Monier-Williams, 2014-11-06 Example in this ebook The Duff Lectures for 1888 were delivered by me at Edinburgh in the month of March In introducing my subject I spoke to the following effect I wish to express my deep sense of the responsibility which the writing of these Lectures has laid upon me and my earnest desire that they may by their usefulness prove in some degree worthy of the great missionary whose name they bear Dr Duff was a man of power who left his own foot print so deeply impressed on the soil of Bengal that its traces are never likely to be effaced and still serve to encourage less ardent spirits who are striving to imitate his example in the same field of labour But not only is the impress of his vigorous personality still fresh in Bengal He has earned an enduring reputation throughout India and the United Kingdom as the prince of educational missionaries He was in all that he undertook an enthusiastic and indefatigable workman of whom if of any human being it might be truly said that when called upon to quit the sphere of his labours he needed not to be ashamed No one can have travelled much in India vi without having observed how wonderfully the results of his indomitable energy and fervid eloquence in the cause of Truth wait on the memory of his work everywhere Monuments may be erected and lectureships founded to perpetuate his name and testify to his victories over difficulties which few other men could have overcome but better than these will be the living testimony of successive generations of Hind men and women whose growth and progress in true enlightenment will be due to the seed which he planted and to which God has given the increase I said a few more words expressive of my hope that the Life of Dr Duff would be read and pondered by every student destined for work of any kind in our Indian empire and to that biography I refer all who are unacquainted with the particulars of the labours of a man to whom Scotland has assigned a place in the foremost rank of her most eminent Evangelists I now proceed to explain the process by which these Lectures have gradually outgrown the limits required by the Duff Trustees When I addressed myself to the carrying out of their wishes communicated to me by Mr W Pirie Duff I had no intention of undertaking more than a concise account of a subject which I had been studying for many years I conceived it possible to compress into vii six Lectures a scholarly sketch of what may be called true Buddhism that is the Buddhism of the Pi akas or P li texts which are now being edited by the P li Text Society and some of which have been translated in the Sacred Books of the East It soon however became apparent to me that to write an account of Buddhism which would be worthy of the great

Indian missionary I ought to exhibit it in its connexion with Brahmanism and Hindism and even with Jainism and in its contrast with Christianity Then as I proceeded I began to feel that to do justice to my subject I should be compelled to enlarge the range of my researches so as to embrace some of the later phases and modern developments of Buddhism This led me to undertake a more careful study of Koeppen's Lamaismus than I had before thought necessary Furthermore I felt it my duty to study attentively numerous treatises on Northern Buddhism which I had before read in a cursory manner I even thought it incumbent on me to look a little into the Tibetan language of which I was before wholly ignorant To be continue in this ebook

Lopez Jr.,2009-11-15 Over the past century Buddhism has come to be seen as a world religion exceeding Christianity in longevity and according to many philosophical wisdom Buddhism has also increasingly been described as strongly ethical devoted to nonviolence and dedicated to bringing an end to human suffering And because it places such a strong emphasis on rational analysis Buddhism is considered more compatible with science than the other great religions As such Buddhism has been embraced in the West both as an alternative religion and as an alternative to religion This volume provides a unique introduction to Buddhism by examining categories essential for a nuanced understanding of its traditions Each of the fifteen

essays here shows students how a fundamental term from art to word illuminates the practice of Buddhism both in traditional Buddhist societies and in the realms of modernity Apart from Buddha the list of terms in this collection deliberately includes none that are intrinsic to the religion Instead the contributors explore terms that are important for many fields and that invite interdisciplinary reflection Through incisive discussions of topics ranging from practice power and pedagogy to ritual history sex and death the authors offer new directions for the understanding of Buddhism taking constructive and sometimes polemical positions in an effort both to demonstrate the shortcomings of assumptions about the religion and the potential power of revisionary approaches Following the tradition of Critical Terms for Religious Studies this volume is not only an invaluable resource for the classroom but one that belongs on the short list of essential books for anyone seriously interested in Buddhism and Asian religions

The God Who Is Hans Schwarz,2011-01-01 Who is the God in whom Christians believe Is he just a figment of the human mind as critics of religion claimed in the nineteenth century and as crusading atheists assert again today Since the beginnings of rational thought the brightest minds among humanity have attempted to assert that God does indeed exist But even the so called proofs for God s existence always started with the assumption that there is someone to prove As soon as we move beyond that which is within space and time mere proofs or disproofs no longer suffice Both believers and unbelievers live to a certain degree by faith Yet religion is inextricably connected with human history When we journey through the landscape of religion and witness its gradual unfolding we soon realize that not all religions are equal Though they may be witnesses of the same God the way they talk about God is so different that this not only leads to very different concepts of God but also to different approaches to life on this earth At the end of this long journey we finally arrive at the Judeo Christian tradition which witnesses to the God in whom Christians believe This book seeks to show how this belief matured and what difference this belief still makes today
