during this era      **China's Path of Industrialization** Bei Jin,2020-01-23 This book reviews China's industrialization from the perspective of inclusiveness and discusses the challenges arising from its industrialization process and how the Chinese people view and seek to overcome these challenges By examining China's industrialization in the context of the global economy it reveals how China should be further integrated into and contribute to the great endeavor of worldwide industrialization and human development in the new era of economic globalization allowing it to become a responsible stakeholder through its national rejuvenation for the benefit of the entire world      **The Genesis of Israel and Egypt**

Emmet Sweeney,2023-10-01 The Genesis of Israel and Egypt examines the earliest phase of historical consciousness in the ancient Near East looking in particular at the mysterious origins of Egypt's civilization and its links with Mesopotamia and the early Hebrews The book takes a radically alternative view of the rise of high civilization in the Near East and the forces which propelled it The author Emmet Sweeney finds that the early civilizations developed amidst a background of massive and repeated natural catastrophes events which had a profound effect upon the ancient peoples and left its mark upon their myths legends customs and religions Ideas found in all corners of the globe concepts such as dragon worship pyramid building and human sacrifice are shown by Sweeney to have a common origin in the cataclysmic events of the period termed the eruptive age by legendary English explorer Percy Fawcett Terrified and traumatized by the forces of nature people all over the world began to keep an obsessive watch on the heavens and to offer blood sacrifices to the angry sky gods These events which are fundamental to any understanding of the first literate cultures have nonetheless been completely effaced from the history books and an official history of mankind which is little more than an elaborate fiction now graces the bookshelves of the world's great libraries Starting with clues unearthed by history sleuth Immanuel Velikovsky and others Emmet Sweeney takes the investigation further While the Near Eastern civilizations are generally considered to have taken shape around 3300 BC about 2 000 years before those of China and the New World Ages in Alignment demonstrates that they had no 2 000 year head start All the ancient civilizations arose simultaneously around 1300 BC in the wake of a terrible natural catastrophe recalled in legend as the Flood or Deluge Sweeney points out that the presently accepted chronology of Egypt is not based on science but on venerated literary tradition This chronology had already been established in its present form by the third century BC when Jewish historians utilizing the History of Egypt by the Hellenistic author Manetho sought to tie in Egypt's history with that of the Bible Apparent gaps and weird repetitions resulted Improbable feats like the construction of major cut stone engineering projects before the advent of steel tools or Pythagorean geometry point to the weaknesses of the traditional view Taking a more rigorous approach and pointing to solid evidence Emmet Sweeney shows where names overlap and where one and the same group is mistaken for different peoples in different times Volume 1 The Genesis of Israel and Egypt looks at the archaeological evidence for the Flood evidence now misinterpreted and ignored This volume examines the rise of the first literate cultures in the wake of the catastrophe and goes on to trace the story of the

great migration which led groups of early Mesopotamians westward toward Egypt where they helped to establish Egyptian civilization This migration recalled in the biblical story of Abraham provides the first link between Egyptian and Hebrew histories The next link comes a few generations later with Imhotep the great seer who solved the crisis of a seven year famine by interpreting pharaoh Djoser's dream Imhotep is shown to be the same person as Joseph son of Jacob **Spare Me the Details!** Sara Drogin, 2008-05 Spare Me the Details begins with Ancient Greece and concludes with the twenty first century The book describes the key periods events and luminaries of Western history provides cause and effect analysis and establishes historical connections across time periods Additionally Spare Me the Details develops two major themes central to Western civilization the evolution of humanism and the growth of democracy It also pays special attention to the role of women throughout history and to the connection between the arts and history Antarctic Policymaking and Science in the Netherlands, Belgium and Germany (1957-1990) Benjamin Peter Abbink, Rijksuniversiteit te Groningen, 2009 The focus of this study is on Dutch Antarctic policy In order to explain Dutch Antarctic policy from the late 1950s until 1990 and to place it in a broader context Dutch policy will be compared with the Antarctic policies of Belgium and Germany Federal Republic of Germany FRG in the same period 6 The comparison offers insights into the functioning of the ATS and into the roles if any of the three countries in this international regime in the period under investigation This adds another central question to this research How does Dutch Antarctic policy compare with the Belgian and German Antarctic policies in the same period

*Aftershocks* Seva Gunitsky, 2017-03-28 Over the past century democracy spread around the world in turbulent bursts of change sweeping across national borders in dramatic cascades of revolution and reform Aftershocks offers a new global oriented explanation for this wavelike spread and retreat not only of democracy but also of its twentieth century rivals fascism and communism Seva Gunitsky argues that waves of regime change are driven by the aftermath of cataclysmic disruptions to the international system These hegemonic shocks marked by the sudden rise and fall of great powers have been essential and often neglected drivers of domestic transformations Though rare and fleeting they not only repeatedly alter the global hierarchy of powerful states but also create unique and powerful opportunities for sweeping national reforms by triggering military impositions swiftly changing the incentives of domestic actors or transforming the basis of political legitimacy itself As a result the evolution of modern regimes cannot be fully understood without examining the consequences of clashes between great powers which repeatedly and often unsuccessfully sought to cajole inspire and intimidate other states into joining their camps **Islamic Economy and Social Mobility: Cultural and Religious Considerations**
