The Firmament of Time Loren Eiseley, 2016-11-15 A lyrical and meditative tour de force that traces the evolution of man and science including the rise of scientific inquiry In *The Firmament of Time* nominated for a National Book Award Loren Eiseley offers a series of brilliant provocative excursions through the history of science A paleontologist with the soul and skill of a poet he reflects on the many ways in which the quest for knowledge has been shaped by the changing cultures in which it emerged and developed Examining the role of metaphor in scientific thought anticipations of scientific discoveries in the works of poets and novelists and the unconscious conformity of scientific theory to prevailing orthodoxies he argues for the ongoing relevance of dreams the imagination and the irrational to scientific progress **The Firmament of Time** Loren Eiseley, 1972 *The Firmament of Time* Loren C. Eiseley, 1974 *Toward a Dialogue of Understandings* Mary Ellen Pitts, 1995 In *Toward a Dialogue of Understandings* Mary Ellen Pitts examines scientist Loren Eiseley's unique impact as a thinker and writer *The Talmud of the Land of Israel, Volume 1*, 1989 Publisher's description Edited by the acclaimed scholar Jacob Neusner this thirty five volume translation has been hailed by the Jewish Spectator as a project of immense benefit to students of rabbinic Judaism *The Talmud of Jerusalem* Moise Schwab, 2022-04-26 The Jerusalem Talmud probably originated in Tiberias in the School of Johanan ben Nappaha It is a compilation of teachings of the schools of Tiberias Sepphoris and Caesarea It is written largely in a western Aramaic dialect that differs from its Babylonian counterpart *The Mathematical Principles of Causal Conspiracy Book 2* Michael Mark Anthony, 2025-05-16 We are self aware The Universe is aware of itself through us What are we Each year living matter processes billions of tons of chemicals in the act of living and these chemicals become a part of life for some period experiencing the very essence of being alive We are processors bags of living chemicals bags of mainly water that experience awareness and enjoy the benefits of life Is our sole purpose to make the Universe experience life When a molecule of water becomes part of our being does it also enjoy being alive It seems as if we are meant to explore the Universe to open vistas of experience that will allow a variety of inanimate matter to experience life The need to know and learn sets us apart from ordinary matter but what lurks behind this gift Is knowledge and the act of knowing just another form of a force field like the electro magnetic field and the gravitational field This Theory explains emergent intelligence through logical causality and also provides a framework for future Artificial Intelligence *The Works of Jacob Behmen: The mysterium magnum: or, An explanation of Genesis. Four tables of divine revelation* Jakob Böhme, 1772 *The Complete Works of Thomas Dick* Thomas Dick, 1850 *The Complete Works of Thomas Dick, Ll. D.: Christina philosopher, or, Science and religion.
