A SALESMAN'S LESSONS What I Studied Is what I Failed to see C. R. JENA, 24-04-13 What is the ground reality for a Salesman Do the various laws theories hypotheses anecdotes and sayings of science mathematics literature engineering management history in fact everything that we painstakingly read and absorb in order to gain our college degrees before we start working equip us for field situations when we actually go into the all too real world of Sales Can we really use the academic learning we struggled with and paid so much for to sell better Are there certain factors which do not appear in the pages of any college or business school text that are crucial to success in Sales In an engaging narrative based on his own 15 years in the field the Author explores the answers to just these questions The book is light reading and fun but the lessons it contains are both down to earth and serious This is not a self help book to make you a Sales champion but if you do pick up a few tips along the way then that is a double whammy

50 Universe Ideas You Really Need to Know Joanne Baker, 2011-09-29 For millennia humanity has gazed in wonder at the night sky tracked the motions of the planets and attempted to explain our place in the Universe But only in our own time has the true scale the astonishing variety and the remarkable strangeness of the cosmos come clearly into focus The pace and sophistication of recent scientific discovery has been breathtaking but breakthroughs are often difficult to understand and their impact is hard to fully appreciate In *50 Ideas You Really Need to Know Universe* Joanne Baker clearly and concisely explains all of the
