrest human wrongs and discusses whether democracy is the answer She shows the positive links among human rights freedom and development and draws out policy recommendations from her findings

The Securitization of Migration and Refugee Women Alison Gerard,2014-05-16 Humanised accounts of restrictions on mobility are rarely the focus of debates on irregular migration Very little is heard from refugees themselves about why they migrate their experiences whilst entering the EU or how they navigate reception conditions upon arrival particularly from a gendered perspective The Securitization of Migration and Refugee Women fills this gap and explores the journey made by refugee women who have travelled from Somalia to the EU to seek asylum This book reveals the humanised impact of the securitization of migration the dominant policy response to irregular migration pursued by governments across the Globe The Southern EU Member State of Malta finds itself on the frontline of policing and securing Europe s southern external borders against transnational migrants and preventing migrants on migration to other Member States within the EU The securitization of migration has been responsible for restricting access to asylum diluting rights and entitlements to refugee protection and punishing those who arrive in the EU without valid passports a visibly racialised and gendered population The stories of the refugee women interviewed for this research detail the ways in which refugee protection is being eroded selectively applied and in some cases specifically designed to exclude In contrast to the majority of migration literature which has largely focused on the male experience this book focuses on the experiences of refugee women and aims to contribute to the volume of work dedicated to analysing borders from the perspective of those who cross them This research strengthens existing criminological literature and has the potential to offer insights to policy makers around the world It will be of interest to academics and students interested in International Crime and Justice Securitisation Refugee Law and Border Control as well as the general reader American Book Publishing Record ,2006 Bulletin of the Atomic Scientists ,1981-01 Forthcoming Books Rose Army,2002 Refuge beyond Reach David Scott FitzGerald,2019-03-14 Why do people seeking asylum often break immigration laws Refuge Beyond Reach shows how rich democracies deliberately and systematically shut down most legal paths to safety An architecture of repulsion in the air at sea and on land keeps most

refugees far away from places where they can ask for sanctuary Resources in Education ,1988 **Yearbook of International Organizations 2014-2015 (Volume 4)** Union Of International Associations,Union of International Associations,2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations
