7. When populations become crowded, what do organisms compete with one another for? They compete for food, water, space, oxygen, and other resources.

9. What are the prey and what are the predators in the predator-prey relationship in Isle Royale? The prey are moose and the predators are wolves.

10. Why does the wolf population on Isle Royale decline following a decline in the moose population? The wolf population declines because there is less to eat, causing them to starve.
