Assessment In Perspective Focusing On The Readers Behind The Numbers:

Assessment in Perspective Clare Landrigan, Tammy Mulligan, 2013 Assessment is an integral part of instruction For the past decade the focus on assessment particularly via high stakes mandated tests has shifted away from the classroom and left teachers feeling like they are drowning in data Assessment is and needs to be again much more than a number Assessment in Perspective is about moving beyond the numbers and using assessment to find the stories they tell This book helps teachers sort through the myriad of available assessments and use each to understand different facets of their readers It discusses how to use a range of assessment types from reading conference notes and student work to running records and state tests together to uncover the strengths and weaknesses of a reader The authors share a framework for thinking about the purpose method and types of different assessments They also address the questions they ask when choosing or analyzing assessments What type of tool do we need diagnostic formative or summative formal or informal quantitative or qualitative How do we use multiple assessments together to provide an in depth picture of a reader When and how are we giving the assessment Do we want to be able to compare our readers to a standard score or do we need to diagnose a reader s needs Which area of reading does this tool assess How can we use the information from assessments to inform our instruction What information does a particular assessment tell us and what doesn t it tell us What additional information do we need about a reader to understand his or her learning needs The book emphasizes the importance of triangulating data by using varied sources both formal and informal and across multiple intervals It explains the power of looking at different types of assessments side by side with displays to find patterns or inconsistencies What s more students are included as valuable sources of data Letting students in on the process of assessment is key to helping them set goals monitor their own progress and celebrate growth When assessment is viewed in this way instruction can meet high standards and still be developmentally appropriate

Welcome to Reading Workshop Lynne R. Dorfman, Brenda J. Krupp, 2023 *Welcome to Reading Workshop* is a practical guide for K 6 teachers at all experience levels that explains the nuts and bolts of reading workshop gives rationale for implementing it and shows teachers how to establish and maintain the method effectively through insightful discussions ideas for reflection and use tomorrow ideas Construction Zone Terry Thompson, 2023-10-10 Instructional scaffolding is an essential part of teaching literacy But what is scaffolding exactly What does it look like in a classroom and how can we improve the ways we use it Despite its prominence in the repertoire of teaching strategies scaffolding remains a vague concept for many teachers In essence scaffolding is the idea of supporting students as they build independence In *The Construction Zone Building Scaffolding for Readers and Writers* Terry Thompson identifies four critical processes to deepen your understanding and improve your practice of instructional scaffolding Finding and maintaining a specific focus Practicing flexibility in planning and delivering instruction Giving constructive feedback in response to student efforts Monitoring to ensure that students are working at optimal levels of responsibility Thompson encourages teachers to enhance their use of

the traditional gradual release process through five actionable steps show share support sustain and survey and in doing so provides procedures and techniques to help them establish and maintain strong scaffolds throughout the instructional day The Construction Zone is written from the teacher s perspective and urges educators to fully embrace their role in the scaffolding process while staying mindful of the effect it has on students Taking a student from dependence upon the teacher to independent learning is what teaching is all about and instructional scaffolding is key to accomplishing this goal Regardless of where you are in your understanding of instructional scaffolding The Construction Zone will raise your level of awareness around your instructional practices and the ways you scaffold students to independence **A Closer Look** Lynne Dorfman,Diane Dougherty,2023-10-10 In A Closer Look Lynne Dorfman and Diane Dougherty provide the tools and strategies you need to use formative assessment in writing workshop Through Lynne and Diane s ideas you will be able to establish an environment where students will internalize ways that they can assess their own writing and become independent writers Lynne and Diane share methods for collecting and managing information and show practical simple and concise ways to document student thinking In the accompanying online videos they demonstrate conferences with individual writers small groups and whole groups Quick easy to manage assessment methods emphasize that formative assessment does not have to take a long time to be worthwhile and effective Vignettes from classroom teachers principals and authors add a variety of perspectives and classroom experiences on this important topic A Closer Look shows that when students are in charge of their own writing process and set and reach their own goals writing becomes a vibrant energetic part of the day
