A Semantic And Structural Analysis Of Ephesians Semantic And Structural Analyses Series:

A Semantic and Structural Analysis of Ephesians Edna Johnson, 2008 The books in this series are analytical commentaries on the Greek text of New Testament books Each book first identifies the high level semantic components of the text and indicates the relationships between them These components are then further analyzed to identify sub components and their relationships This process is continued until the basic units of communication called propositions are identified These propositions are stated in semantically unskewed English glosses Theme statements for paragraphs and larger units are derived from the analysis A discussion of the evidence supporting the analysis is also given A Linguistic Approach to Revelation 19:11-20:6 and the Millennium Binding of Satan Alan E. Kurschner, 2022-08-22 This study argues that the establishment of the millennium binding of Satan and the vindication of the saints in Revelation 20 1 6 are cohesively linked with Jesus s victorious battle in Revelation 19 11 21 The major implication of this analysis views both these events as consequent effects of Christ s victory at the eschatological battle Applying systemic functional linguistics and discourse analysis of cohesion this study advances critical scholarship on the Book of Revelation by offering the first fully sustained answer to this frequently debated question regarding Satan s binding from a modern linguistic approach Journal of Biblical Literature ,1972 *The Theory and Practice of Translation* Eugene Albert Nida, Charles Russell Taber, 1974 *The Theory and Practice of Translation* Eugene A. Nida, Charles R. Taber, 2023-08-14 *The Theory and Practice of Translation* Eugene Nida, Charles Taber, 2021-10-01 The Theory and Practice of Translation first published in 1982 and a companion work to *Toward a Science of Translating* Brill 1964 analyses and describes the set of processes involved in translating Bible translating the focus of this work offers a unique subject for such a study as it has an exceptionally long history involves more than 2 000 languages a vast range of cultures and a broader range of literary structures than any other type of translating Not only of interest to Biblical scholars therefore this work explores issues of textual meanings and the procedures for communicating these meanings into other languages and cultures **Linguistics and Language Behavior Abstracts** ,2007 The Pastoral Epistles Stanley E. Porter, 2023-10-17 Leading New Testament scholar Stanley Porter offers a comprehensive commentary on the Pastoral Epistles that features rigorous biblical scholarship and emphasizes Greek language and linguistics This book breaks new ground in its interpretation of these controversial letters by focusing on the Greek text and utilizing a linguistically informed exegetical method that draws on various elements in contemporary language study Porter pays attention to the overall argument of the Pastoral Epistles while also analyzing word meanings and grammatical structures to tease out the textual meaning Porter addresses major exegetical issues that arise in numerous highly disputed passages and while attentive to the history of scholarship on First Timothy Second Timothy and Titus often takes untraditional or innovative positions to blaze a new path forward rather than adopt settled answers This commentary will appeal to professors students and scholars of the New Testament Biblical Theology of prayer in the New Testament

Francois P. Viljoen, Albert J. Coetsee, 2023-08-31 This publication deals with a biblical theology of prayer based on the New Testament It forms the second of a two volume publication on a biblical theology of prayer dealing with the concept of prayer in the Old and New Testament respectively This New Testament volume begins with an introduction on prayer and worship in early Jewish tradition followed by eleven chapters dealing with New Testament corpora It concludes with a final chapter synthesising the findings of the respective investigations of the Old and New Testament corpora to provide a summative theological perspective of the development of the concept of prayer through scripture Prayer forms a major and continuous theme throughout the biblical text Prayer was an integral part of the religious existence of God's people in both the Old and New Testament It underwent its greatest developments during after and as a result of the Exile and was deepened and transformed in the New Testament In both the Old and the New Testament God is the sole addressee of his people's prayer This conviction continued into the New Testament but was broadened with Trinitarian elements of worship adoration and intercession A biblical theological investigation is chosen as methodology Since all the biblical books form part of one canonical text the assumption is that the various theologies about prayer being displayed in these books can be synthesised into a developing meta theology about prayer As the Old and New Testament form part of the canonical text the results about prayer in the Old Testament can be brought into play with the results about prayer in the New Testament This eventually leads toward an overarching biblical theology of prayer
