Eurasian Emma Teng, 2013-07-13 In the second half of the nineteenth century global labor migration trade and overseas study brought China and the United States into close contact leading to new cross cultural encounters that brought mixed race families into being Yet the stories of these families remain largely unknown How did interracial families negotiate their identities within these societies when mixed race marriage was taboo and Eurasian often a derisive term In Eurasian Emma Jinhua Teng compares Chinese Western mixed race families in the United States China and Hong Kong examining both the range of ideas that shaped the formation of Eurasian identities in these diverse contexts and the claims set forth by individual Eurasians concerning their own identities Teng argues that Eurasians were not universally marginalized during this era as is often asserted Rather Eurasians often found themselves facing contradictions between exclusionary and inclusive ideologies of race and nationality and between overt racism and more subtle forms of prejudice that were counterbalanced by partial acceptance and privilege By tracing the stories of mixed and transnational families during an earlier era of globalization Eurasian also demonstrates to students faculty scholars and researchers how changes in interracial ideology have allowed the descendants of some of these families to reclaim their dual heritage with pride

Frank Moss, 2015-07-16 Excerpt from The American Metropolis From Knickerbocker Days to the Present Time Vol 1 of 3 New York City Life in All Its Various Phases But not only will the objects proposed by the present volumes commend themselves to every intelligent friend of the City but the scheme of recital which the Author has adopted is itself a marked feature of the work It will arrest the attention of his adult readers and will be particularly grateful to the tastes and instincts of the young people and it is upon them primarily that we have to base our hopes for the future Youths are not fond of disquisitions but they like to be shown things which is exactly what Mr Moss does in these pages An event taken apart from its local connections is almost as uninteresting a thing as a soul would be with no body for it to be at home in The author of The American Metropolis not only describes What has occurred in the history of our City but knits those events to the particular spot where they have transpired thus clothing them with the garments of reality and putting them into local relation with the streets that we are to day walking His idea is a clever one and can hardly fail of catching the attention and holding the interest of the reading public younger and older About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst
