Gavin,Carolyn W. de la L. Oulton,2024-07-27 This five volume series British Women s Writing From Bront to Bloomsbury 1840 1940 historically contextualizes and traces developments in women s fiction from 1840 to 1940 Critically assessing both canonical and lesser known British women s writing decade by decade it redefines the landscape of women s authorship across a century of dynamic social and cultural change With each of its volumes devoted to two decades the series is wide in scope but historically sharply defined Volume 3 1880s and 1890s analyses confluences and developments in women s writing across two fin de si cle decades Its 16 original essays reconsider fiction by canonical and lesser known women writers redefining the landscape of female authorship during these decades By exploring women s fiction within the social and cultural contexts of the 1880s and 1890s the collection distils in terms of women s writing how these decades discretely build on earlier work that is identifiably Victorian The last two decades of the century in distinctive ways witnessed literary experiment reflection on the limits of realism and a fruitful sense of confusion about what was ending and what was about to begin *Children in Care, 1834-1929* Rosemary Steer,2020-07-30 A study of the lives of Britain s children who were looked after by the government during the main period of the Poor Law Amendment Act from 1834 to 1929 For centuries there have been children who have not lived with their birth parents for a range of reasons and have been taken into the care of the state voluntary societies other families or employers temporarily or permanently The origins of this book lie in Rosemary Steer s study of the lives of over 300 children who came into the care of a charity in the village of Dickleburgh in Norfolk started in the 1870s by the Rector s wife Mrs Louisa Brandreth This book extends the study of children in care across the country to cover the main period of the Poor Law Amendment Act the new poor law from 1834 to 1929 Using a wide range of sources including contemporary social commentaries and inquiries poor law records charity case files court records newspapers parliamentary inquiries census returns parish records and personal accounts Rosemary Steer details the range of provision and explores the lives of some of these children before during and after their time in care Research into the care of pauper children has usually been anonymized but *Children in Care* includes examples of named children and through numerous case studies we hear these children s stories sometimes in their own words or those of the adults who had charge of them It is

unlikely that many of these pauper children would feature in any other study other than individually within the context of family history so this book also has the benefit of highlighting the lives of some of the least regarded of society Praise for Children in Care 1834 1929 This is a very interesting book indeed the work effort and research that has gone into this by the author is incredible and I say that as someone who has had to trawl through these types of records before It is the work of the author Steer that makes it the success it should be I would highly recommend this book to anyone but in particular I would invite all students who are learning about history social history and even law to read this book because of its reliance on source material is fantastic which is why rate 5 stars and it will probably make my top ten books of the year UK Historian

Button, Jessica A. Sheetz-Nguyen, 2025-03-05 During the long nineteenth century British women reframed the masculine paradigm of the Grand Tour They created a feminist travel gaze intentionally or unintentionally that differed from that of male peers Unlike their brothers who went for personal edification women with means left their English homes for the great Italian cities of Florence Naples and Rome to escape personal disappointments and the social limitations imposed by parents spouses and society The anonymity of travel to a distant land and new freedoms fostered political and creative achievements including entrepreneurial journalism literary masterpieces and social advocacy for their gender which redefined the contours of the Anglo Italian cultural landscape The historical evidence presented here testifies to the life changing capacity of travel and firmly demonstrates how British women's history and literature enriches and broadens narratives about Britain and the World *Critical Histories in Care and Education* Kate Brooks, 2025-02-07 This groundbreaking and thought provoking book puts the care experience at the centre of education history Engaging and accessible Critical Histories in Care and Education provides historical insight to the growing

field of care studies and reveals how nineteenth century assumptions and prejudices about care experienced pupils helped shape education policy and continue to do so today Drawing together original archive research with critical theory and written by an academic researcher and writer who is a foster carer herself the book challenges some of the key myths and stereotypes involving the care experience and shines an illuminating light on their origins Aimed primarily at undergraduate and postgraduate students in education this book identifies discursive threads and provides a fresh insight through a critical retelling of the history of the care system In combining the histories of care and education it challenges some taken for granted assumptions about both Throughout the book students are invited to critically examine relationships between gender class care and work and how they continue to impact on the role today The book is a vital resource for anyone involved in studying childhood education welfare and care and will appeal to anyone wanting to broaden their knowledge and critical understanding of this complex topic

Provincial Police Reform in Early Victorian England Roger Swift, 2021-04-21 The establishment of new police forces in early Victorian England has long attracted historical enquiry and debate albeit with a general focus on London and the urban industrial communities of the Midlands and the North This original study contributes to the debate by examining the nature and process of police reform the changing relationship between the police and the public and their impact on crime in Cambridge a medium sized county town with a rural hinterland It argues that the experience of Cambridge was unique for the Corporation shared co jurisdiction of policing arrangements with the University and this fractious relationship as well as political rivalries between Liberals and Tories impeded the reform process although the force was certified efficient in 1856 Case studies of the careers of individual policemen and of the crimes and criminals they encountered shed additional light on the darker side of life in early Victorian Cambridge and present a different and more nuanced picture of provincial police reform during a seminal period in police history than either the traditional Whig or early revisionist Marxist interpretations implied As such it will support undergraduate courses in local social and criminal justice history during the Victorian period
