discovery ever made in the history of space exploration DO YOU WANT to know what has REALLY been discovered by the
cameras of the Mars Orbiters and Rovers While NASA scientists spend billions of dollars confirming that microbes live in the
Martian soil people sitting at home on their computers studying the Mars images are making far more astounding discoveries
they have found nothing less than the archaeological remains of an extraterrestrial civilization A piece of machinery half
buried in the Martian sand A small object looking very much like a broken plate A precision hollow square box or metal
casing These objects were found on images taken by NASA s Spirit Rover at Gusev Crater on the planet Mars and there are
many more Hard to believe Well this challenging book invites you to take a look at the pictures yourself and make up your
own mind SECRET MARS presents over 100 incredible images taken by American and European spacecraft that show
undeniable evidence of a civilization that once lived and may yet still live on the planet Mars Evidence which scientists are
completely ignoring SECRET MARS also reveals the shocking reason why this discovery is being kept secret from the world

region of Mars fits the Golden Ratio Spiral and looks at links between Martian formations and Earth s ancient sites
Illustrated throughout with color photographs maps and diagrams In this full color study based on 25 years of research Mary

Bennett explores the ancient and modern connections between Mars and Earth as well as how extraterrestrial intelligences are trying to assist us in constructing a viable spacecraft to take a human crew swiftly and safely to Mars She details how exploratory probes sent to Mars in the 1970s triggered over three decades of anomalous yet scientifically validated events including crop circles or crop glyphs She explains how these formations along with related events encode advanced engineering concepts that offer solutions to the fundamental problems presently hindering long haul crewed spaceflight whether to the Moon Mars or beyond Looking at the red planet itself the author reveals the scientifically verifiable evidence pointing to intelligent design on the surface of Mars specifically in the Cydonia region which fits the Golden Ratio Spiral She looks at the covert links between the Martian formations and Earth's ancient sites such as the Avebury landscape in England and the Giza Complex She describes how agencies concerned with space travel have been quietly mirroring areas of Mars through construction projects here on Earth revealing that many of the ET messages have already been partially decoded Taking you from a complex on Mars to the Teotihuacan pyramids in Mexico from phi ratios to the Pentagon from the Great Pyramid to quantum computing this exploration of the hidden influence of Mars shows that our abilities as a future space faring species began in the ancient past and are now coming to fruition

Mars Lives! Hidden Martian Archeology Dieter Crowley, 2016-10-15 The biggest question in the exploration of Mars has been whether or not Mars has or ever did support life Surprisingly enough some of the original Viking experiments presented evidence of microbial life and in 2012 36 years after the Viking missions Discovery News released an update from a team of researchers who unanimously concluded that the 1976 Viking experiments did indeed provide NASA with evidence of life on Mars There's a good reason we are pushing to send a manned mission to Mars and the true reasons may be more astonishing
