Academic Assessment and Intervention Steven Little,Angeleque Akin-Little,2014-01-21 Serving students with academic deficiencies necessitates communication and collaboration among professionals from several disciplines Academic Assessment and Intervention brings together divergent approaches in order to demonstrate that scientific evidence rather than biases or previous practice must determine assessment practices that are selected and used for particular purposes Similar to a handbook in its comprehensive topical coverage this edited collection provides a contextual foundation for academic assessment and intervention describes both norm referenced and curriculum based assessment measurement in detail considers the implications of both of these assessments on ethnically diverse populations provides a clear link between assessment evidence based interventions and the RTI model and considers other important topics related to this area such as teacher behavior Intended primarily for graduate level courses in education school psychology or child clinical psychology it will also be of interest to practicing professionals in these fields **Rebuilding Public Confidence in Educational Assessment** Mary Richardson,2022-05-23 Educational assessment is important But in the twenty first century it is easy to feel that schooling and other phases of education are shaped entirely by certain assessments and that assessment is only about exam results The idea that test grades can accurately describe the aims and outcomes of education is unfair and

reductive Yet it is a pervasive and persuasive discourse This book is about such discourses the stories we tell each other and how they impact public trust and confidence in educational assessment It explains the roots and nature of assessment discourses and proposes a restructuring of the debates in order to rebuild public confidence It aims to challenge dominant assessment discourses and demands a more nuanced informed debate about what happens in and beyond schools and how this influences public thinking Questioning the status quo needs buy in from policymakers teachers parents and students and from the broader public from journalists you me our friends and our children Using examples from international settings to explore the nature of trust in assessment discourses Rebuilding Public Confidence in Educational Assessment shows how these discourses can be reframed so that all aspects of the assessment system policymaking school planning home practice with students can be undertaken with confidence

Handbook of Medical Neuropsychology Carol L. Armstrong, Lisa Morrow, 2010-08-09 This handbook celebrates the abundantly productive interaction of neuropsychology and medicine This interaction can be found in both clinical settings and research laboratories often between research teams and clinical practitioners It accounts for the rapidity with which awareness and understanding of the neuropsychological components of many common medical disorders have recently advanced The introduction of neuropsychology into practice and research involving conditions without obvious neurological components follows older and eminently successful models of integrated care and treatment of the classical brain disorders In the last 50 years with the growing understanding of neurological disorders neuropsychologists and medical specialists in clinics at bedside and in laboratories together have contributed to important clinical and scientific advances in the understanding of the common pathological conditions of the brain stroke trauma epilepsy certain movement disorders tumor toxic conditions mostly alcohol related and degenerative brain diseases It is not surprising that these seven pathological conditions were the first to receive attention from neuropsychologists as their behavioral symptoms can be both prominent and debilitating often with serious social and economic consequences
