Resource Management for Big Data Platforms Florin Pop,Joanna Kołodziej,Beniamino Di Martino,2016-10-27 Serving as a flagship driver towards advance research in the area of Big Data platforms and applications this book provides a platform for the dissemination of advanced topics of theory research efforts and analysis and implementation oriented on methods techniques and performance evaluation In 23 chapters several important formulations of the architecture design optimization techniques advanced analytics methods biological medical and social media applications are presented These chapters discuss the research of members from the ICT COST Action IC1406 High Performance Modelling and Simulation for Big Data Applications cHiPSet This volume is ideal as a reference for students researchers and industry practitioners working in or interested in joining interdisciplinary works in the areas of intelligent decision systems using emergent distributed computing paradigms It will also allow newcomers to grasp the key concerns and their potential solutions

Faster, Higher, Farther Jack Ewing,2017-05-23 A shocking expos of Volkswagen s fraud by the New York Times reporter who covered the scandal Updated with a New Afterword by the Author When news of Volkswagen s clean diesel fraud first broke in September 2015 it sent shockwaves around the world Overnight the company long associated with quality reliability and trust became a universal symbol of greed and deception Consumers were outraged investors panicked the company embarrassed and facing bankruptcy As lawsuits and criminal investigations piled up by August 2016 VW had settled with American regulators and car owners for 15 billion with additional fines and claims still looming In Faster Higher Farther Jack Ewing rips the lid off the scandal He describes VW s rise from the people s car during the Nazi era to one of Germany s most prestigious and important global brands touted for being green He paints vivid portraits of Volkswagen chairman

Ferdinand Pi ch and chief executive Martin Winterkorn arguing that their unremitting ambition drove employees working feverishly in pursuit of impossible sales targets to illegal methods With unprecedented access to key players and a ringside seat during the course of the legal proceedings Faster Higher Farther reveals how the succeed at all costs culture prevalent in modern boardrooms led to one of corporate history s farthest reaching cases of fraud with potentially devastating consequences As the future of one of the world s biggest companies remains uncertain this is the extraordinary story of Volkswagen s downfall

Automotive Systems and Software Engineering Yanja Dajsuren, Mark van den Brand, 2019-07-17 This book presents the state of the art challenges and future trends in automotive software engineering The amount of automotive software has grown from just a few lines of code in the 1970s to millions of lines in today s cars And this trend seems destined to continue in the years to come considering all the innovations in electric hybrid autonomous and connected cars Yet there are also concerns related to onboard software such as security robustness and trust This book covers all essential aspects of the field After a general introduction to the topic it addresses automotive software development automotive software reuse E E architectures and safety C ITS and security and future trends The specific topics discussed include requirements engineering for embedded software systems tools and methods used in the automotive industry software product lines architectural frameworks various related ISO standards functional safety and safety cases cooperative intelligent transportation systems autonomous vehicles and security and privacy issues The intended audience includes researchers from academia who want to learn what the fundamental challenges are and how they are being tackled in the industry and practitioners looking for cutting edge academic findings Although the book is not written as lecture notes it can also be used in advanced master s level courses on software and system engineering The book also includes a number of case studies that can be used for student projects

Systems, Software and Services Process Improvement Rory V. O'Connor, Mariye Umay Akkaya, Kerem Kemaneci, Murat Yilmaz, Alexander Poth, Richard Messnarz, 2015-10-15 This volume constitutes the refereed proceedings of the 22st EuroSPI conference held in Ankara Turkey in September October 2015 The 18 revised papers presented together with 9 selected key notes and workshop papers were carefully reviewed and selected from 49 submissions They are organized in topical sections on SPI themed case studies SPI approaches in safety critical domains SPI in social and organizational issues software process improvement best practices models and optimization approaches in SPI SPI and process assessment creating environments supporting innovation and improvement social aspects of SPI conflicts games gamification and other social approaches risk management and functional safety management

Socialbots and Their Friends Robert W. Gehl, Maria Bakardjieva, 2016-12-01 Many users of the Internet are aware of bots automated programs that work behind the scenes to come up with search suggestions check the weather filter emails or clean up Wikipedia entries More recently a new software robot has been making its presence felt in social media sites such as Facebook and Twitter the socialbot However unlike other bots socialbots are built to appear human While a weatherbot

will tell you if it's sunny and a spambot will incessantly peddle Viagra socialbots will ask you questions have conversations like your posts retweet you and become your friend All the while if they're well programmed you won't know that you're tweeting and friending with a robot Who benefits from the use of software robots Who loses Does a bot deserve rights Who pulls the strings of these bots Who has the right to know what about them What does it mean to be intelligent What does it mean to be a friend Socialbots and Their Friends Digital Media and the Automation of Sociality is one of the first academic collections to critically consider the socialbot and tackle these pressing questions

Emotions and Personality in Personalized Services Marko Tkalčič, Berardina De Carolis, Marco de Gemmis, Ante Odić, Andrej Košir, 2016-07-13

Personalization is ubiquitous from search engines to online shopping websites helping us find content more efficiently and this book focuses on the key developments that are shaping our daily online experiences With advances in the detection of end users emotions personality sentiment and social signals researchers and practitioners now have the tools to build a new generation of personalized systems that will really understand the user's state and deliver the right content With leading experts from a vast array of domains from user modeling mobile sensing and information retrieval to artificial intelligence human computer interaction HCI social computing and psychology a broad spectrum of topics are covered From discussing psychological theoretical models and exploring state of the art methods for acquiring emotions and personality in an unobtrusive way as well as describing how these concepts can be used to improve various aspects of the personalization process and chapters that discuss evaluation and privacy issues Emotions and Personality in Personalized Systems will help aid researchers and practitioners develop and evaluate user-centric personalization systems that take into account the factors that have a tremendous impact on our decision making emotions and personality

Opinion Analysis in Interactions Chloe Clavel, 2019-09-11 As time goes on big companies such as Amazon Microsoft Google and Apple become increasingly interested in virtual assistants The interest and development of social robots has put research into affective and social computing at the forefront of the scene The aim of Opinion Analysis in Interactions is to present methods based on artificial intelligence through a combination of machine learning models and symbolic approaches Also discussed are natural language processing and affective computing via the analysis and generation of socio-emotional signals The book explores the analysis of opinions in human-human interaction and tackles the less explored yet crucial challenges related to the analysis methods of user opinions within the context of human-agent interaction It also illustrates the implementation of strategies for selecting and generating agent utterances in response to user opinions and opens up perspectives on the agent's multimodal generation of utterances that hold attitudes

Fuzzy Logic and Soft Computing Applications Alfredo Petrosino, Vincenzo Loia, Witold Pedrycz, 2017-02-06 This book constitutes the proceedings of the 11th International Workshop on Fuzzy Logic and Applications WILF 2016 held in Naples Italy in December 2016 The 22 revised full papers presented together with 2 invited lectures were carefully reviewed and selected from numerous submissions The papers are

organized in topical sections on fuzzy measures and transforms granularity and multi logics clustering and learning knowledge systems and soft computing and applications **Social Informatics** Emma Spiro,Yong-Yeol Ahn,2016-11-01 The two volume set LNCS 10046 and 10047 constitutes the proceedings of the 8th International Conference on Social Informatics SocInfo 2016 held in Bellevue WA USA in November 2016 The 36 full papers and 39 poster papers presented in this volume were carefully reviewed and selected from 120 submissions They are organized in topical sections named networks communities and groups politics news and events markets crowds and consumers and privacy health and well being
