## **Biust Application For 2015:**

**Applications in Plant Biotechnology** Abdullah Makhzoum, Kathleen Hefferon, 2022-12-23 The book focuses on interesting topics in plant biotechnology and its applications The first section covers a number of specific medicinal plants and their secondary metabolites using genetic and metabolic engineering The pharmaceutical uses of these plant bioactive compounds and their applications in treating a variety of diseases including cancer as well as recent works on in silico and bioinformatic analysis are described The second section deals with innovative plant molecular pharming approaches and reviews the potential for using various plant host systems to design and produce effective new drugs to treat different illnesses and diseases such as HIV infectious diseases and other human and livestock diseases Critical Developments and Applications of Swarm Intelligence Shi, Yuhui, 2018-02-28 Artificial intelligence is a constantly advancing field that requires models in order to accurately create functional systems The use of natural acumen to create artificial intelligence creates a field of research in which the natural and the artificial meet in a new and innovative way Critical Developments and Applications of Swarm Intelligence is a critical academic publication that examines developing research technologies and function regarding natural and artificial acumen specifically in regards to self organized systems Featuring coverage on a broad range of topics such as evolutionary algorithms optimization techniques and computational comparison this book is geared toward academicians students researchers and engineers seeking relevant and current research on the progressive research based on the implementation of swarm intelligence in self organized systems **Wireless Communication Networks and Internet of Things** Adamu Murtala Zungeru, S Subashini, P Vetrivelan, 2018-05-09 This book is a collection of papers from international experts presented at International Conference on NextGen Electronic Technologies ICNETS2 2016 ICNETS2 encompassed six symposia covering all aspects of electronics and communications domains including relevant nano micro materials and devices Presenting recent research on wireless communication networks and Internet of Things the book will prove useful to researchers professionals and students working in the core areas of electronics and their applications especially in signal processing embedded systems and networking **High Voltage Insulating Materials-Current State and Prospects** Pawel Rozga, 2021-09-07 Studies on new solutions in the field of high voltage insulating materials are presented in this book Most of these works concern liquid insulation especially biodegradable ester fluids however in a few cases gaseous and solid insulation are also considered Both fundamental research as well as research related to industrial applications are described In addition experimental techniques aimed at possibly finding new ways of analysing the experimental data are proposed to test dielectrics *Proceedings of the Second International Conference on Computer and Communication Technologies* Suresh Chandra Satapathy, K. Srujan Raju, Jyotsna Kumar Mandal, Vikrant Bhateja, 2015-09-03 The book is about all aspects of computing communication general sciences and educational research covered at the Second International Conference on Computer Communication Technologies held during 24-26 July 2015 at Hyderabad It hosted by

CMR Technical Campus in association with Division V Education Research CSI India After a rigorous review only quality papers are selected and included in this book The entire book is divided into three volumes Three volumes cover a variety of topics which include medical imaging networks data mining intelligent computing software design image processing mobile computing digital signals and speech processing video surveillance and processing web mining wireless sensor networks circuit analysis fuzzy systems antenna and communication systems biomedical signal processing and applications cloud computing embedded systems applications and cyber security and digital forensic The readers of these volumes will be highly benefited from the technical contents of the topics      Sustainability in Developing Countries Susan Osireditse

Keitumetse,Luc Hens,David Norris,2020-10-08 This book illustrates an alternative approach to state of sustainability reporting by presenting cross sectoral and multi disciplinary discussions on sustainability issues in the context of a developing country Botswana The book volume illustrates how academic publishing can supplement African governments existing forms of reporting on sustainability by providing on ground detailed descriptions and experiences relating to achievement of the various sustainable development goals SDGs In addition this process involves increases and enhances diversity of stakeholders that report on sustainability Furthermore the approach resonates with the UN s recommendation to build local strategies for implementation of the 2030 agenda for sustainable development Conventional reporting on sustainability by most African countries is an exercise that is customarily the preserve of designated government ministries While this form of reporting provides a consistent platform for tracking sustainable development goals it can also benefit from juxtaposition with in depth descriptions and experiences provided by academic publishing Academia through publishing provides a framework for on ground situation analysis as well as in depth descriptions of African country s grass root experiences thus allowing for temporal tracking of sustainable development milestones As this volume illustrates experiences from the various contributors on this volume highlight different points of departure towards achieving the 2030 agenda Topics covered include biodiversity water management world heritage environment education tourism gender institutional approaches to achievement of SDGs as well as contribution of non governmental organisations NGO s amongst others

*Injection Molding Process Modelling* Tien-Chien Jen,Edwell Tafara Mharakurwa,Steven Otieno Otieno,Fredrick Madaraka Mwema,Job Maveke Wambua,2024-09-11 Injection Molding Process Modelling presents the application of CAE statistics and AI in defect identification control and optimization of injection molding process for quality production It showcases CAE in determining the optimal placement of injection points designing cooling channels and ensuring that the mold will produce parts with the desired specifications The book illustrates the capability of the CAE tools to simulate molten plastic flow within a mold during the injection molding process Explaining how the use of CAE statistical tools and AI enhances efficiency accuracy and collaboration the book explores the contributions to injection molding in product design and visualization prototyping and testing mold design and analysis and simulation It emphasizes the integration of statistical tools for

optimized efficiency and waste reduction including statistical process control SPC Design of Experiments DOE Regression Analysis Capability Indices Interaction effects and many more The book also illustrates the predictive modelling of typical injection molded product defects using intelligent algorithms The book will interest industry professionals and engineers working in manufacturing production automation and quality control      *Health and Medical Geography in Africa* Yemi Adewoyin, 2023-10-30 This contributed volume focuses on the evolution and current state of the sub discipline of health and medical geography in Africa It encompasses theoretical and methodological issues as well as the current teaching and research capacities of institutions offering programs in health and medical geography in Africa Further the book will review the level of adoption of the sub discipline in State policies and practice and also provide practical illustrations with case studies of how studies in the sub discipline are central to the actualization of Africa's development agenda Particular attention is paid to the relationship between health and development Through its direct and indirect impacts on labor productivity population health and wellbeing matter for the social and economic development of households and national economies Yet health is not uniform in space And so is development Comparatively on many health and development indicators Africa fares poorly The variation in health may present as differences in the occurrence and spread of diseases the distribution of and access to healthcare facilities and or in health outcomes among the population Reasons for these variations range from biology to the population's levels of exposure and susceptibility to elements in their environment including the social interactions taking place within the environment The field of health and medical geography focuses on the spatial patterns and processes underlying these variations and provides pathways for understanding and addressing them More specifically the sub discipline of health and medical geography focuses on among others how places their characteristics and processes that go on in them and environmental factors underlie and or influence disease patterns exposure and susceptibility to diseases health variations health behavior health outcomes and the provision of and access to healthcare services This volume documents perspectives and applications in health and medical geography in Africa for academics students health practitioners and development policymakers      Tertiary Education at a Glance 2015, 2015
