Cummings,2006-10-05 The Cadillac V 16 was conceived in secrecy in the middle of the Roaring Twenties when incomes were

rising prosperity seemed endless and the car business was beginning to break from a traditional emphasis on function over form But by the time the Cadillac V 16 reached showrooms in 1930 the nation was falling headlong into the Great Depression and it soon became a rare relic of the boom before the crash That is why in the mid 1960s when Christopher Cummings was an adolescent car enthusiast the oldest Cadillac V 16s were a dream just out of reach This memoir tells the story of a boy who grew up loving cars learned everything he could about them and acquired quite a few impressive models for himself while always looking forward to the day he would by surprising circumstance find the automobile of his dreams Early chapters reveal the adventure Cummings underwent renovating his first car at age 13 Over the course of his teenage years he would work to acquire three classic Cadillacs a 1941 Cadillac Series 7523 seven passenger touring sedan a 1941 Cadillac Series 61 coupe and a 1931 Cadillac Series 355A Fleetwood Cabriolet Later chapters recount the painstaking effort he put into renovating and maintaining those coveted vehicles The story culminates with Cummings unexpected acquisition of the car that earned the motto Standard of the World the 1930 V 16 Imperial Sedan limousine In all this memoir bears witness to an elegant sample of the best that the Classic era of automotive history had to offer *The Culture Code* Clotaire

Rapaille, 2006-06-06 Why are people around the world so very different What makes us live buy even love as we do The answers are in the codes In *The Culture Code* internationally revered cultural anthropologist and marketing expert Clotaire Rapaille reveals for the first time the techniques he has used to improve profitability and practices for dozens of Fortune 100 companies His groundbreaking revelations shed light not just on business but on the way every human being acts and lives around the world Rapaille's breakthrough notion is that we acquire a silent system of codes as we grow up within our culture These codes the Culture Code are what make us American or German or French and they invisibly shape how we behave in our personal lives even when we are completely unaware of our motives What's more we can learn to crack the codes that guide our actions and achieve new understanding of why we do the things we do Rapaille has used the Culture Code to help Chrysler build the PT Cruiser the most successful American car launch in recent memory He has used it to help Procter Gamble design its advertising campaign for Folger's coffee one of the longest lasting and most successful campaigns in the annals of advertising He has used it to help companies as diverse as GE AT T Boeing Honda Kellogg and L Or al improve their bottom line at home and overseas And now in *The Culture Code* he uses it to reveal why Americans act distinctly like Americans and what makes us different from the world around us In *The Culture Code* Dr Rapaille decodes two dozen of our most fundamental archetypes ranging from sex to money to health to America itself to give us a new set of glasses with which to view our actions and motivations Why are we so often disillusioned by love Why is fat a solution rather than a problem Why do we reject the notion of perfection Why is fast food in our lives to stay The answers are in the Codes Understanding the Codes gives us unprecedented freedom over our lives It lets us do business in dramatically new ways And it finally explains why people around the world really are different and reveals the hidden clues to understanding us all
