American Sniper Drill Scene:

The Enemy in Contemporary Film Martin Löschnigg, Marzena Sokołowska-Paryż, 2018-08-21 Culture and conflict inevitably go hand in hand. The very idea of culture is marked by the notion of difference and by the creative fraught interaction between conflicting concepts and values. The same can be said of all key ideas in the study of culture such as identity and diversity, memory and trauma, the translation of cultures and globalization, dislocation and emplacement, mediation and exclusion. This series publishes theoretically informed original scholarship from the fields of literary and cultural studies as well as media, visual and film studies. It fosters an interdisciplinary dialogue on the multiple ways in which conflict supports and constrains the production of meaning, on how conflict is represented, how it relates to the past and projects the present, and how it frames scholarship within the humanities. Journeys into Terror Cynthia J. Miller, A. Bowdoin Van Riper, 2023-05-23 Since ancient times explorers and adventurers have captured popular imagination with their frightening narratives of travels gone wrong. Usually these stories heavily feature the exotic or unknown and can transform any journey into a nightmare. Stories of such horrific happenings have a long and rich history that stretches from folktales to contemporary media narratives. This work presents eighteen essays that explore the ways in which these texts reflect and shape our fear and fascination surrounding travel, posing new questions about the geographies of evil and how our notions of terrible places and their inhabitants change over time. The volume's five thematic sections offer new insights into how power, privilege, uncanny landscapes, misbegotten quests, hellish commutes, and deadly vacations can turn our travels into terror.

The Films of Clint Eastwood Matt Wanat, Leonard Engel, 2018-05-15 The indefatigable Clint Eastwood, the great old man of American film, is still controversial after all these years. Many of the critical essays in this collection focus on Eastwood's 2014 *American Sniper*, a particularly controversial film and a devastating personal account of the horrors of war. Additional essays within the collection address his films that deserve more recognition than they have received to date. The chapters vary by topic and identify themes ranging from aging, race, and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood's body of cinematic work. As a collection, these essays show that none of these themes account for Eastwood's

entire vision which is multifaceted and often contradictory dramatizing complex issues in powerful character driven narratives

Monstrous Fantasies Leila K. Norako, 2024-08-15 Monstrous Fantasies asks why medieval romances reimagining the crusades ending in a Christian victory circulated in England with such abundance after the 1291 Muslim reconquest of Acre the last of the Latin crusader states in the Holy Land and what these texts reveal about the cultural anxieties of late medieval England Leila K Norako highlights the impact that the Ottoman victory and subsequent massacre of Christian prisoners at the battle of Nicopolis in 1396 had on intensifying the popularity of what she calls recovery romance These two episodes inspired a sense of urgency over the fate of the Holy Land and of Latin Christendom itself resulting in the proliferation of romances in which crusading English kings like Richard I and anachronistic legends like King Arthur not only reconquered Jerusalem but committed genocidal violence against the Muslims These romances which as Norako argues also influenced Geoffrey Chaucer's Canterbury Tales conjure fantasies of an ascendant global Christendom by rehearsing acts of conquest and cultural annihilation that were impossible to realize in the late Middle Ages Emphasizing the tension in these texts between nostalgia and anticipation that fuels their narrative momentum Monstrous Fantasies also explores how the cultural desires for European and Christian hegemony that recovery romances versified were revived in the wake of the so called wars on terror in the twenty first century in such films as Kingdom of Heaven and American Sniper

American War Stories Brenda M. Boyle, 2020-11-13 American War Stories asks readers to contemplate what traditionally constitutes a war story and how that constitution obscures the normalization of militarism in American culture The book claims the traditionally narrow scope of war story as by a combatant about his wartime experience compartmentalizes war casting armed violence as distinct from everyday American life Broadening war story beyond the specific genres of war narratives such as war films war fiction or war memoirs American War Stories exposes how ingrained militarism is in everyday American life a condition that challenges the very democratic principles the United States is touted as exemplifying

Archibald Yell (c) William W. Hughes, 1988 **Through the Crosshairs** Roger Stahl, 2018-06-21 Now that it has become so commonplace we rarely blink an eye at camera footage framed by the crosshairs of a sniper's gun or from the perspective of a descending smart bomb But how did this weaponized gaze become the norm for depicting war and how has it influenced public perceptions Through the Crosshairs traces the genealogy of this weapon's eye view across a wide range of genres including news reports military

public relations images action movies video games and social media posts As he tracks how gun camera footage has spilled from the battlefield onto the screens of everyday civilian life Roger Stahl exposes how this raw video is carefully curated and edited to promote identification with military weaponry rather than with the targeted victims He reveals how the weaponized gaze is not only a powerful propagandistic frame but also a prime site of struggle over the representation of state violence

Locating Classical Receptions on Screen Ricardo Apostol, Anastasia Bakogianni, 2018-10-19 This volume explores film and television sources in problematic conversation with classical antiquity to better understand the nature of artistic reception and classical reception in particular Drawing inspiration from well theorized fields like adaptation studies comparative literature and film the essays in this collection raise questions fundamental to the future of reception studies The first section Beyond Fidelity deals with idiosyncratic adaptations of ancient sources the second section Beyond Influence discusses modern works purporting to adapt ancient figures or themes that are less straightforwardly ancient than they may at first appear while the last section Beyond Original uses films that lack even these murky connections to antiquity to challenge the notion that studying reception requires establishing historical connections between works As questions of audience interpretation and subjectivity are central to most contemporary fields of study this is a collection that is of interest to a wide variety of readers in the humanities

The Good War's Greatest Hits Philip D. Beidler, 1998 The glow of 1945 persists as a kind of beacon for American society symbolic of an era when good and evil were easily defined This image is at the center of Philip D Beidler's entertaining look at the way World War II reshaped American popular culture The legend of the Good War was fostered by wartime propaganda and reinforced in the aftermath of victory through books the news media movies songs and television Beidler captures the aura of the times as he chronicles the production histories of more than a dozen projects with wartime themes examining how books and plays evolved into films how stars were considered and selected technical problems and personality conflicts during production and the public's reactions From the upbeat tempo of the musical *South Pacific* to the weary disillusionment of *The Best Years of Our Lives* from the patriotic nostalgia of *Life's Picture History of World War II* to the moral ambiguity of *From Here to Eternity* a powerful mythology of the war developed As a consequence the line between fact and fiction has blurred for the war generation and its inheritors and Hollywood's version of the Good War has become enshrined as historical fact in the nation's collective memory
