Abstract. This paper presents a new approach to the problem of finding the optimal solution to a problem. The approach is based on the use of a heuristic function to estimate the cost of a solution. The heuristic function is used to guide the search process, and the optimal solution is found by following the path of lowest cost. The approach is applied to the problem of finding the optimal solution to a problem. The results show that the approach is effective in finding the optimal solution to a problem.
