**Lessons To Be Learnt From The World's Great Icons Life Experiences.** Bheki S.V. Ntshingila, 2016-11-23 The book is about the late Mr Nelson Mandela the unrepentant crusader and freedom fighter against the obnoxious apartheid regime in South Africa who became an instant toast of the entire world which is a reminder that in each person there is a seed of greatness expected to be discovered and to be used to make this world a better one for all who live in it instead of experiencing hatred and brutality What makes a person to succeed is not how bad she or he thinks but is high optimism thinking big willingness to learn from other s mistakes and life experiences There is a lot we can learn from Madiba s life experience and I don t doubt that the world is also learning something constructive or destructive from you If you are not constructive to others how would you be constructive to yourself Remember greatness is a phenomenon that could be associated with anyone with a positive mind Good better best never let it rest till your good is better and your better is best

*Year of Fire, Year of Ash* Baruch Hirson, 2016-06-15 We can say without fear of being contradicted by history that June 16 1976 heralded the beginning of the end of the centuries old white rule in this country Nelson Mandela Originally banned on publication by the apartheid government *Year of Fire Year of Ash* is an eye opening account of how in June 1976 20 000 school students faced down the tanks and guns of a vicious racist regime in a revolt that galvanized the black working class and became a pivotal turning point for the anti apartheid movement More than this the book overturns much of the conventional logic that served to explain the event at the time showing it was not simply a student protest but part of a wider uprising Released in this new edition to mark the fortieth anniversary *Year of Fire Year of Ash* provides an unparalleled insight into the origins and events of the uprising from its antecedents in the 1920s to its role in inspiring global solidarity against apartheid As South Africa experiences a new wave of popular discontent and as new forms of black consciousness come to the fore in movements around the world Baruch Hirson s book provides a timely reminder of the Soweto revolt s continued significance to struggles against oppression today

**Shadow Libraries** Joe Karaganis, 2018-05-04 How students get the materials they need as opportunities for higher education expand but funding shrinks From the top down Shadow Libraries explores the institutions that shape the provision of educational materials from the formal sector of universities and publishers to the broadly informal ones organized by faculty copy shops student unions and students themselves It looks at the history of policy battles over access to education in the post World War II era and at the narrower versions that have played out in relation to research and textbooks from library policies to book subsidies to more recently the several open publication models that have emerged in the higher education sector From the bottom up Shadow Libraries explores how simply students get the materials they need It maps the ubiquitous practice of photocopying and what are in many cases the more marginal ones of buying books visiting libraries and downloading from unauthorized sources It looks at the informal networks that emerge in many contexts to share materials from face to face student networks to Facebook groups and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online the shadow libraries of the title If Alexandra Elbakyan's Sci Hub is the largest of these efforts to date the more characteristic part of her story is the prologue the personal struggle to participate in global scientific and educational communities and the recourse to a wide array of ad hoc strategies and networks when formal authorized means are lacking If Elbakyan's story has struck a chord it is in part because it brings this contradiction in the academic project into sharp relief universalist in principle and unequal in practice Shadow Libraries is a study of that tension in the digital era Contributors Bal zs Bod Laura Czerniewicz Mirosław Filiciak Mariana Fossatti Jorge Gómetto Eve Gray Evelin Heidel Joe Karaganis Lawrence Liang Pedro Mizukami Jhessica Reia Alek Tarkowski
