A History Of Forgetting:

The History of Forgetting Norman M. Klein, 1997 Los Angeles is a city which has long thrived on the continual re-creation of its own myth. In this highly original work Norman Klein examines the process of memory erasure in the city. Using a distinctive mixture of fact and fiction, Klein takes us on an anti tour of downtown LA. He investigates the life for Vietnamese immigrants in the City of Dreams, playfully imagines Walter Benjamin as a Los Angeleno and looks at the way information technology has recreated the city, turning cyberspace into the last suburb. We observe the close-up demolition of neighbourhoods by urban planners, TV's misrepresentation of the Rodney King uprising in 1992, the effect on public consciousness of earthquakes, fires and racial panic, and the way in which crime novels make LA slums seem like abandoned cities in the Central American jungle.

Memory, History, Forgetting Paul Ricoeur, 2004-08-16 Firstly Paul Ricoeur takes a phenomenological approach to memory. He then addresses recent work by historians by reopening the question of the nature and truth of historical knowledge. Finally, he describes the necessity of forgetting as a condition for the possibility of remembering.

A History of Forgetting Caroline Adderson, 2001

Memory, History, Forgetting Paul Ricoeur, 2024-05-31 A noted philosopher examines the morality behind recognizing specific historical moments while leaving equally important ones unacknowledged. Why do major historical events such as the Holocaust occupy the forefront of the collective consciousness while profound moments such as the Armenian genocide, the McCarthy era, and France's role in North Africa stand distantly behind? Is it possible that history overly remembers some events at the expense of others? A landmark work in philosophy, Paul Ricoeur's *Memory, History, Forgetting* examines this reciprocal relationship between remembering and forgetting, showing how it affects both the perception of historical experience and the production of historical narrative. *Memory, History, Forgetting*, like its title, is divided into three major sections. Ricoeur first takes a phenomenological approach to memory and mnemonic devices. The underlying question here is how a memory of the present can be of something absent in the past. The second section addresses work by historians by reopening the question of the nature and truth of historical knowledge. Ricoeur explores whether historians who can write a history of memory can truly break with all dependence on memory, including memories that resist representation. The third and final section is a profound meditation on the necessity of forgetting as a condition for the possibility of remembering and whether there can be something like happy forgetting in parallel to happy memory. Throughout the book, there are careful and close readings of the texts of Aristotle and Plato, of Descartes and Kant, and of Halbwachs and Pierre Nora. A momentous achievement from one of the most significant philosophers of our age, *Memory, History, Forgetting* furthers Ricoeur's reflections on ethics and the problems of responsibility and representation.

Ricoeur and the Hermeneutics of Suspicion Alison Scott-Baumann, 2011-11-03 Paul Ricoeur (1913-2005) was one of the most prolific and influential French philosophers of the Twentieth Century. In his enormous corpus of work, he engaged with literature, history, historiography, politics, theology, and

ethics while debating truth and ethical solutions to life in the face of widespread and growing suspicion about whether such a search is either possible or worthwhile In Ricoeur and the Hermeneutics of Suspicion Alison Scott Baumann takes a thematic approach that explores Ricoeur's lifelong struggle to be both iconoclastic and yet hopeful and avoid the slippery slope to relativism Through an examination of the hermeneutics of suspicion the book reveals strong continuities throughout his work as well as significant discontinuities such as the marked way in which he later distanced himself from the hermeneutics of suspicion and his development of new devices in its place while seeking a hermeneutics of recovery Scott Baumann offers a highly original analysis of the hermeneutics of suspicion that will be useful to the fields of philosophy literature theology and postmodern social theory

Bergson and History Leon ter Schure, 2019-09-27 Henri Bergson is famous for his explorations of time as duration yet he rarely referred to history in his writings Simultaneously historians and philosophers of history have generally disregarded Bergson's ideas about the nature of time Modernity has brought change at an ever accelerating rate and one of the results of this has been a tendency toward presentism Only the here and now matters as past and future have been absorbed by the omnipresent present of the digital age In highlighting the role of history in the work of Bergson Bergson and History shows how his philosophy of life allows us to revise the modern conception of history Bergson's philosophy situates history within a broader framework of life as a creative becoming allowing us to rethink important topics in the study of history such as historical time the survival of the past and historical progress

Irenaeus of Sirmium and His Story in the Medieval East and West Marijana Vuković, 2023-12-01 The study of hagiographies has generally been focused on the more prominent saints of late antiquity and the Middle Ages who inspired significant and long lasting veneration However this has caused many less well known saints to be pushed aside and forgotten This book is a study into one such saint Irenaeus a martyr who was killed in 304 CE in Sirmium Pannonia His short lived cult his feast day and the account of his martyrdom which had been translated into Latin Greek Old Slavonic Georgian and Armenian had all been forgotten during the Middle Ages This book examines Irenaeus of Sirmium's life cult sainthood and eventual disappearance from the memory of medieval Christendom in the context of a wider study on the memory of those less well known saints who like Irenaeus became neglected and eventually forgotten Irenaeus of Sirmium and His Story in the Medieval East and West will be of interest to scholars and students alike interested in hagiography medieval literature and history as well as all those interested in the religious history of Byzantium medieval Europe and the Slavic world

Performing Memories Gabriele Biotti, 2021-04-26 What is memory today How can it be approached Why does the contemporary world seem to be more and more haunted by different types of memories still asking for elaboration Which artistic experiences have explored and defined memory in meaningful ways How do technologies and the media have changed it These are just some of the questions developed in this collection of essays analysing memory and memory shapes which explores the different ways in which past time and its elaboration have been and still are elaborated discussed written or filmed and contested but also

shared By gathering together scholars from different fields of investigation this book explores the cultural social and artistic tensions in representing the past and the present in understanding our legacies and in approaching historical time and experience Through the analysis of different representations of memory and the investigation of literature anthropology myth and storytelling a space of theories and discourses about the symbolic and cultural spaces of memory representation is developed

The Phenomenology of Testimony ,2025-03-20 Testimony is a central topic in contemporary philosophy with a vast array of disciplines from epistemology to testimonial literature demonstrating considerable interest in it Among these approaches phenomenology and hermeneutics offer exemplary ways of capturing essential dimensions of testimony that are often overlooked This volume explores the fundamental issues at stake in such a hermeneutical phenomenology by developing new insights into the defining role testimony holds in shaping personal identity and human reality in general By examining how testimony is engaged in the creation of a common world that includes singular experiences the eleven essays collected here provide thought provoking questions for other concerned disciplines including history sociology and ecology

The Documentary Imagination in Twentieth-century French Literature Alison Siân James,2020 Studying works by authors including Gide Breton Aragon Yourcenar Duras and Modiano this volume re thinks twentieth century French literature and engages with the question of distinctions between the factual and the fictional

Pentecostal Imagination and the Retrieval of Identity Paul S. Baker,2023-01-27 How does identity survive the passage of time How can we be sure that our church community in the present is a faithful representation of the originating community in the past This book explores how Pentecostalism the world s fastest growing expression of Christianity since its inception at the beginning of the twentieth century can identify as the same community that birthed the church in the first century A community that spans two millennia of church history presents numerous challenges which raise crucial questions In the case of Pentecostalism these questions concern the criteria we might employ in order to recognize various instances of that community both in the present and throughout the past The Pentecostal emphasis on the Holy Spirit as the founding force behind the early church suggests some exciting possibilities By bringing together Pentecostal theology and hermeneutical philosophy this volume develops a model which attempts to discern the Pentecostal Spirit from within history Rather than arriving at a historical survey of various theologies of the Spirit this book instead advances a historiography which is itself inherently Spirit oriented a pneumatology of history

History, Memory and Nostalgia in Literature and Culture Regina Rudaitytė,2018-07-27 The advent of the new age has alerted us to the conflicted nature of historical memory which defined the 20th century while simultaneously assaulting us with new historical upheavals that demand responsibility and critical consideration As the historical text bears traces of the writing subject the element of deception is remarkable meaning historical memory easily lends itself to forgery and false and subjective projections As such how do we think about the past about history about memory and how does memory function Is history an objective account a collection of dry reliable facts Is it an imaginative

narrative tinged with nostalgia a projection of our wishful thinking the workings of our subjective perceptions and attitudes our states of mind The essays in this volume focus on the relevance of the past to the present and future in terms of the shifting attitudes to personal and collective experiences that have shaped dominant Western critical discourses about history memory and nostalgia The contributors here take issue with the epistemological hermeneutic ethical and aesthetic dimensions of the representational practices through which we revisit and revise the meaning of the past **Reading**

Shakespeare, Memory and Performance Peter Holland,Director Shakespeare Institute and Professor of Shakespeare Studies Peter Holland,2006-11-02 This collection by leading Shakespeare scholars first published in 2006 brings together memory and performance **A Memory of Violence** Christine Shepardson,2025-08-05 Through the fifth and sixth

centuries major divisions rocked Christianity as different factions vied to make their teachings the doctrine of the Roman Empire s imperial church In the aftermath of the Council of Chalcedon in 451 miaphysite Christians often targeted as heretics by the imperial church confronted periodic violence and persecution In this book Christine Shepardson reshapes our understanding of late antiquity by centering Syriac Christianity in these complex and politicized doctrinal conflicts Drawing on critical studies of violence and memory she traces narratives of resistance and other rhetorical strategies by which miaphysite leaders radicalized their followers to endure physical deprivation and harm rather than abandon their church community **Commonplace Witnessing** Bradford Vivian,2017 Commonplace Witnessing examines how citizens

politicians and civic institutions have adopted idioms of witnessing in recent decades to serve a variety of social political and moral ends The book encourages us to continue expanding and diversifying our normative assumptions about which historical subjects bear witness and how they do so Commonplace Witnessing presupposes that witnessing in modern public culture is a broad and inclusive rhetorical act that many different types of historical subjects now think and speak of themselves as witnesses and that the rhetoric of witnessing can be mundane formulaic or popular instead of rare and refined This study builds upon previous literary philosophical psychoanalytic and theological studies of its subject matter in order to analyze witnessing instead as a commonplace form of communication and as a prevalent mode of influence regarding the putative realities and lessons of historical injustice or tragedy It thus weighs both the uses and disadvantages of witnessing as an ordinary feature of modern public life *Places of Public Memory* Greg Dickinson, Carole Blair, Brian L. Ott, 2010-08-02 Though we live in a time when memory seems to be losing its hold on communities memory remains central to personal communal and national identities And although popular and public discourses from speeches to films invite a shared sense of the past official sites of memory such as memorials museums and battlefields embody unique rhetorical principles *Places of Public Memory The Rhetoric of Museums and Memorials* is a sustained and rigorous consideration of the intersections of memory place and rhetoric From the mnemonic systems inscribed upon ancient architecture to the roadside acci *Paul and Scripture* Christopher D. Stanley, 2012-08-28 This book which grew out of the Society of Biblical Literature's Paul and Scripture Seminar explores some of the methodological problems that have arisen during the last few decades of scholarly research on the apostle Paul's engagement with his ancestral Scriptures Essays explore the historical backgrounds of Paul's interpretive practices the question of Paul's faithfulness to the context of his biblical references the presence of Scripture in letters other than the Hauptbriefe and the role of Scripture in Paul's theology All of the essays look at old questions through new lenses in an effort to break through scholarly impasses and advance the debate in new directions The contributors are Matthew W Bates Linda L Belleville Roy E Ciampa Bruce N Fisk Stephen E Fowl Leonard Greenspoon E Elizabeth Johnson Mitchell M Kim Steve Moyise Jeremy Punt Christopher D Stanley and Jerry L Sumney
