JOHN M. NAJEMY

A History Of Florence 1200 1575

Agostino Paravicini Bagliani,Neslihan Şenocak

A History Of Florence 1200 1575:

A History of Florence, 1200 - 1575 John M. Najemy, 2008-04-15 In this history of Florence distinguished historian John Najemy discusses all the major developments in Florentine history from 1200 to 1575 Captures Florence s transformation from a medieval commune into an aristocratic republic territorial state and monarchy Weaves together intellectual cultural social economic religious and political developments Academically rigorous yet accessible and appealing to the general reader Likely to become the standard work on Renaissance Florence for years to come **A Short History of Florence** and the Florentine Republic Brian Jeffrey Maxson, 2023-02-23 The innovative city culture of Florence was the crucible within which Renaissance ideas first caught fire With its soaring cathedral dome and its classically inspired palaces and piazzas it is perhaps the finest single expression of a society that is still at its heart an urban one For as Brian Jeffrey Maxson reveals it is above all the city state the walled commune which became the chief driver of European commerce culture banking and art that is medieval Italy s enduring legacy to the present Charting the transition of Florence from an obscure Guelph republic to a regional superpower in which the glittering court of Lorenzo the Magnificent became the pride and envy of the continent the author authoritatively discusses a city that looked to the past for ideas even as it articulated a novel creativity Uncovering passionate dispute and intrigue Maxson sheds fresh light too on seminal events like the fiery end of oratorical firebrand Savonarola and Giuliano de Medici s brutal murder by the rival Pazzi family This book shows why Florence harbinger and heartland of the Renaissance is and has always been unique The Intellectual World of Sixteenth-Century Florence Ann E. Moyer, 2020-08-06 This study provides an overview of Florentine intellectual life and community in the late Renaissance It shows how studies of language helped Florentines to develop their own story as a people distinct from ancient Greece or Rome <u>Culture and Power Jonathan Davies, 2009-03-16 Traditionally grand ducal</u> Tuscany and its cultural politics have been viewed through the lens of absolutism Based on a wide range of newly found sources and building on recent revisionist scholarship this study uses the universities of Pisa and Siena to expose the contradictions and the tensions which characterised the grand duchy Setting the universities against the diplomatic military administrative economic ecclesiastical and cultural development of the grand duchy it shows how innovation mixed with tradition and local privileges were not only upheld but extended significantly A People's Church Agostino Paravicini Bagliani, Neslihan Şenocak, 2023-06-15 A People's Church brings together a distinguished international group of historians to provide a sweeping introduction to Christian religious life and institutions in medieval Italy Each essay treats a single theme as broadly as possible highlighting both the unique aspects of medieval Christianity on the Italian peninsula and the beliefs and practices it shared with other Christian societies Because of its long tradition of communal self governance Christianity in medieval Italy perhaps more than anywhere else was truly a people's church At the same time its exceptional urban wealth and literacy rates along with its rich and varied intellectual and artistic culture led to diverse forms of religious devotion and

institutions Contributors Maria Pia Alberzoni on heresy Frances Andrews on urban religion C cile Caby on monasticism Giovanna Casagrande on mendicants George Dameron on Florence Antonella Degl Innocenti on saints Marina Gazzini on lay confraternities Maureen C Miller on bishops Agostino Paravicini Bagliani and Pietro Silanos on the papacy and Italian politics Antonio Rigon on clerical confraternities Neslihan enocak on the pievi and care of souls Giovanni Vitolo on Naples

Negotiating the Art of Fatherhood in Late Medieval and Early Modern Italy Juliann Vitullo,2019-11-14 Negotiating the Art of Fatherhood in Late Medieval and Early Modern Italy examines contested notions of fatherhood in written and visual texts during the development of the mercantile economy in fourteenth and fifteenth century Italy It analyzes debates about the household and community management of wealth emotion and trade in luxury goods including enslaved women as moral questions Juliann Vitullo considers how this mercantile economy affected paternity and the portraits of ideal fatherhood which in some cases reconceived the role of fathers and in others reconfirmed traditional notions of paternal authority

Land Air Sea Jennifer Ferng, Lauren Jacobi, 2023-12-14 Land Air Sea Architecture and Environment in the Early Modern Era positions the long Renaissance and eighteenth century as being vital for understanding how many of the concerns present in contemporary debates on climate change and sustainability originated in earlier centuries Traversing three physical and intellectual domains Land Air Sea consists of case studies examining how questions of environmentalism were formulated in early modern architecture and the built environment Addressing emergent technologies indigenous cultural beliefs natural philosophy and political statecraft this book aims to recast our modernist conceptions of what buildings are by uncovering early modern epistemologies that redefined human impact on the habitable world On Historical Distance Mark Salber Phillips, 2013-05-21 DIVConceptions of distance are foundational to historical thought but Mark Salber Phillips gives the idea new subtlety and meaning He argues that distance is a matter not just of time and space but also of form affect ideology and understanding In this exceptionally wide ranging study Phillips examines Renaissance Enlightenment and contemporary histories as well as a broad spectrum of historical genres including local history literary history counter factual fiction history painting and museology DIV On Historical Distance is a fascinating and very important book that should be read by all historians Beautifully written in elegant economical and engaging prose the book wears its considerable learning very lightly A deeply original challenging and thought provoking study of the evolving history of history by one of our leading historians of historiography this book should provoke a lively debate among historians and should be assigned as essential reading for classes on historical methods and historiography John Marshall John Hopkins University div div The Roots of American Politics John Frederick Martin, 2025-04-01 This book examines the ways in which American habits and politics replaced the traditional European republican canon Before the modern era European republics relied on procedural complexity in office filling to arrive at neutral government They did so with such technical consistency over a long span of time as to create a republican procedural tradition That tradition collided with conditions in the Anglo American world with

entrenched social deference in politics quasi representative institutions and an ascendant doctrine of majorities American habits would ultimately overwhelm the European republican canon but not without a fight This book suggests that arguments over the abandonment of the procedural tradition shook politics in early America especially at the federal convention and that it is difficult to understand the convention delegates votes concerning the Great Compromise apportioning the House and Senate and the presidential selection system without reference to those arguments The contest between simple majorities and complexity aiming at comity was not resolved neatly in Philadelphia and continued during the first decades of the republic this book argues that some political institutions to this day bear the stamp of the imperfect arrangements reached at the nation's founding which among other things was a moment of inflection between older and newer concepts of republican architecture This volume will be of interest to students and scholars interested in American Political History Early American History and Political Science Foundation, Dedication and Consecration in Early Modern Europe M. Delbeke, M. Schraven, 2011-12-09 Bringing together contributions from art history architectural history historiography and history of law this volume is the first comprehensive exploration of the manifold meanings of foundation dedication and consecration rituals and narratives in early modern culture The Bianchi of 1399 in Central Italy Alexandra R.A. Lee, 2021-07-15 Providing new insights into the Bianchi devotions a medieval popular religious revival which responded to an outbreak of plague at the turn of the fifteenth century this book takes a comparative local and regional approach to the Bianchi challenging traditional presentations of the movement as homogeneous whole Combining a rich collection of textual visual and material sources the study focuses on the two Tuscan towns of Lucca and Pistoia Alexandra R A Lee demonstrates how the Bianchi processions in central Italy were moulded by secular and ecclesiastical authorities and shaped by local traditions as they attempted to prevent an epidemic **Tuscany in the Age of Empire** Brian Brege, 2021-07-13 A new history explores how one of Renaissance Italy s leading cities maintained its influence in an era of global exploration trade and empire The Grand Duchy of Tuscany was not an imperial power but it did harbor global ambitions After abortive attempts at overseas colonization and direct commercial expansion as Brian Brege shows Tuscany followed a different path one that allowed it to participate in Europe's new age of empire without establishing an empire of its own The first history of its kind Tuscany in the Age of Empire offers a fresh appraisal of one of the foremost cities of the Italian Renaissance as it sought knowledge fortune and power throughout Asia the Americas and beyond How did Tuscany which could not compete directly with the growing empires of other European states establish a global presence First Brege shows Tuscany partnered with larger European powers The duchy sought to obtain trade rights within their empires and even manage portions of other states overseas territories Second Tuscans invested in cultural intellectual and commercial institutions at home which attracted the knowledge and wealth generated by Europe's imperial expansions Finally Tuscans built effective coalitions with other regional powers in the Mediterranean and the Islamic world which secured the duchy's access to global products and

empowered the Tuscan monarchy in foreign affairs These strategies allowed Tuscany to punch well above its weight in a world where power was equated with the sort of imperial possessions it lacked By finding areas of common interest with stronger neighbors and forming alliances with other marginal polities a small state was able to protect its own security while carving out a space as a diplomatic and intellectual hub in a globalizing Europe The Renaissance in Italy Guido Ruggiero, 2015 This book offers a rich and exciting new way of thinking about the Italian Renaissance as both a historical period and a historical movement Guido Ruggiero s work is based on archival research and new insights of social and cultural history and literary criticism with a special emphasis on everyday culture gender violence and sexuality The book offers a vibrant and relevant critical study of a period too long burdened by anachronistic and outdated ways of thinking about the past Familiar yet alien pre modern but suggestively post modern attractive and troubling this book returns the Italian Renaissance to center stage in our past and in our historical analysis **Rethinking Medieval and Renaissance Political Thought** Chris Jones, Takashi Shogimen, 2023-06-16 This collection of essays written by leading experts showcases historiographical problems fresh interpretations and new debates in medieval and Renaissance history and political thought Recent scholarship on medieval and Renaissance political thought is witness to tectonic movements These involve quiet yet considerable re evaluations of key thinkers such as Thomas Aquinas and Machiavelli as well as the string of lesser known political thinkers who wrote in western Europe between Late Antiquity and the Reformation Taking stock of thirty years of developments this volume demonstrates the contemporary vibrancy of the history of medieval and Renaissance political thought By both celebrating and challenging the perspectives of a generation of scholars notably Cary J Nederman it offers refreshing new assessments The book re introduces the history of western political thought in the Middle Ages and the Renaissance to the wider disciplines of History and Political Science Recent historiographical debates have revolutionized discussion of whether or not there was an Aristotelian revolution in the thirteenth century Thinkers such as Machiavelli and Marsilius of Padua are read in new ways less well known texts such as the Irish On the Twelve Abuses of the Age offer new perspectives Further the collection argues that medieval political ideas contain important lessons for the study of concepts of contemporary interest such as toleration The volume is an ideal resource for both students and scholars interested in medieval and Renaissance history as well as the history of political thought Murder of a Medici Princess Caroline P. Murphy, 2008-04-18 In Murder of a Medici Princess Caroline Murphy illuminates the brilliant life and tragic death of Isabella de Medici one of the brightest stars in the dazzling world of Renaissance Italy the daughter of Duke Cosimo I ruler of Florence and Tuscany Murphy is a superb storyteller and her fast paced narrative captures the intrigue the scandal the romantic affairs and the violence that were commonplace in the Florentine court She brings to life an extraordinary woman fluent in five languages a free spirited patron of the arts a daredevil a practical joker and a passionate lover Isabella in fact conducted numerous affairs including a ten year relationship with the cousin of her violent and possessive husband Her

permissive lifestyle however came to an end upon the death of her father who was succeeded by her disapproving older brother Francesco Considering Isabella s ways to be licentious and a disgrace upon the family he permitted her increasingly enraged husband to murder her in a remote Medici villa To tell this dramatic story Murphy draws on a vast trove of newly discovered and unpublished documents ranging from Isabella s own letters to the loose tongued dispatches of ambassadors to Florence to contemporary descriptions of the opulent parties and balls salons and hunts in which Isabella and her associates participated Murphy resurrects the exciting atmosphere of Renaissance Florence weaving Isabella s beloved city into her story evoking the intellectual and artistic community that thrived during her time Palaces and gardens in the city become places of creativity and intrigue sites of seduction and grounds for betrayal Here then is a narrative of compelling and epic proportions magnificent and alluring decadent and ultimately tragic Orsanmichele Marie D'Aguanno Ito, 2023-10-09 This work provides a new narrative for Orsanmichele in the era before the Renaissance It examines Orsanmichele from the mid thirteenth century as the piazza transformed into the city's grain market It considers the market s tandem confraternity with its stunning Madonnas over three successive loggias It examines the grain market and confraternity from a social economic political and artistic perspective It provides extensive data on the Florentine grain trade sales at the market and the nexus between traders political leaders and the confraternity The work suggests that developments at Orsanmichele during the medieval period formed the basis for the Renaissance structure the Artists Jonathan Jones, 2013-05-23 A sweeping epic history of the Renaissance artists seen through the lens of something that perhaps occupied their thoughts and influenced their art the most sex Taking Donatello's provocative reinvention of the nude as his starting point Jonathan shows how the story of the Renaissance is the story of a sexual revolution The great artists of the 15th and 16th century were not just visionaries but lovers Jonathan argues that the famous nudes of Michelangelo and Titian are not abstract images of ideal beauty but erotic expressions of love and desire and that in order to understand the Renaissance we have to understand the sex lives of the men and women who defined it men like Raphael who obsessively painted his lover La Fornarina in the nude Michelangelo who made beautiful drawings of naked male bodies to present to the young man he adored and Rembrandt whose bedroom portraits of Hendrickje Stoffels are the frankest expressions of love anywhere in art Sweeping from its origins in Florence in the mid 15th century to its culmination in the work of Rubens and Rembrandt in the 17th The Loves of the Artistsshows that the Renaissance invented eroticism as we know it and that the new ways of thinking about sex it engendered are crucial to understanding not only art but European The Medieval Mediterranean City Felicity Ratté, 2021-08-31 This book is a study of architecture and culture as a whole urban design across the Mediterranean Sea from the 12th to the 14th Century a time when there was no single hegemonic power dominating the area The focus of the study four cities on the Italian peninsula and four in Syria and Egypt is the interconnectedness of the design and use of urban structures streets and open space Each chapter offers an historical

analysis of the buildings and spaces used for trade education political display and public action The work includes historical and social analyses of the mercantile social political and educational cultures of the eight cities highlighting similarities and differences between Christian and Islamic practices Sixteen new maps drawn specifically for this book are based on the writings of medieval travelers Global City Typologies Nigel C. Lewis, 2025-07-31 Global City Typologies explores the historical cultural and socio economic transactional forces in the development of existing cities through to newly planned and emerging cities Individual chapters address different sets and typologies of global cities to analyse their comparative evolution and standing today The separate parts and individual chapters have been grouped around 125 different established planned and emerging cities and analysed according to different typologies and thematic categories that comprise historic cities early trading cities planned cities emerging global cities mega cities and megalopolitan agglomerations These span five continents including the industrial cities of Chicago and Manchester new capitals such as Bras lia and New Delhi innovative cities such as Singapore and Tel Aviv and mega cities such as Mexico City The book is fully illustrated throughout with modern and historical maps which enables visualisation of the forces that have shaped ongoing development of these major global cities This is an essential book for students and professionals in urban design and planning administrators economists designers and developers The Cambridge Companion to Machiavelli John M. Najemy, 2010-06-24 Niccol Machiavelli 1469 1527 is the most famous and controversial figure in the history of political thought and one of the iconic names of the Renaissance The Cambridge Companion to Machiavelli brings together sixteen original essays by leading experts covering his life his career in Florentine government his reaction to the dramatic changes that affected Florence and Italy in his lifetime and the most prominent themes of his thought including the founding evolution and corruption of republics and principalities class conflict liberty arms religion ethics rhetoric gender and the Renaissance dialogue with antiquity In his own time Machiavelli was recognized as an original thinker who provocatively challenged conventional wisdom With penetrating analyses of The Prince Discourses on Livy Art of War Florentine Histories and his plays and poetry this book offers a vivid portrait of this extraordinary thinker as well as assessments of his place in Western thought since the Renaissance
