The Unexamined Orwell John Rodden, 2012-08-17 A reflection on Orwell as idea that outlines some of the misconceptions and misuses of the Orwell name Modern Fiction Studies The year 1984 is just a memory but the catchwords of George Orwell s novel Nineteen Eighty Four still routinely pepper public discussions of topics ranging from government surveillance and privacy invasion to language corruption and bureaucratese Orwell s work pervades the cultural imagination while others of his literary generation are long forgotten Exploring this astonishing afterlife has become the scholarly vocation of John Rodden who is now the leading authority on the reception impact and reinvention of George Orwell the man and writer as well as of Orwell the cultural icon and historical talisman In *The Unexamined Orwell* Rodden delves into dimensions of Orwell s life and legacy that have escaped the critical glare He discusses how several leading American intellectuals have earned the title of Orwell s successor including Lionel Trilling Dwight Macdonald Irving Howe Christopher Hitchens and John Lukacs He then turns to Germany and focuses on the role and relevance of Nineteen Eighty Four in the now defunct communist nation of East Germany Rodden also addresses myths that have grown up around Orwell s life including his more than half legendary encounter with Ernest Hemingway in liberated Paris in March 1945 and analyzes literary issues such as his utopian sensibility and his prose style Finally Rodden poses the endlessly debated question What would George Orwell do and speculates about how the prophet of Nineteen Eighty Four would have reacted to world events In so doing Rodden shows how our responses to this question reveal much about our culture s ongoing need to reappropriate Orwell *Books on Turkey*, 2005 *Unhitched* Richard Seymour, 2013-01-16 Irascible and forthright Christopher Hitchens stood out as a man determined to do just that In his younger years a career minded socialist he emerged from the smoke of 9 11 a neoconservative Marxist an advocate of America s invasion of Iraq filled with passionate intensity Throughout his life he played the role of universal gadfly whose commitment to the truth transcended the party line as well as received wisdom But how much of this was imposture In this highly critical study Richard Seymour casts a cold eye over the career of the Hitch to uncover an intellectual trajectory determined by expediency and a fetish for power As an orator and writer Hitchens offered something unique and highly marketable But for all his professed individualism he remains a recognizable historical type the

apostate leftist Unhitched presents a rewarding and entertaining case study one that is also a cautionary tale for our times

Der Karikaturenstreit und die Pressefreiheit. Wert- und Normenkonflikte in der globalen Medienkultur Bernhard Debatin, 2007 Die von der dänischen Zeitung Jyllands Posten im September 2005 veröffentlichten Mohammed Karikaturen waren für manche ein Test der Grenzen der Pressefreiheit für andere nur eine bosartige und geschmacklose Provokation Für wiederum andere boten sie einen willkommenen Anlass zum gewalttätigen Protest Der Karikaturenstreit wirft eine Reihe von Fragen auf Geht es um die Verteidigung der Pressefreiheit oder um bloße Islamophobie Steht hier westliche Toleranz gegen östliche Borniertheit oder geht es um gegenseitigen Respekt und Zurückhaltung Wurde der ganze Konflikt durch die Medien künstlich erzeugt und angeheizt Müssen wir in der globalisierten Medienkultur eine neue Medienethik der interkulturellen Anerkennung entwickeln Und wie können wir erreichen dass dieser Respekt wechselseitig ist und nicht bloss zur liberalen Toleranz der Intoleranz wird To some the infamous Mohammed Cartoons that were published in September 2005 by the Danish newspaper Jyllands Posten tested the limits of the freedom of the press Others regarded them as a malicious and tasteless provocation And for yet others they were a welcome excuse for violent protests The cartoon debate raises a number of questions What is paramount here defense of the freedom of the press or mere Islamophobia Is Western tolerance pitted against Oriental narrow mindedness or is this rather an issue of mutual respect and restraint Was the whole conflict artificially created and inflamed by the media Do we need to develop a new media ethics of intercultural recognition in the global media culture And how can we ensure that this respect is mutual and not just laissezfaire tolerance of intolerance

Deconstruction After 9/11 Martin McQuillan, 2008-10-07 In this book Martin McQuillan brings Derrida's writing into the immediate vicinity of geo politics today from the Kosovan conflict to the war in Iraq The chapters in this book follow both Derrida's writing since *Specters of Marx* and the present political scene through the former Yugoslavia and Afghanistan to Palestine and Baghdad His textual activism is as impatient with the universal gestures of philosophy as it is with the complacency and reductionism of policy makers and activists alike This work records a response to the war on thinking that has marked western discourse since 9 11

The Liberal Defence of Murder Richard Seymour, 2014-04-15 A war that has killed more than a million Iraqis was a humanitarian intervention the US army is a force for liberation and the main threat to world peace is posed by Islam These are the arguments of a host of liberal commentators including such notable names as Christopher Hitchens Kanan Makiya Michael Ignatieff Paul Berman and Bernard Henri Lvy In this critical intervention Richard Seymour unearths the history of liberal justifications for empire showing how savage policies of conquest including genocide and slavery have been retailed as charitable missions From the Cold War to the War on Terror Seymour argues that colonialist notions of civilization and progress still shape liberal pro war discourse concealing the same bloody realities In a new afterword Seymour revisits the debates on liberal imperialism in the era of Obama and in the light of the Afghan and

Iraqi debacles **How Hitchens Can Save the Left** Matt Johnson, 2023-02-14 Christopher Hitchens was for many years considered one of the fiercest and most eloquent left wing polemicists in the world But on much of today's left he is remembered as a defector a warmonger and a sellout a supporter of the wars in Afghanistan and Iraq who traded his left wing principles for neoconservatism after the September 11 attacks In *How Hitchens Can Save the Left* Matt Johnson argues that this easy narrative gets Hitchens exactly wrong Hitchens was a lifelong champion of free inquiry humanism and universal liberal values He was an internationalist who believed all people should have the liberty to speak and write openly to be free of authoritarian domination and to escape the arbitrary constraints of tribe faith and nation He was a figure of the Enlightenment and a man of the left until the very end and his example has never been more important Over the past several years the liberal foundations of democratic societies have been showing signs of structural decay On the right nationalism and authoritarianism have been revived on both sides of the Atlantic On the left many activists and intellectuals have become obsessed with a reductive and censorious brand of identity politics as well as the conviction that their own liberal democratic societies are institutionally racist exploitative and imperialistic Across the democratic world free speech individual rights and other basic liberal values are losing their power to inspire Hitchens's case for universal Enlightenment principles won't just help genuine liberals mount a resistance to the emerging illiberal orthodoxies on the left and the right It will also remind us how to think and speak fearlessly in defense of those principles

The Chickenhawk Syndrome Cheyney Ryan, 2009-05-16 In recent years the question of war and sacrifice has been a major topic of political debate and controversy If our country goes to war for reasons we endorse what is our responsibility to share in its sacrifices Does supporting a war mean serving in it Does it mean encouraging our children to do so Such questions have been posed by the so called chickenhawk phenomenon pro war leaders and their pro war children who call on Americans to assume the burden of war and its sacrifices but avoid those sacrifices themselves President Bush and other architects of the Iraq conflict were the most prominent chickenhawks Cheyney C Ryan argues that the chickenhawk issue is not just a matter of personalities it will remain with us for a long time even though the Bush administration has left office Ryan poses fundamental questions of war and personal sacrifice pointing to the basic disconnection in American politics generally between the support for war and the willingness to assume its costs which he calls Alienated War Calling for the

reinvigoration of civic involvement this illuminating and insightful book offers both a philosophical and historical exploration of America's citizen soldier tradition and the consequences involved in separating the citizenry from the armed forces
