retelling of American religious history showing how religion has enhanced and hindered human flourishing from the Ice Age
to the Information Age Until now the standard narrative of American religious history has begun with English settlers in
Jamestown or Plymouth and remained predominantly Protestant and Atlantic Driven by his strong sense of the historical and
moral shortcomings of the usual story Thomas A Tweed offers a very different narrative in this ambitious new history He
begins the story much earlier 11 000 years ago at a rock shelter in present day Texas and follows Indigenous Peoples African
Americans transnational migrants and people of many faiths as they transform the landscape and confront the big lifeway
transitions from foraging to farming and from factories to fiber optics Setting aside the familiar narrative themes he
highlights sustainability showing how religion both promoted and inhibited individual communal and environmental
flourishing during three sustainability crises the medieval Cornfield Crisis which destabilized Indigenous ceremonial centers
the Colonial Crisis which began with the displacement of Indigenous Peoples and the enslavement of Africans and the
Industrial Crisis which brought social inequity and environmental degradation The unresolved Colonial and Industrial Crises
continue to haunt the nation Tweed suggests but he recovers historical sources of hope as he retells the rich story of America
s religious past Translations on Communist China United States. Joint Publications Research Service,1965
