Must Inclusion be Special? Jonathan

Rix,2015-06-05 **Must Inclusion be Special** examines the discord between special and inclusive education and why this discord can only be resolved when wider inequalities within mainstream education are confronted It calls for a shift in our approach to provision from seeing it as a conglomeration of individualised needs to identifying it as a conglomeration of collective needs The author examines the political medical and cultural tendency of current times to focus upon the individual and contrasts this with the necessity to focus on context This book distinguishes the theoretical perspectives that are often associated with special or inclusive education and the broad range of interests which depend upon their ongoing development This examination leads to a problematisation of mainstream education provision our understanding of why social inequities emerge and how additional support can overcome these inequities Further chapters explore the underlying challenges which emerge from our use and understanding of the notions of special and inclusive outlining an alternative approach based upon a community of provision This approach recognises the interconnectedness of services and the significance of context and it encapsulates the aspiration of much international legislation for participation and inclusion for all But it also assumes that we tend towards diffuse practices services policies settings and roles spread across provision which is variously inclusive and exclusionary In seeking to create equitable participation for all support needs to shift its focus from the individual to this diffuse network of contexts **Must Inclusion be Special** emerges from the research base which problematises inclusion and special education drawing upon examples from many countries It also refers to the author s research into pedagogy language and policy and his experiences as a teacher and the parent of a child identified with special educational needs

Inclusive Education Lissa A. Power-deFur,Fred P. Orelove,1997 A comprehensive look at inclusion this

book provides success stories by administrators and teachers who have found that inclusion is the best way to meet the least restrictive environment needs of their students. Addressing Tensions and Dilemmas in Inclusive Education Brahm Norwich, 2023-10-25 This updated second edition of *Addressing Tensions and Dilemmas in Inclusive Education* further develops the critical analysis of the initial edition that integrates the interaction between different perspectives and positions in the field of inclusive education. This key resource expands the arguments present in the first edition with clearer implications about how to address tensions and dilemmas in inclusive education and resolve them through democratic deliberation. Based on contemporary research, theory and policy as well as responding to current perspectives towards the education of children and young people with learning difficulties and disabilities, Brahm Norwich extends and refines the original core argument of the previous edition: the practical realisation of inclusion involves tensions and dilemmas that have to be addressed and resolved. This core analysis focuses on identification and classification, current national and international conceptions, pedagogic and curriculum issues, organisation of schooling, parental and student perspectives and the contribution of research to policy and practice. Re-engaging with the fundamental issues in the field and providing a coherent perspective that recognises and justifies the interconnection between specialised and general school provision, this accessible new edition will be of interest to all students and researchers of inclusive education.

Special Educational Needs and Inclusive Education: Systems and contexts David R. Mitchell, 2004 Demonstrates how the fields of special education and inclusive education have evolved philosophically and technically over the past 30 years.

Managing Special and Inclusive Education Stephen Rayner, 2007-10-15 This book is a guide to special and inclusive education and provides a comprehensive overview of this complex field. Author Stephen Rayner examines context, policy and practice and shows how to successfully navigate the managerial challenges involved while contributing to the way forward through leadership in a diverse field.

Caribbean Discourse in Inclusive Education Stacey Blackman, Dennis Conrad, 2017-03-01 *Caribbean Discourse in Inclusive Education* is an edited book series that aims to give voice to Caribbean scholars, practitioners and other professionals working in diverse classrooms. The book series is intended to provide an ongoing forum for Caribbean researchers, practitioners and academics, including those of the Diaspora, to critically examine issues that influence the education of children within inclusive settings. The book series is visionary, timely, authoritative and presents pioneering work in the area of inclusive education in the Caribbean as part of the broader South-South dialogue. It is essential reading for students in undergraduate and postgraduate programmes, scholars, teachers, researchers and policy makers at the regional and international level. The first book in this series, entitled *Historical and Contemporary Issues*, will trace the history and examine the Caribbean's trajectory towards the development of inclusive education in the 21st Century.

The main premise of the book is that inclusion remains an ideologically sound goal which remains elusive in the Caribbean. It will also provide a wider platform to discuss other factors that influence the development of inclusive education such as school climate, culture and ethos, LGBT issues, teacher training and professional development, pedagogy, pupil perspective, curriculum, policy and legislation.

The Routledge Handbook of Inclusive Education for Teacher Educators Santoshi Halder, Shakila Dada, Rashida Banerjee, 2023-03-14. This handbook provides foundational conceptual and practical knowledge and understanding of inclusive education and special needs education. It highlights the need for preparing special educators and teachers for inclusive classrooms to effectively cater to the needs of students with diverse needs in various low, middle and high income countries globally. It demonstrates various evidence based and practice based strategies required to create classrooms inclusive of diverse learners. While tracing the historical trajectory of the foundational underpinnings, philosophical bases and crucial issues associated with inclusive education, this book presents a future roadmap and pathways through case instances and in depth discussions to share with educators how they can strengthen their bases and make learning more inclusive in their context. It also provides an overview of the different models of assessment and their applications in the analysis of children in inclusive classroom settings. Comprehensive, accessible and nuanced, this handbook will be of immense interest and benefit to teachers, educators, special educators, students, scholars and researchers in the areas of social inclusion, education, special needs education, educational psychology, technology for inclusion, disability studies among other related disciplines. It will be extremely beneficial for academicians, teacher educators, special educators and those interested in professional teacher training courses.

The Role of Assistive Technology in Fostering Inclusive Education Evert-Jan Hoogerwerf, Katerina Mavrou, Ivan Traina, 2020-09-13. The Role of Assistive Technology in Fostering Inclusive Education uses evidence based research to explore issues related to implementation of ICT based Assistive Technology (ICT AT) in education. It focuses on programmes and activities that aim at the empowerment of the learners with disabilities as well as the empowerment of the entire educational ecosystem. The book provides a synthesis of political and theoretical discussions as well as practical experiences on the implementation of ICT AT in education. Analysing international policy frameworks in relation to inclusive education and technology, it discusses examples of school self assessment and action plan methodologies for digital inclusive education as well as case studies of innovative ICT and AT solutions in educational environments. The authors elaborate on digital empowerment as a wider societal challenge through reflection on the barriers that people with disabilities meet in education and beyond. This book will be of great interest for academics, researchers and postgraduate students in the fields of inclusive education and assistive technology as well as those interested in education research and policy development.
