

AQA Language Paper 1 June 2024 – Model Answers

For questions 2-5 there is a mid-level answer and a high-level answer designed to try and hit the top band of the markscheme.

Question 1: Possible Answers

Mary's head ached
Her limbs were heavy
Her limbs were tense
She went to the bedroom to examine her clothes
She wandered on the verandah
Her head started to swim
She had to go back to the house to get a glass of water

Question 2: The Language Question (8 marks)

Question 2: Response 1: Mid Level

The writer uses vivid language to describe the oppressive effects of the heat.

Firstly, the writer employs sensory imagery to convey the intensity of the heat. Phrases such as "rough heap of giant boulders" and "hot stone" paint a picture of a scorching landscape, while the description of "heat-waves beat[ing] up" creates a visual image of the rising heat. Additionally, the mention of "heat lizards, vivid red and blue and emerald, dart[ing] over the rocks like flames" adds to the atmosphere of intense heat, with the vibrant colours suggesting the blazing temperature.

Furthermore, the writer uses figurative language to express the suffocating nature of the heat. The phrase "sapping, undermining waves" conveys a sense of relentless and draining heat, while the mention of the "iron roof" intensifies the feeling of being trapped under a stifling canopy. The description of the dogs "panting softly" and "whining with exasperation" humanises their discomfort, making the reader empathise with the characters' suffering.

Finally, the writer employs specific details to enhance the realism of the scene. The mention of "flies" and the need to lock the dogs out of the house adds to the sense of discomfort and irritation caused by the heat. The use of the petrol tin full of lukewarm water and the act of pouring it over herself in the basin highlights the desperate measures taken by the characters to cool down, emphasising the extreme conditions they are experiencing. Overall, the writer effectively conveys the oppressive effects of the heat, immersing the reader in the sweltering atmosphere of the setting.

Question 2: Response 2: High Level

The juxtaposition of outside and inside is used to vividly depict the oppressive effects of the heat, creating a stark contrast between the scorching outdoor environment and the stifling indoor atmosphere. Externally, the writer employs imagery to evoke the intense heat of the outdoor setting. The description of "a rough heap of giant boulders" and "heat-waves beat[ing] up out of the hot stone" conjures an image of a barren, sun-baked landscape. Additionally, the portrayal of "heat lizards, vivid red and blue and emerald, dart[ing] over the rocks like flames" further emphasises the searing temperature, with the vibrant colours of the lizards symbolising the intensity of the heat. Conversely, the writer contrasts the harsh conditions outside with the oppressive atmosphere indoors. The phrase "sapping, undermining waves" portrays the suffocating nature of the heat within the house, suggesting a relentless and draining force. Furthermore, the mention of the "iron roof" intensifies the feeling of entrapment and claustrophobia – it's almost as if the characters are being smothered by the oppressive heat from above.

Onomatopoeia is also used to convey the oppressive nature of the heat, immersing the reader in the sweltering atmosphere of the setting. The phrase "Mary could hear them panting softly" utilises the onomatopoeic verb "panting" to evoke the sound of the dogs breathing heavily in response to the heat. The verb "panting" mimics the rhythmic and laboured breathing of the dogs, creating an auditory image that emphasises their discomfort and exhaustion. Similarly, the phrase "whining with exasperation because of the flies" employs the onomatopoeic verb "whining" to capture the high-pitched and plaintive sound of the dogs expressing their frustration. The word "whining" conveys a sense of irritation and agitation, highlighting the annoyance caused by the presence of flies in the oppressive heat. Furthermore, the use of onomatopoeia extends to the description of the scattering drops of water falling on the porous brick floor, which "hissed with dryness." The verb "hissed" mimics the sound of the water coming into contact with the hot and parched surface, evoking a sizzling or crackling noise that accentuates the dryness and aridity of the environment. The strategic use of onomatopoeia enhances the sensory experience of the
