Introduction

The TEAS study format, and the accompanying Test of Science and Math – TEAS, this book provides you with an overview of the content and skills included on the TEAS along with suggestions for effectively preparing for the test. First, this guide will outline the parts of the test. The TEAS covers a broad range of essential skills in reading, math, science, and English and language usage that you have developed over the course of your academic career. Next, this guide will help you create a study plan to prepare for each subject area. Finally, this study guide provides features covering each discipline of the TEAS test plan. Features include sample questions, diagrams, and graphic organizers to help you master key ideas. Each feature ends with practice questions similar to those you will encounter on the TEAS. A detailed explanation of the correct answer for each question is also included to ensure you understand key concepts that will appear on the TEAS.

TEAS SUBJECT AREAS

The TEAS test was designed for health science students to measure the academic preparedness of prospective students. Questions on the TEAS assess student knowledge of key disciplines that address topics presented in grades 7 to 12. The disciplines include skills and concepts that health science programs believe are most important for success in health science programs. The disciplines cover the academic subject areas of:

- Reading
- Math
- Science
- English and Language Usage

The 15,000+ items in this manual provide questions for each of the key disciplines of the TEAS. Keep in mind that the questions provided in this manual are not representative. They do not include all of the possible concepts appropriate for the discipline. The diagrams do, however, provide a clear overview of the content and skills you will encounter on the TEAS.

TEAS QUESTIONS

The TEAS is composed of five tests that include 100+ questions per test. The majority of items are four options, multiple choice questions. With the introduction of the TEAS 7.0 test plan in 2024, additional item types will start to be incorporated into the test. These include:

- Multiple select (select all that apply)
- Supply answer (20% in the TEAS 7.0 test plan)
- Ordering (one option is the correct response)
- Drag and drop (in use of an image)

The test is available in both paper and pencil multiple-choice questions only and computer-adaptive format. Questions from the four subject areas are grouped in separate sections, and each test is reported in separate score lists. The following table provides the number of questions and time limits for each section of the TEAS, listed in order of administration.

Subject Area	Number of Questions	Test Limit
Reading	40 questions (8 percent)	30 min
Mathematics	30 questions (6 percent)	20 min
Science	30 questions (6 percent)	20 min
English and Language Usage	20 questions (4 percent)	20 min

Total 120 questions (24 percent) 200 min

Questions in each subject area are represented by the test topics being assessed. There are a set number of questions for each key topic. The following table shows the number of scored questions for each key topic.
