Aesthetic Science Connecting Minds Brains And Experience:

Aesthetic Science Arthur P. Shimamura, Stephen E. Palmer, 2012-01-02 What do we do when we view a work of art What does it mean to have an aesthetic experience Are such experiences purely in the eye of the beholder This book addresses the nature of aesthetic experience from the perspectives of philosophy psychology and neuroscience

Experiencing Art Arthur Shimamura, 2015-04-15 How do we appreciate a work of art Why do we like some artworks but not others Is there no accounting for taste Awarded a Guggenheim Fellowship to explore connections between art mind and brain Shimamura considers how we experience art In a thoughtful and entertaining manner the book explores how the brain interprets art by engaging our sensations thoughts and emotions It describes interesting findings from psychological and brain sciences as a way to understand our aesthetic response to art Beauty disgust surprise anger sadness horror and a myriad of other emotions can occur as we experience art Some artworks may generate such feelings rather quickly while others depend on thought and knowledge Our response to art depends largely on what we know from everyday knowledge about the world from our cultural backgrounds and from personal experience Filled with artworks from many traditions and time points Experiencing Art offers insightful ways of broadening one's approach and appreciation of art

Aesthetics on the Edge Dominic Lopes, 2018 This book proposes a new methodology for aesthetics where problems in philosophy are addressed by examining how aesthetic phenomena are understood in the human sciences Lopes then puts the methodology to work illuminating the perceptual and social pragmatic capacities involved in responding to works of visual art literature and music

The Oxford Handbook of Empirical Aesthetics Marcos Nadal, Oshin Vartanian, 2022-09-22 Humans have engaged in artistic and aesthetic activities since the appearance of our species Our ancestors have decorated their bodies tools and utensils for over 100 000 years The expression of meaning using color line sound rhythm or movement among other means constitutes a fundamental aspect of our species biological and cultural heritage Art and aesthetics therefore contribute to our species identity and distinguish it from its living and extinct relatives Science is faced with the challenge of explaining the natural foundations of such a unique trait and the way cultural processes nurture it into magnificent expressions historically and ethnically unique How do the human mind and brain bring about these sorts of behaviors What psychological and neural processes underlie the appreciation of painting music and dance How does training modulate these processes Are humans the only species capable of aesthetic appreciation or are other species endowed with the rudiments of this capacity Empirical examinations of such questions have a long and rich history in the discipline of psychology the genesis of which can be traced back to the publication of Gustav Theodor Fechner's *Vorschule der Aesthetik* in 1876 making it the second oldest branch in experimental psychology The Oxford Handbook of Empirical Aesthetics brings together leading experts in psychology neuroimaging art history and philosophy to answer these questions It provides the most comprehensive coverage of the domain of empirical aesthetics to date With sections on visual art dance music and many other art forms and

aesthetic phenomena the breadth of this volume's scope reflects the richness and variety of topics and methods currently used today by scientists to understand the way our mind and brain endow us with the faculty to produce and appreciate art and aesthetics

Psychocinematics Arthur P. Shimamura, 2014-02-15 Largely through trial and error filmmakers have developed engaging techniques that capture our sensations thoughts and feelings Philosophers and film theorists have thought deeply about the nature and impact of these techniques yet few scientists have delved into empirical analyses of our movie experience or what Arthur P Shimamura has coined psychocinematics This edited volume introduces this exciting field by bringing together film theorists philosophers psychologists and neuroscientists to consider the viability of a scientific approach to our movie experience

Two Thumbs Up Stephanie Ross, 2020-11-10 An expansive and witty examination of the usefulness of criticism from the realm of professional tastemakers to the vast landscape of social media Times Literary Supplement UK Far from an elite practice reserved for the highly educated criticism is all around us We turn to the Yelp reviewers to help us pick restaurants to Rotten Tomatoes to guide our movie choices and to voices on social media for critiques on everything from political candidates to beach resorts Yet even amid this sea of opinions professional critics still hold considerable power in guiding how we make aesthetic judgements In Two Thumbs Up philosopher Stephanie Ross examines how critics influence our decisions and why that's a good thing Starting from David Hume's conception of ideal critics Ross refines his position and makes the case that review based journalistic or consumer reporting criticism proves the best model for helping us find and appreciate quality Ross demonstrates how aesthetic and philosophical concerns permeate our lives choices and culture Ultimately whether we're searching for the right wine or the best concert Ross encourages us all to find and follow critics whose taste we share
