## reasons people give for believing in a god

I don't want to go to hell

There has got to be some sort of reward

We just haven't proven it

I just don't like

There's this tiny voice

Nothing keeps proving my god is real

There isn't a right everything

There are more people believe in the god

The world is too beautiful to be an accident

Nothing is better than being in heaven

## **50 Reasons People Give For Believing In A God:**

**50 Reasons People Give for Believing in a God** Guy P. Harrison, 2009-09-18 Many books that challenge religious belief from a skeptical point of view take a combative tone that is almost guaranteed to alienate believers or they present complex philosophical or scientific arguments that fail to reach the average reader This is undoubtably an ineffective way of encouraging people to develop critical thinking about religion This unique approach to skepticism presents fifty commonly heard reasons people often give for believing in a God and then raises legitimate questions regarding these reasons showing in each case that there is much room for doubt Whether you re a believer a complete skeptic or somewhere in between you ll find this review of traditional and more recent arguments for the existence of God refreshing approachable and enlightening From religion as the foundation of morality to the authority of sacred books the compelling religious testimony of influential people near death experiences arguments from Intelligent Design and much more Harrison respectfully describes each rationale for belief and then politely shows the deficiencies that any good skeptic would point out As a journalist who has traveled widely and interviewed many highly accomplished people quite a number of whom are believers the author appreciates the variety of belief and the ways in which people seek to make religion compatible with scientific thought Nonetheless he shows that despite the prevalence of belief in God or religious belief in intelligent people in the end there are no unassailable reasons for believing in a God For skeptics looking for appealing ways to approach their believing friends or believers who are not afraid to consider a skeptical challenge this book makes for very stimulating reading *Thoughtful Theism: Redeeming Reason in an Irrational Age* Fr. Andrew Younan, 2017-05-25

**50 Popular Beliefs That People Think Are True** Guy P. Harrison, 2012-01-03 What would it take to create a world in which fantasy is not confused for fact and public policy is based on objective reality asks Neil deGrasse Tyson science popularizer and author of *Astrophysics for People in a Hurry* I don t know for sure But a good place to start would be for everyone on earth to read this book Maybe you know someone who swears by the reliability of psychics or who is in regular contact with angels Or perhaps you re trying to find a nice way of dissuading someone from wasting money on a homeopathy cure Or you met someone at a party who insisted the Holocaust never happened or that no one ever walked on the moon How do you find a gently persuasive way of steering people away from unfounded beliefs bogus cures conspiracy theories and the like This down to earth entertaining exploration of commonly held extraordinary claims will help you set the record straight The author a veteran journalist has not only surveyed a vast body of literature but has also interviewed leading scientists explored the most haunted house in America frolicked in the inviting waters of the Bermuda Triangle and even talked to a contrite Roswell alien He is not out simply to debunk unfounded beliefs Wherever possible he presents alternative scientific explanations which in most cases are even more fascinating than the wildest speculation For example stories about UFOs and alien abductions lack good evidence but science gives us plenty of reasons to keep exploring outer space for evidence that life exists elsewhere in the vast universe

The proof for Bigfoot or the Loch Ness Monster may be nonexistent but scientists are regularly discovering new species some of which are truly stranger than fiction Stressing the excitement of scientific discovery and the legitimate mysteries and wonder inherent in reality this book invites readers to share the joys of rational thinking and the skeptical approach to evaluating our extraordinary world

**Why I Believed** Kenneth W. Daniels,2008-06-28 Part auto biography and part expos of Ken Daniels experience and long time belief in Christianity and the questions and answers he s had to ask about with regard to the validity of Christian theories

Unapologetic John W. Loftus,2016-11-01 Just as intelligent design is not a legitimate branch of biology in public educational institutions nor should the philosophy of religion be a legitimate branch of philosophy So argues acclaimed author John W Loftus in this forceful takedown of the very discipline in which he was trained In his call for ending the philosophy of religion he argues that as it is presently being practiced the main reason the discipline exists is to serve the faith claims of Christianity Most of philosophy of religion has become little more than an effort to defend and rationalize preexisting Christian beliefs If subjects such as biology chemistry physics and geology are all taught without reference to faith based supernatural forces as explanations faith based teachings should not be acceptable in this discipline either While the book offers a fascinating study of the fallacies and flaws on which one whole field of study rests it speaks to something much larger in the ongoing culture wars By highlighting the stark differences between faith based reasoning and evidence based reasoning Loftus presents vital arguments and lessons about the importance of critical thinking not only in all aspects of study but also in life His conclusions and recommendations thus resonate far beyond the ivory towers and ivy covered walls of academic institutions

American Atheism 2.0 Martin Mican,2012-03-22 Thesis M A from the year 2010 in the subject American Studies Culture and Applied Geography grade 1 1 University of Leipzig American Studies language English abstract Odd as it may sound this paper is not interested in the existence of God or gods Neither will this paper be a work of advocacy of atheism nor of religion and faith but a not tendentious culture scientific study on contemporary atheism in the USA and its model of secularism as it is presented in the Internet

**Imaginative Apologetics** Andrew Davison,2014-07-28 A dynamic and constructive contribution to the discussion about faith and the new atheism Apologetics is a key area of Christian theology especially in an increasingly secular society The authors explore what it means to do apologetics in an Anglican context

Christian No More Jeffrey Mark,2008-08 Mark explores the deeper truths behind the Bible while discovering science logic and reason and ultimately revealing Christianity for what it really is

**A Manual for Creating Atheists** Peter Boghossian,2014-07-01 For thousands of years the faithful have honed proselytizing strategies and talked people into believing the truth of one holy book or another Indeed the faithful often view converting others as an obligation of their faith and are trained from an early age to spread their unique brand of religion The result is a world broken in large part by unquestioned faith As an urgently needed counter to this tried and true tradition of religious evangelism A Manual for Creating Atheists offers the first ever guide not for talking people into faith but for talking them out

of it Peter Boghossian draws on the tools he has developed and used for more than 20 years as a philosopher and educator to teach how to engage the faithful in conversations that will help them value reason and rationality cast doubt on their religious beliefs mistrust their faith abandon superstition and irrationality and ultimately embrace reason **The God Debates** John R. Shook,2011-08-02 The God Debates presents a comprehensive non technical survey of the quest for knowledge of God allowing readers to participate in a debate about the existence of God and gain understanding and appreciation of religion s conceptual foundations Explains key arguments for and against God s existence in clear ways for readers at all levels Brings theological debates up to the present with current ideas from modernism postmodernism fideism evidentialism presuppositionalism and mysticism Updates criticism of theology by dealing with the latest terms of the God debates instead of outdated caricatures of religion Helps nonbelievers to learn important theological standpoints while noting their shortcomings Encourages believers and nonbelievers to enjoy informed dialogue with each other Concludes with an overview of religious and nonreligious worldviews and predictions about the future of faith and reason God Loves You: Some Restrictions May Apply Tony Davis,2019-04-10 God Loves You Some Restrictions May Apply and Many Other Christian Dilemmas is written by a fairly well educated extensively travelled former Southern Baptist Bible Banger SB3 professional layman retired military intelligence officer and keen observer of the human condition who happens to be fascinated with what we believe why and the effects of those beliefs on society This is an appeal to honesty in the terms of epistemological disquisition a critical analysis of the major truth claims of religion especially Christianity apologetic justifications and foundational documents Written from 2008 until 2018 parts of this book were written on four continents in twenty five countries including an active combat zone so forget the lie about no atheists in foxholes and a number of the United States The book s focus is religion but the implications are applicable to all dogmatic belief systems The emphasis on religion is because it is perhaps the most pervasive and sublime crystallization of systematic dogmatic thinking in the human condition This book is not intended for a single audience but for several It is to serve as a reference work for unbelievers who simply don t know how to articulate their unbelief It is a position statement of why the author no longer believes For those who are on the fence and might need a source against which to evaluate their own questions it may be helpful And finally it is for the devoutly religious for two reasons to explain why not everyone agrees with them and to appeal for them to at least be honest when articulating their own beliefs **What It Means to Be Moral** Phil Zuckerman,2020-09-15 A thoughtful perspective on humans capacity for moral behavior Kirkus Reviews A comprehensive introduction to religious skepticism Publishers Weekly In What It Means to Be Moral Why Religion Is Not Necessary for Living an Ethical Life Phil Zuckerman argues that morality does not come from God Rather it comes from us our brains our evolutionary past our ongoing cultural development our social experiences and our ability to reason reflect and be sensitive to the suffering of others By deconstructing religious arguments for God based morality and guiding readers through the premises and promises of secular morality Zuckerman

argues that the major challenges facing the world today from global warming and growing inequality to religious support for unethical political policies to gun violence and terrorism are best approached from a nonreligious ethical framework In short we need to look to our fellow humans and within ourselves for moral progress and ethical action In this brilliant provocative and timely book Phil Zuckerman breaks down the myth that our morality comes from religion compellingly making the case that when it comes to the biggest challenges we face today a secular approach is the only truly moral one Ali A Rizvi author of *The Atheist Muslim*      **Pounding on Bible-Thumpers** C. Boyd Pfeiffer,2017-11-10      *Christians Are Hate-Filled Hypocrites...and Other Lies You've Been Told* Bradley R.E. Wright, Ph.D.,2010-07-01 According to the media the church is rapidly shrinking both in numbers and in effectiveness But the good news is much of the bad news is wrong Sociologist Bradley R E Wright uncovers what s really happening in the church evangelicals are more respected by secular culture now than they were ten years ago divorce rates of Christians are lower than those who aren t affiliated with a religion young evangelicals are active in the faith Wright reveals to readers why and how statistics are distorted and shows that God is still effectively working through his people today      **A Cure for Christianity** C. Boyd Pfeiffer,2015-10-01 Facts Truth Logic Science These are the basics of the world in which we live day to day in society government medicine agriculture and manufacturing But while we have a 21st century technology we also have 1st century superstitions basically those superstitions found in religion With a particular focus on Christianity and its predecessor Judaism Pfeiffer reflects on the facts of the Bible and Christian religions and his own thinking over a lifetime from a Baptist upbringing through reading on both sides of the fence to debating and discussing religious subjects with ministers priests rabbis and others of all religious persuasions Reviewing various aspects of prayer faith miracles morality heaven and hell he pokes fun at the contradictions and contrivances found in the Book and the rituals solemnly repeated long after they ve lost any meaning Biblical immoralities prophecy and blind faith come in for a sharp skewering as he roasts them in the hot gaze of reality From Baptist to the Black List author Boyd Pfeiffer risks being given the evil eye for casting doubt on some cherished beliefs In this book he tackles the subject of religion from the standpoint of common sense and logic including various interpretations of Biblical and religious meanings and content Unfortunately seen from this perspective religion is as brilliant as a burnt out bulb After a decades long search for a credible reason to believe the teachings of Christianity he turns over to the public the results of his research The precepts taught in the Bible simply do not square with the exemplary stories the Bible itself presents and the teachings and the stories don t even match up from one telling to another      *House of Faith House of Cards* Eric N. Davis,2010-05-21 Concise Vivid Honest Dan Barker critically acclaimed author of *Godless* and *Losing Faith in Faith* Brutally honest insightful and compelling storytelling Lyndon Lamborn author of *Standing for Something More* When a young couple searched for clues connecting them to a famous ancestor their journey led them on a path they never expected converting to Mormonism *House of Faith House of Cards* tells the turbulent life story of their son Eric including all the typical Mormon

experiences and some extraordinary episodes no Mormon will ever encounter He participated with family members in his first secret temple ritual normally reserved for adults at the age of four only to be excluded from a similar ceremony involving his family thirteen years later In 1857 a company of 120 immigrants set out from a small Arkansas town toward California In a tragic twist of fate they never reached their destination While encamped in southern Utah local Mormons and Paiute Indians launched an ambush brutally slaughtering the group in what became known as the Mountain Meadows massacre 125 years later Eric would be raised as a Mormon in the same Arkansas community where this wagon train initially departed There he learned just how much some people still despised that faith While training for and serving a church mission in Canada in the mid 1990s Eric shared a room and became acquainted with a fellow missionary named Mark Hacking Less than a decade later when the disappearance and murder of Hacking s wife became highly publicized several international media outlets approached Eric searching for any juicy detail of the man s troubled past These stories are just the tip of the iceberg

**Project Bible Truth** Joe E. Holman,2010-01-07 After nine years of preaching fundamentalist Christianity for the denomination known as the Church of Christ minister Joe E Holman decided to call it quits Walking away from the ministry forever Holman explains the reasons for making such a life altering and controversial decision

**Saints, Wonderful Temples, Scriptures And God's Ways!** S. Nagarajan,2022-01-21 Bharat is the land of sages and saints In the first part we are coming into contact with great saints like Shirdi Sai Baba Sri Sathya Sai Baba Bhagavan Ramana Maharishi Yogi Paramahansa Yogananda Swami Vivekananda Divine Saint Arutprakasa Vallalar Swami Chinmayananda Saraswathi In the second part the special features of some of our wonderful temples have been explained The third part is devoted to our ancient Vedas Scriptures Mahabharat etc Many secrets have been revealed in this part The fourth part is revealing God s mysterious ways The power of prayer and how God elevates men by His mysterious ways have been explained In total this book is a guide for all to understand the divinity of our land

**Free Inquiry** ,2008 [50 Simple Questions for Every Christian](#) Guy P. Harrison,2013-03-19 Written in a respectful and conversational style this unique book is designed to promote constructive dialogue and foster mutual understanding between Christians and non Christians The author a skeptic and journalist asks basic questions about Christian belief What is the born again experience Why would God want to sacrifice his only son for the world Do miracles really happen How reliable is the Bible What is the rapture Why isn t everyone a Christian Each question is followed by commentary and analysis that is skeptical and tough but never argumentative or condescending Christians will find the book useful as a basis for developing their apologetics while skeptics will welcome Harrison s probing rational analysis of religious claims
