Russian Opera and the Symbolist Movement Simon Morrison, 2002-08-05 A pioneering study of the Symbolist Movement in early twentieth century Russian opera

Russian Symbolism and Literary Tradition Michael Wachtel, 1994 Michael Wachtel explores here the art and development of Vyacheslav Ivanov 1866-1949 a poet and theorist who articulated a highly influential concept of Symbolism The German writers Goethe and Novalis played a powerful part in Ivanov's vision and were in his mind powerful precursors in a proto Symbolist pantheon Their work not only influenced his writing but also in maintaining the Symbolist creed of unity in art and life altered his world perspective Wachtel in exploring Ivanov's relationship to Goethe and Novalis illuminates the issues that lie at the core of Symbolism the theory of the symbol poetics poetry as theurgy the relationship between literary creation and real life and the theory and practice of translation

Russian Symbolism in Search of Transcendental Liquescence Anastasia Kostetskaya, 2019-06-24 The book examines Russian symbolist texts and turns the focus from their traditional historic cultural interpretations to analyze the symbolist cognitive aesthetics aesthetics that govern links between poetry art and cinema and the sensory emotional imagery they evoke This aesthetics inextricably map mystical transcendence to a spiritual world a realibus ad realiora through fluid transmutation Anastasia Kostetskaya presents an innovative cross disciplinary analysis of iconicity a relationship of resemblance between the artistic form and its meaning the possibilities of which symbolist artists explored to create sublime emotional experiences for the reader or viewer She challenges the strictly dualistic and hierarchical terms of traditional symbolist concepts This study demonstrates that this counterdualistic tendency cognitively extends from liquescence a perception of fluid continuity between people and water This analysis of interconnected symbolist media shows how symbolists rely on blending in their attempts to engender emotional flux through the pliable form Fusing cognitivist and historic cultural approaches in fluidly connected art modes this book represents chronological conceptual and aesthetic continuity from poetry by Konstantin Bal-mont 1867-1942 paintings by Viktor Borisov Musatov 1870-1905 and cinematography by Evgenii Bauer 1865-1917

Sub Specie Aeternitatis Nikolay Alexandrovich Berdyaev, 2021-12-20 Wealth without work Pleasure without conscience Science without humanity Knowledge without character Politics without principle Commerce without morality Worship without sacrifice <https://vidjambov.blogspot.com/2023/01/book-inventory-vladimir-djambov-talmach.html> The philosophical foundation and defense of religion and mysticism is an important task of our era and in defending this we must be not apologists but free researchers and seekers My experiences of philosophical journalism attempts to consider the temporary sub specie aeternitatis a feasible contribution to the philosophical defense of religious cultural and religious social ideas We are accused that in such a hot and difficult time we are busy with eternity we are

interested in God but this is the strangest and most unacceptable of all objections Say that there is no eternity and there is no God this is understandable and this will be an objection in essence But let the reality of God for one second and you will have to admit that at all times you should think about Him and look for ways to unite with Him and especially at the moment of storm earthquake and fire Long live Reason and may common sense the kingdom of darkness the kingdom of sober rational madness be hidden The concept of personality human individuality is unthinkable without freedom as an internal definition of its nature The creative acts of the individual are free but it the individual is bound by the creative acts of other personalities and by her belonging to the world whole therefore at every step the personality is faced with necessity which takes the forms of oppression and enslavement 93 Therefore the inner spiritual freedom of the human person can and should be opposed to imposed necessity oppression enslavement that is external lack of freedom Fighting for freedom for himself and for others an internally free person realizes his destiny in the world puts his creative stamp on it defends his right to be determined only by his freedom his inner creative power which collides with a bound and imposed world And that unfree object which the positivists call man cannot oppose itself to anything to any external oppression to any lack of freedom it is not able to introduce any creative and opposing principle into this bound slave world Only a free man a spiritual being whose roots lie in the bottomless depths of being can strive for ultimate freedom in a position to fight for it while an unfree piece of nature would remain in slavery until the end of time And we are now inspired by an undefined social and state system historically limited and in reality bourgeois but by the inalienable rights of the individual which constitute absolute superclass and supra historical benefits

Modernism and the Spiritual in Russian Art Louise Hardiman, Nicola Kozicharow, 2017-11-13 In 1911 Vasily Kandinsky published the first edition of *On the Spiritual in Art* a landmark modernist treatise in which he sought to reframe the meaning of art and the true role of the artist For many artists of late Imperial Russia a culture deeply influenced by the regime's adoption of Byzantine Orthodoxy centuries before questions of religion and spirituality were of paramount importance As artists and the wider art community experimented with new ideas and interpretations at the dawn of the twentieth century their relationship with the spiritual broadly defined was inextricably linked to their roles as pioneers of modernism This diverse collection of essays introduces new and stimulating approaches to the ongoing debate as to how Russian artistic modernism engaged with questions of spirituality in the late nineteenth to mid twentieth centuries Ten chapters from emerging and established voices offer new perspectives on Kandinsky and other familiar names such as Kazimir Malevich Mikhail Larionov and Natalia Goncharova and introduce less well known figures such as the Georgian artists Ucha Japaridze and Lado Gudiashvili and the craftswoman and art promoter Aleksandra Pogosskaia Prefaced by a lively and informative introduction by Louise Hardiman and Nicola Kozicharow that sets these perspectives in their historical and critical context *Modernism and the Spiritual in Russian Art* New Perspectives enriches our understanding of the modernist period and breaks new ground in its re examination of the role of religion and spirituality in the visual arts in late

Imperial Russia Of interest to historians and enthusiasts of Russian art culture and religion and those of international modernism and the avant garde it offers innovative readings of a history only partially explored revealing uncharted corners and challenging long held assumptions

Russian Literature and Its Demons Pamela Davidson, 2000 Merezhkovsky s bold claim that all Russian literature is to a certain degree a struggle with the temptation of demonism is undoubtedly justified And yet despite its evident centrality to Russian culture the unique and fascinating phenomenon of Russian literary demonism has so far received little critical attention This substantial collection fills the gap A comprehensive analytical introduction by the editor is followed by a series of fourteen essays written by eminent scholars in their fields The first part explores the main shaping contexts of literary demonism the Russian Orthodox and folk tradition the demonization of historical figures and views of art as intrinsically demonic The second part traces the development of a literary tradition of demonism in the works of authors ranging from Pushkin and Lermontov Gogol and Dostoevsky through to the poets and prose writers of modernism including Blok Akhmatova Bely Sologub Rozanov Zamiatin and through to the end of the 20th century

A Soviet Credo: Shostakovich's Fourth Symphony Pauline Fairclough, 2017-07-05 Composed in 1935 36 and intended to be his artistic credo Shostakovich s Fourth Symphony was not performed publicly until 1961 Here Dr Pauline Fairclough tackles head on one of the most significant and least understood of Shostakovich s major works She argues that the Fourth Symphony was radically different from its Soviet contemporaries in terms of its structure dramaturgy tone and even language and therefore challenged the norms of Soviet symphonism at a crucial stage of its development With the backing of prominent musicologists such as Ivan Sollertinsky the composer could realistically have expected the premiere to have taken place and may even have intended the symphony to be a model for a new kind of democratic Soviet symphonism Fairclough meticulously examines the score to inform a discussion of tonal and thematic processes allusion paraphrase and reference to musical types or intonations Such analysis is set deeply in the context of Soviet musical culture during the period 1932 36

involving Shostakovich's contemporaries Shebalin Myaskovsky Kabalevsky and Popov A new method of analysis is also advanced here where a range of Soviet and Western analytical methods are informed by the theoretical work of Shostakovich's contemporaries Viktor Shklovsky Boris Tomashevsky Mikhail Bakhtin and Ivan Sollertinsky together with Theodor Adorno's late study of Mahler In this way the book will significantly increase an understanding of the symphony and its context *The Influence of French Symbolism on Russian Poetry* Georgette Donchin, 1958

A History Of Russia Volume 2 Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world

Nabokov, History and the Texture of Time Will Norman, 2012 This book argues that the apparent evasion of history in Vladimir Nabokov's fiction conceals a profound engagement with social and therefore political temporalities While Nabokov scholarship has long assumed the same position as Nabokov himself that his works exist in a state of historical exceptionalism this study restores the content context and commentary to Nabokovian time by reading his American work alongside the violent upheavals of twentieth century ideological conflicts in Europe and the United States This approach explores how the author's characteristic temporal manipulations and distortions function as a defensive dialectic against history an attempt to salvage fiction for autonomous aesthetics Tracing Nabokov's understanding of the relationship between history and aesthetics from nineteenth century Russia through European modernism to the postwar American academy the book offers detailed contextualized readings of Nabokov's major writings exploring the tensions fissures and failures in Nabokov's attempts to assert aesthetic control over historical time In reading his response to the rise of totalitarianism the Holocaust and Cold War Norman redresses the commonly expressed admiration for Nabokov's heroic resistance to history by suggesting the ethical aesthetic and political costs of reading and writing in its denial This book offers a rethinking of Nabokov's location in literary history the ideological impulses which inform his fiction and the importance of temporal aesthetics in negotiating the matrices of modernism
