James A. Beard: This discussion of the social order of an agricultural republic is Taylor's most popular and influential work. Arator John Taylor, 1814 The Rise of Economic Societies in the Eighteenth Century K. Stapelbroek, J. Its fourteen contributions demonstrate the intellectual horizons and international networks of this widespread and influential phenomenon. *My Work Is That of Conservation* Mark D. Hersey, 2011 Hersey shows that in the hands of pioneers like Carver, Progressive Era agronomy was actually considerably greener than is often thought today. He uses Carver's life story to explore aspects of southern environmental history and to place this important scientist within the early conservation movement. **Race and the Politics of Fear** J. Noel Hubler, 2025-05-16 *Race and the Politics of Fear* is a study of the role of race in American political history. It takes a novel approach by using Aristotle's theory of the mixed regime to analyze the American system. Aristotle's mixed regime, containing elements of oligarchy and democracy, was well known to the Founders who used it to design the Constitution. Accordingly, American political history has unfolded as a struggle between oligarchic and democratic forces. Oligarchs have frequently used race to divide the people and maintain power. This book traces the oligarchic construction of race from its creation in the Colonial period and through a study of four major figures. James Madison helped formulate the Constitution to provide protection for the Southern oligarchies and was a founder of the Democratic-Republican party dominated by Southern interests. John C. Calhoun's theory of the concurrent majority provided a blueprint for the South's political strategy in the Jim Crow era. Ben Tillman redefined race primarily as a feeling, as an excuse for the South's violent oppression of the black community. Ronald Reagan retooled the traditional racist myths and made them palatable to a national audience. Readable yet extensively documented, it is appropriate for general

audiences and scholars **The Invention of Capitalism** Michael Perelman, 2000-05-03 Rethinks the history of classical political economy by assessing the Marxian idea of primitive accumulation the process by which a propertyless working class is created *The Mind of the Master Class* Elizabeth Fox-Genovese, Eugene D. Genovese, 2005-10-17 The Mind of the Master Class tells of America's greatest historical tragedy A great many of the slaveholding men and women were intelligent honorable and pious yet these very people admirable in so many ways presided over a social system that proved itself an enormity and inflicted horrors on their slaves Even now there is much to be learned from their moral and political reflections on their times and ours **The James River Basin, Past, Present and Future** Virginia Academy of Science. James River Project Committee, 1950 *Dictionary of Anonymous and Pseudonymous English Literature* Samuel Halkett, 1971

Democratizing the Old Dominion William G. Shade, 1996 Places the antebellum debate over slavery and states rights in the context of early discussions of the two party system and economic development by founding fathers Jefferson and Madison arguing that the similarities between North and South were more numerous than the differences and analyzes the state's regional cultures demonstrating that party politics as a system expanded democracy Virginia Includes bandw maps and photos For scholars of history Annotation copyright by Book News Inc Portland OR **James Kennedy, W.
