dissolving the conventionally bounded spaces of armed conflict Bousquet shows that over several centuries a logistical order of militarized perception has come into ascendancy bringing perception and annihilation into ever closer alignment The efforts deployed to evade this deadly visibility have correspondingly intensified yielding practices of radical concealment that presage a wholesale disappearance of the customary space of the battlefield Beginning with the Renaissance s fateful discovery of linear perspective The Eye of War discloses the entanglement of the sciences and techniques of perception representation and localization in the modern era amid the perpetual quest for military superiority In a survey that ranges from the telescope aerial photograph and gridded map to radar digital imaging and the geographic information system Bousquet shows how successive technological systems have profoundly shaped the history of warfare and the experience of soldiering A work of grand historical sweep and remarkable analytical power The Eye of War explores the implications of militarized perception for the character of war in the twenty first century and the place of human subjects within its increasingly technical armature

DEMISTIFYING THE ODYSSEY Zlatko Mandzuka,2013 The Odyssey is considered to be the most beautiful literary work of the Western civilization and Homer the first and the greatest poet ever The book Demystifying the Odyssey is interpreting Homer s epic in a unique and completely new way For the first time in literature this book explains the events and phenomena that Odysseus saw and experienced and which were considered so far as a result of the Poet s rich imagination So this book reveals how Odysseus went to Hades kingdom of the dead souls what are in reality Scylla and Charybdis who were the sirens how the Island of Aeolus the ruler of the winds actually floated how Circa turned Odysseus s sailors into pigs and other Besides that this book also reveals the fallacy two and a half millennia long dating back from the first historians Herodotus and Thucydides according to which Odysseus was wandering the Mediterranean sea It further provides numerous proofs that Homer s hero was actually wandering the Adriatic For all those readers who are familiar with the ancient Greek literature this book will be great news and quite a surprise On the other hand for those who have not been quite aware of the old Greek world it will provide great knowledge on the first European civilization In any case this will surely be an interesting reading for all of them **Mergent**
