Pinn, 1998 Pinn s work provides a fascinating look especially at Vodoo Santeria the Nation of Islam and Black Humanists in the United States Cover **Women of the Nation** Dawn-Marie Gibson, Jamillah Karim, 2014-07-11 Presents oral histories and interviews of women who belong to Nation of Islam With vocal public figures such as Malcolm X Elijah Muhammad and Louis Farrakhan the Nation of Islam often appears to be a male centric religious movement and over 60 years of scholarship have perpetuated that notion Yet women have been pivotal in the NOI s

development playing a major role in creating the public image that made it appealing and captivating Women of the Nation draws on oral histories and interviews with approximately 100 women across several cities to provide an overview of women's historical contributions and their varied experiences of the NOI including both its continuing community under Farrakhan and its offshoot into Sunni Islam under Imam W D Mohammed The authors examine how women have interpreted and navigated the NOI's gender ideologies and practices illuminating the experiences of African American Latina and Native American women within the NOI and their changing roles within this patriarchal movement The book argues that the Nation of Islam experience for women has been characterized by an expression of Islam sensitive to American cultural messages about race and gender but also by gender and race ideals in the Islamic tradition It offers the first exhaustive study of women's experiences in both the NOI and the W D Mohammed community

Terror and Triumph Anthony B. Pinn, 2022-07-26 Given the unique history of African Americans and their diverse religious flowering in Black Christianity the Nation of Islam voodoo and others what is the heart and soul of African American religious life As a leader in both Black religious studies and theology Anthony Pinn has probed the dynamism and variety of African American religious expressions In this work based on the Edward Cadbury Lectures at the University of Birmingham England he searches out the basic structure of Black religion tracing the Black religious spirit in its many historical manifestations Pinn finds in the terrors of enslavement of Black bodies and subsequent oppressions the primal experience to which the Black religious impulse provides a perennial and cumulative response Oppressions entailed the denial of personhood and creation of an object the negro Slave auctions punishments and later lynchings created an existential dread but also evoked a quest a search for complex subjectivity or authentic personhood that still fuels Black religion today In this 20th anniversary edition of Pinn's groundbreaking work the author offers a new reflection on the argument in retrospect and invites a panel of five contemporary scholars to examine what it means for current and future scholarship Contributors include Keri Day Sylvester Johnson Anthony G Reddie Calvin Warren and Carol Wayne White

**Islamic Impostors** Poray Sr Casimier, 2004-07 From the obscure beginnings of a 1930s ghetto in Detroit to international acclaim Black Muslims have evoked fright mystery and hostility The Nation of Islam received little attention from the black Christian church despite its blatantly blasphemous teachings In weekly radio broadcasts Elijah Muhammad taught that his doctrine was superior to the Bible and Quran his mentor was the Messiah God spoken of in Scripture and Jesus died in front of a Jewish storefront and remains buried in Jerusalem From the early 1980s Louis Farrakhan has taught Elijahs doctrine with one major difference he stands in the pulpits of Christian churches mesmerizing the biblically illiterate Islamic Impostors carefully details the irreconcilable differences between Christians Black Muslims and Islam while providing a

biblical critique to aid the Christian church      **The Farrakhan Phenomenon** Robert S. Singh,1997-07-01 In this penetrating critical analysis of Louis Farrakhan s ascent to national influence Robert Singh argues that the minister s rise to prominence is a function of race and reaction in contemporary America Singh probes the origins and significance of Farrakhan in American politics Drawing on published and unpublished records personal interviews and Farrakhan s writings and speeches Singh places Farrakhan expressly within the paranoid style of such reactionaries as Jesse Helms and Joseph McCarthy Examining Farrakhan s biographical details religious beliefs political strategies and relative influence Singh argues that Farrakhan is an extreme conservative who exploits both black white divisions and conflicts within the black community for personal advancement Singh proposes that Farrakhan s complex appeal to African Americans is based on his ability to orchestrate the diffuse forces of African American protest against the status quo Paradoxically says Singh Farrakhan has achieved his position in part by positioning himself against most African American political leaders a tactic made possible by the extent to which black American politics now displays the same basic features as American politics in general By stoking the fires of fear and hatred yet effecting no real changes Farrakhan poses a greater threat to black Americans than to whites The Farrakhan Phenomenon is written in a clear accessible style that will appeal to general readers concerned about race relations as well as to scholars of American history and politics It reveals a shrewd opportunist who has capitalized on America s continuing failure to deal with its serious and abiding race problems      *Islam in North America: Oxford Bibliographies Online Research Guide* Amir Hussain,2010-05 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related A reader will discover for instance the most reliable introductions and overviews to the topic and the most important publications on various areas of scholarly interest within this topic In Islamic studies as in other disciplines researchers at all levels are drowning in potentially useful scholarly information and this guide has been created as a tool for cutting through that material to find the exact source you need This ebook is a static version of an article from Oxford Bibliographies Online Islamic Studies a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of the Islamic religion and Muslim cultures Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit [www.aboutobo.com](http://www.aboutobo.com)      **Religion in America Since 1945** Patrick Allitt,2003 Identifying the major trends and telling moments within both major denominations and other less formal religious movements Allitt asks how these religious groups have shaped and been shaped by some of the most important and divisive political issues and events of the

**Muslims in the United States** Karen Isaksen Leonard, 2003-06-19 As the United States wages war on terrorism the country's attention is riveted on the Muslim world as never before While many cursory press accounts dealing with Muslims in the United States have been published since 9 11 few people are aware of the wealth of scholarly research already available on the American Islamic population In *Muslims in the United States* The State of Research Karen Isaksen Leonard mines this rich vein of research to provide a fascinating overview of the history and contemporary situation of American Muslim communities Leonard describes how Islam never a monolithic religion has inevitably been shaped by its experience on American soil American Muslims are a religious minority and arbiters of Islamic cultural values and jurisprudence must operate within the framework of America's secular social and

legal codes while coping with the ethnic differences among Muslim groups that have long divided their communities Arab Muslims tend to dominate mosque functions and teaching Arabic and the Qur'an whereas South Asian Muslims have often focused on the regional and national mobilization of Muslims around religious and political issues By the end of the 20th century however many Muslim immigrants had become American citizens prompting greater interchange among these groups and bridging some cultural differences African American Muslims remain the most isolated group a minority within a minority Many African American men have converted to Islam while in prison leading to a special concern among African American Muslims for civil and religious rights within the prison system Leonard highlights the need to expand our knowledge of African American Muslim movements which are often not regarded as legitimate by immigrant Muslims Leonard explores the construction of contemporary American Muslim identities examining such factors as gender sexuality race class and generational differences within the many smaller national origin and sectarian Muslim communities including secular Muslims Sufis and fundamentalists Muslims in the United States provides a thorough account of the impact of September 11th on the Muslim community Before the terrorist attacks Muslim leaders had been mostly optimistic envisioning a growing role for Muslims in U S society Afterward despite a brave show of unity and support for the nation Muslim organizations became more open in showing their own conflicts and divisions and more vocal in opposing militant Islamic ideologies By providing a concise summary of significant historical and contemporary research on Muslims in the United States this volume will become an essential resource for both the scholar and the general reader interested in understanding the diverse communities that constitute Muslim America
