A Linguistic History Of English From Proto Indo European To Proto Germanic:

From Proto-Indo-European to Proto-Germanic Donald Ringe, 2006-08-31 This book describes the earliest reconstructable stages of the prehistory of English. It outlines the grammar of Proto Indo European and considers the changes by which one dialect of that prehistoric language developed into Proto Germanic and provides a detailed account of the grammar of Proto Germanic. The focus throughout the book is on linguistic structure. In the course of his exposition Professor Ringe draws on a long tradition of work on many languages including Hittite Sanskrit Greek Latin Slavic Gothic and Old Norse. Written to be intelligible to those with a background in modern linguistic theory, the first volume in Don Ringe's A Linguistic History of English will be of central interest to all scholars and students of comparative Indo European and Germanic linguistics, the history of English and historical linguistics. The next volume in the History will consider the development of Proto Germanic into Old English. Subsequent volumes will describe the attested history of English from the Anglo Saxon era to the present.
