Heffelfinger,Paul R. Krausman,2023-04-27 Choice Outstanding Academic Title 2024 Black tailed and mule deer represent one of the largest distributions of mammals in North America and are symbols of the wide open American West Each chapter in this book was authored by the world s leading experts on that topic Both editors James R Heffelfinger and Paul R Krausman are widely published in the popular and scientific press and recipients of the O C Wallmo Award given every two years to a leading black tailed and mule deer expert who has made significant contributions to the conservation of this species In addition Heffelfinger has chaired the Mule Deer Working Group sponsored by the Western Association of Fish and Wildlife Agencies for more than 15 years This working group consists of the leading black tailed and mule deer experts from each of 24 states

provinces and territories in western North America putting them at the forefront of all conservation and much of the research on this species. The book represents all current knowledge available on these deer including how changing conditions such as fires, habitat alteration and loss, disease, climate change, socio-economic forces, energy development and other aspects are influencing their distribution and abundance now and into the future. It takes a completely fresh look at all chapter topics. The revisions of distribution, taxonomy, evolution, behavior and new and exciting work being done in deer nutrition, migration and movements, diseases, predation and human dimensions are all assembled in this volume. This book will instantly become the foundation for the latest information and management strategies to be implemented on the ground by practitioners and to inform the public. Although this book is about deer, the topics discussed influence most terrestrial wildlife worldwide and the basic concepts in many of the chapters are applicable to other species.
