A Study Of Deities Of Rig Veda:

A Study of Deities of Rig Veda (with the Help of Science) Shanti Swarup Gupta, 2006 This is probably for the first time that a serious study of Deities of Rig Veda has been made with the help of modern research methodology and science to find out what the Rishis had said a few thousand years back about the Deities. Efforts were also made to identify these gods. It is a finding of great importance that what Rishis had said about these gods is being corroborated by the Western Science today. Dr Gupta has grouped these 33 gods of Rig Veda in three categories: I Natural Phenomena Gods: Sky, Earth, Fire, Air, and Water. All the material things are produced by their permutations and combinations. These five natural phenomena gods have their sub-gods also. For example, Agni has Surya (Agni Nuclear Energy), Apan, Napat, Agni in the sky like lightning, Davanal, Agni on Earth, Badvanal, Agni in the oceans or water, and Jathragni, Agni in the body. II Gods connected with soul energy such as Vishnu can be compared with a modern generating station, Brahma who induces the tiny invisible weightless particles of soul energy in all the living beings to give them life, Shiva who at an interval of time takes out this particle of soul energy from all the living beings and they all become dead, and Yama who and whose assistants take these tiny particles of soul to a place called Yama Loka. III Craftsmen Gods such as Vishvakarma, Tvastha, and Ribhugan who assemble and mix the five basic elements in different proportions to create structures or forms so that soul particles can be introduced in them. And IV Miscellaneous Gods such as Rishis and other men, animals, cow, frog, etc. raised to godhood and other important things like meaning of prayer. Does Rig Veda give history etc.

A Study of Deities of Rig Veda S. S. Gupta, 2012 This is probably for the first time that a serious study of Deities of Rig Veda has been made with the help of modern research methodology and science to find out what the Rishis had said a few thousand years back about the Deities.

The Academy and Literature , 1887 **Vedic Hymns (Complete)** Anonymous, 2020-09-28 I finished the Preface to the first volume of my translation of the Hymns to the Maruts with the following words The second volume which I am now preparing for Press will contain the remaining hymns addressed to the Maruts The notes will necessarily have to be reduced

to smaller dimensions but they must always constitute the more important part in a translation or more truly in a deciphering of Vedic hymns This was written more than twenty years ago but though since that time Vedic scholarship has advanced with giant steps I still hold exactly the same opinion which I held then with regard to the principles that ought to be followed by the first translators of the Veda I hold that they ought to be decipherers and that they are bound to justify every word of their translation in exactly the same manner in which the decipherers of hieroglyphic or cuneiform inscriptions justify every step they take I therefore called my translation the first traduction raisonnée I took as an example which I tried to follow though well aware of my inability to reach its excellence the Commentaire sur le Yasna by my friend and teacher Eugène Burnouf Burnouf considered a commentary of 940 pages quarto as by no means excessive for a thorough interpretation of the first chapter of the Zoroastrian Veda and only those unacquainted with the real difficulties of the Rig veda would venture to say that its ancient words and thoughts required a less painstaking elucidation than those of the Avesta In spite of all that has been said and written to the contrary and with every wish to learn from those who think that the difficulties of a translation of Vedic hymns have been unduly exaggerated by me I cannot in the least modify what I said twenty or rather forty years ago that a mere translation of the Veda however accurate intelligible poetical and even beautiful is of absolutely no value for the advancement of Vedic scholarship unless it is followed by precise justificatives that is unless the translator gives his reasons why he has translated every word about which there can be any doubt in his own way and not in any other It is well known that Professor von Roth one of our most eminent Vedic scholars holds the very opposite opinion He declares that a metrical translation is the best commentary and that if he could ever think of a translation of the Rig veda he would throw the chief weight not on the notes but on the translation of the text A translation he writes must speak for itself As a rule it only requires a commentary where it is not directly convincing and where the translator does not feel secure Between opinions so diametrically opposed no compromise seems possible and yet I feel convinced that when we come to discuss any controverted passage Professor von Roth will have to adopt exactly the same principles of translation which I have followed
