Military Construction, Veterans Affairs, and Related Agencies Appropriations for 2015 United States. Congress. House. Committee on Appropriations. Subcommittee on Military Construction, Veterans Affairs, and Related Agencies, 2014 **US Foreign Policy in the Middle East** Bledar Prifti, 2017-02-06 This book provides a comprehensive historical overview of US foreign policy in the Middle East using the theoretical framework of offensive realism and highlighting the role of geography and regional power distribution in guiding foreign policy It argues that the US has been pursuing the same geostrategic interests from President Truman's policy of containment to President Obama's speak softly and carry a big stick policy and contends that the US Iran relationship has been largely characterized by continued cooperation due to shared geostrategic interests The book highlights the continuity in US foreign policy over the last seven decades and offers a prediction for US foreign policy in reaction to current and future global events As such it will serve as a reference guide for not only scholars but also policy analysts and practitioners Professional Journal of the United States Army, 2013 **Military Strategy, Joint Operations, and Airpower** Ryan Burke, Michael Fowler, Jahara Matisek, 2022 Military Strategy Joint Operations and Airpower introduces students to contemporary strategy and the operational level of war particularly as it relates to airpower Developed as foundational reading for all US Air Force Academy cadets this intermediate textbook is designed to close the gap between military theory and practice It covers strategic foundations operational design and joint service operations the air space and cyber capabilities that comprise modern airpower and contemporary challenges in the application of strategy In this second edition each chapter has been updated and revised and several sections have been expanded Part II Military Forces and the Joint Fight is now has separate chapters about each service in addition to a chapter on joint structure Similarly operational design is expanded from one to four chapters to provide a more thorough step by step guide through the process New chapters in this second edition include Integrating the Instruments of Power The Spectrum of Conflict and Range of Military Operations and The Nuclear Weapons Triad and Missile Defense This book's contributing authors and editors include both military practitioners and scholars of security studies political science and history In addition to being required reading for Air Force cadets and ROTC students the book will provide an essential overview of strategy and practice for anyone interested in modern airpower Military Flight Aptitude Tests, Fifth Edition: 6 Practice Tests + Comprehensive Review Barron's Educational Series, Terry L. Duran, 2023-10-03 Includes practice tests for the Air Force Officer Qualifying Test AFOQT Army Selection Instrument for Flight Training SIFT and Navy Marine Corps Coast Guard Aviation Selection Test Batteries Enhanced ASTB E *Military Construction, Veterans Affairs, and Related Agencies Appropriations for 2015, Part 1, 113-2 Hearings*, 2014 **Military Review**, 2013 **Worthy and Unworthy** Devan Hawkins, 2024-09-27 What geopolitical events are worthy of media attention In an ideal world the answer to this question would be based on the merit of the event Unfortunately this is not always the case Media attention throughout the Western world too often reflects and

reinforces Western government's geopolitical orientations Building on Edward Herman Noam Chomsky and other scholars who have examined biased media coverage Worthy and Unworthy presents case studies depicting how media coverage of events in foreign countries differs depending on whether a country is a geopolitical enemy or an ally of the United States The book presents case studies comparing coverage in the New York Times of comparable geopolitical events that have occurred in geopolitical allies of the United States and non allied countries As the systematic analysis of both the amount of coverage these events received and the nature of the coverage shows the Times coverage creates worthy and unworthy events with hyperfocus being given to geopolitical events in non allied countries and less focus given to the events in friendly countries While the book focuses on the New York Times an analysis of coverage from other media outlets shows that the Times is not alone in this tendency Our view of geopolitical events is shaped by the media we consume If you're concerned about the Western media's coverage of geopolitical events and whether it encourages some of the worst and most harmful aspects of US foreign policy understanding the biases in media coverage is essential With an increased understanding of these biases we can help reduce them [ECCWS2015-Proceedings of the 14th European Conference on Cyber Warfare and Security 2015](#) Dr Nasser Abouzakhar,2015-07-01 Complete proceedings of the 14th European Conference on Cyber Warfare and Security Hatfield UK Published by Academic Conferences and Publishing International Limited [The Rescue Man: A "Snafu Snatching" Rescue Pilot's Extraordinary Journey through World War II](#) Henry Lowenstein,2017-06-01 [Advanced Land Warfare](#) Mikael Weissmann,Niklas Nilsson,2023-03-23 International politics have become ever more volatile over the last decade increasing the risk of large scale military violence Yet the precise character of future war will depend on a range of factors that relate to adversaries allies technology geographical scope and multiple domains of warfighting Few would question that land forces will be important also in the foreseeable future However given that the battlefield is in a state of transformation so is the mission purpose and utilization of land forces Indeed the future conduct of land warfare is subjected to serious and important questions in the face of large and complex challenges and security threats Advanced Land Warfare explores the evolving role of land forces paying particular attention to the changes that have taken place in the art of commanding and executing combat as well as the role of rapid technological innovation and information dissemination in shaping warfare The book provides insights into key contemporary developments in land warfare and presents case studies on land tactics and operations in different national contexts drawing on the best of theory practice and professional experience and featuring chapters written by leading international scholars and practitioners Relating to the realities of the modern battlefield the book addresses a number of critical questions about land tactics and operations combining a conceptual basis with empirical examples of tactical thinking and practice and emphasising the importance of understanding the perspectives of various national armies in order to provide a current understanding of the central issues of land warfare An open access title available under the terms of a CC BY NC ND 4.0 International licence **Military Psychology for**

Africa Gideon AJ van Dyk, 2016-03-17 Military Psychology for Africa is the first textbook of its kind from Africa. Selected authors with competent military psychology knowledge, skills, expertise, and experience each contributed a chapter to this unique book. The book empowers academics, students, and military fellows to apply this knowledge at academic institutions and military units during operations and in presenting short courses. The book will also equip soldiers with new knowledge for advancing peace on the continent and abroad. Senate Record Votes, 2014

Rethinking Military Professionalism for the Changing Armed Forces Krystal K. Hachey, Tamir Libel, Waylon H. Dean, 2020-06-09 This book will make a first contribution to identify the gaps in current practices and provide alternative mechanisms to conceptualize professionalism that is reflective of changing requirements, culture, and demographics of the contemporary military force. The military profession promotes the development, sustainment, and embodiment of ethos, which guides conduct across operational contexts from times of national and international crises and security challenges, e.g., war, natural disasters, and peace support operations. It is imperative for military leaders to understand how ethos and doctrine shape professional frameworks which guide the conduct of military members.

Warfare Ethics in Comparative Perspective Sumner B. Twiss, Ping-cheung Lo, Benedict S. B. Chan, 2024-04-11 This volume explores East Asian intellectual traditions and their influence on contemporary discussions of the ethics of war and peace. Through cross-cultural comparison and dialogue between East and West, this work charts a new trajectory in the development of applied ethics. A sequel to the volume *Chinese Just War Ethics*, it expands the range of the earlier work and includes attention to Japan and other Eastern and Western traditions for contrastive reflection and engages with the full range of Chinese intellectual traditions for comparative analysis. The book scrutinizes pioneering works such as the *Mengzi*, the *Han Feizi*, and the *Seven Military Classics*, investigating their influence in subsequent times. It also engages with new texts and thinkers such as the *Four Books of the Yellow Emperor*, Zeng Guofan, Chiang Kai-shek, and Mao Zedong, along with examining recent writings of the scholars of the People's Liberation Army. The final section of the book identifies and discusses some emerging issues in the comparative study of military ethics, just war, and peace that derive from the preceding sections. The volume editors then offer some concluding remarks at the end of the book. This book will be of much interest to students of the ethics of war and peace, just war theory, military ethics, Asian studies, and International Relations in general.
