the field Architectural Metals is an indispensable tool for architects, designers, and artisans who work with metals. Metals is the material of our time. It enables architecture to become sculpture; it also expresses technological possibility as well as the time honored characteristics of quality and permanence. From Frank O Gehry's foreword to Architectural Metals. Written by one of the leading experts on architectural metals, this is the first comprehensive guide to the metals and metallic finishes and coatings available for use in architectural construction. Growing out of its author's experiences helping architects realize some of the most exciting designs of the past twenty years, Architectural Metals Demystifies metals for architects and design professionals. Supplies a logical framework for selecting the best materials for the job at hand. Provides instant access to everything architects and designers need to

Materials Julia McMorrough, 2006 Publisher description **Old-House Journal**, 1985-03 Old House Journal is the original magazine devoted to restoring and preserving old houses. For more than 35 years, our mission has been to help old house owners repair, restore, update, and decorate buildings of every age and architectural style. Each issue explores hands-on restoration techniques, practical architectural guidelines, historical overviews, and homeowner stories, all in a trusted, authoritative voice.

Architectural Graphic Standards for Residential Construction Janet Rumbarger, Richard Vitullo, 2003 Publisher description *Historic Building Façades* New York Landmarks Conservancy, 1997-04-24 Comprehensive in-depth coverage from leading experts in the field. A historic building is a fragile resource that requires the finest care. Maintenance and rehabilitation of walls and facades call for a thorough understanding of the forces that cause deterioration, knowledge of the properties of building materials, up-to-date inspection tools and methods, and a solid command of renovation and repair techniques. In this complete reference manual, recognized experts provide state-of-the-art information and methodologies for the inspection, maintenance, and restoration of historic buildings of virtually every period, style, and material. Each chapter opens with a general discussion of the facade material and the ways in which structural and decorative elements are vulnerable to an array of environmental forces. After a detailed investigation of tools and techniques for inspection, the text explores planning issues for the restoration or replacement of facade components. Special features include: Separate chapters on each major type of building material: stonemasonry, brick masonry, terra cotta, masonry, cast stone, mortar, concrete, cast iron, sheet metal, and wood. An entire chapter on caulks and sealants. 35 original line drawings and 43 black and white photos that help visualize technical information. Selected success stories from preservation projects across the United States. For architects, building contractors, and owners of historic buildings. *Historic Building Façades* clarifies procedures, helps identify sources of deterioration, and offers solutions to even the most difficult maintenance and rehabilitation problems. It is also an excellent reference for building preservationists, architectural historians, and students of building design and preservation.
