Anthropocene Age John J. Moran, 2017-01-25 Darwin named Geography as Queen of the sciences His observations of geographical connections had revealed the phenomenon of Life in a remarkably structured Earth world as inter locked dynamic systems This Systems View of Life is reviving at a time when we are facing a crisis of collapse in world systems and the prospect of a breaking world as a result of reckless human activities driven by amoral values We are all geographers embarked on a voyage in search of the optimum location with the promise of support and betterment of our future living conditions But for most of the world's people this is an experience of Life fraught with hardship and deprivation Compelled to take stock of our deteriorating environment as well as to question the values we hold the message is that we have the collective restorative power of geographical knowledge which can be applied to achieve a better world **Workbook**
