Grade Level: Kindergarten	Subject Area: Math
Lesson Title: Unit 1 – Introducing and Developing Numbers 0 - 5 and Counting to 30	Lesson Length: 15 days
THE TEACHING PROCESS	
<p>Lesson Overview: This unit bundles student expectations that address the foundational skills for developing an understanding of numbers 0 – 5, counting forward and backward 0 – 5, cardinality, subitizing, conservation of set, comparing numbers and sets of objects using comparative language, and generating numbers or set of objects less than or greater than a given amount. Students apply cardinality, hierarchical inclusion, and conservation of set as they begin to grasp the true meaning of numbers. ● Count forward and backward to 5 <u>with and without objects</u>, as well as read, write, and represent the numbers. ● Compose and decompose numbers up to 5 using objects and pictures which parallels the development of subitizing, meaning instantly recognizing the number being represented by a small quantity of objects in random and organized arrangements. Students apply all of these skills as they consider magnitude, or relative size, to compare sets of objects up to 5 and generate a set of objects and pictures that is more than, less than, or equal to a given number. ● Use comparative language to describe the comparison of numbers represented using objects, pictures, or numerals. When given a number up to 5, students are expected to generate a number that is one more than or one less than a given number. ● Recite numbers up to 30 by ones beginning with any number. Practice with rote reciting of numbers and learning the correct sequence of numbers aids in
