since E P Thompson published his classic *The Making of the English Working Class* *The Making of an African Working Class* follows Thompson in exploring the formation of working class identity among low paid African workers In arguing for a radical public anthropology of worker identity the book seeks to analyse the cultural legal ideological and experiential dimensions of labour activism often neglected in other labour studies Pnina Werbner shows that by fusing cosmopolitan and local popular cultural forms of protest unionists have created a distinctive vernacular way of being a worker in Botswana one that does not deny workers roots at home or in the countryside while being cognisant of a wider world of cosmopolitan labour rights The assertion of working class dignity honour and respect Pnina argues is a powerful motivating force for manual workers Against legal sceptical approaches *The Making of an African Working Class* argues that in challenging the government their employer in court manual workers protests and mobilisation are deeply embedded in ethics social justice and the law **The Opera Manual** Nicholas Ivor Martin, 2013-10-30 You are getting ready for a performance of Donizetti's

summaries for more than 550 operas including every opera that is likely to be performed today from standard to rediscovered contemporary works The book is invaluable especially for opera professionals who will find everything they need for choosing and staging operas But it is also a treasure for listeners Similar reference books commonly skip over scenes and supporting characters in their plot summaries lacking even the most basic facts about staging orchestral and vocal requirements The Opera Manual based on the actual scores of the works discussed is the only exhaustive up to date opera companion a recipe book that will enable its readers to explore those operas they know and discover new ones to sample and enjoy
