Asset Protection Manual:

Asset Protection Manual Michael Scott Ioane, Sr.,2014-05-21 We inhabit a time in which our rights and freedoms are under assault Of these our liberty to own and control property as assets is one of the most frequently attacked Commonly this is performed through the abuse of existing laws and systems Trivial lawsuits and excessive judgments have become commonplace and rampant transforming the judicial system to an instrument of wealth redistribution It is alarming that our properties are under threat from the government through its misuse of power and disregard of due process There is also the possibility and high probability of governmental administrative error In 1997 the General Accounting Office determined that almost 50% of all Internal Revenue Service IRS letters sent to taxpayers contained wrong information Tax penalties about 1 5 million of them were mistakenly assessed in 1998 What this means is that an IRS agent can commit an administrative error for which you will be forced to pay for fear that your assets would be confiscated This is why you need an asset protection program This is why you need this manual This manual will ease you into the world of asset protection It provides you with what you must know the basics of this means of defense It describes what you may find useful in the creation and implementation of a program designed for your needs Be reminded however that this is not a do it yourself book It is designed to be an educational resource to complement consultation with a local lawyer and the services offered by Acacia Business Solutions Realize that asset protection is complicated with legal and tax issues Also another person s program may not be applicable to your needs For those reasons any decision you make related to asset protection should not be based only upon what you read here it must be made in consultation with expert professionals **Domestic Asset Protection Trusts**

Safety, Health, and Asset Protection Richard Lack, 2001-12-11. When you need accurate up-to-date information in the rapidly changing field of asset protection, you need the most authoritative resource available. You need *Safety, Health, and Asset Protection Management Essentials*, Second Edition. It covers regulatory compliance, technical standards, legal aspects, risk management, and training requirements. T Asset Protection Planning for Seniors Michael A. Babiarz, 2007-09. As the Baby Boomer generation ages and the sandwich generation is stressed between caring for children and caring for parents, questions are cropping up all across the nation: How can I protect the nest egg I've worked so hard to create? What happens to my assets if I die unexpectedly? Will I be able to afford long-term care? In *Asset Protection Planning for Seniors*, attorney Michael A. Babiarz shares numerous examples of the real-life problems that aging Americans face today. This is not another confusing form book or technical manual. *Asset Protection Planning for Seniors* is a simple, helpful guide filled with examples aimed at addressing the basic concerns of older Americans: you stop worrying and start learning about nursing homes, Medicaid planning, wills, trusts, probate, avoiding family problems, protecting inheritance, powers of attorney. **Trust Protectors: A Practice Manual with Forms** Alexander A. Bove, Jr., 2014-09-01. The trust protector is generally regarded as a relatively new position in trust law, and the key feature of the position is that the protector may be granted powers over the

trust which are generally superior to those of the trustee This places the protector in a position where by the exercise of his powers he can cause the trust to adjust to unforeseen changes or new conditions without the need for court action or beneficiary approval This work takes the firm position that with only limited exception the role of the protector is a fiduciary one imposing on the protector a duty to act in the best interests of the purposes of the trust and the beneficiaries Unfortunately a substantial segment of the legal community as well as the legislative bodies of a number of international jurisdictions have taken a position that the protector is not a fiduciary or that he may be declared in the trust not to be a fiduciary and that the power granted him under the trust may be declared to be personal powers whether or not such is the case and thus he would have no liability for his actions or inactions while serving as protector This attraction of providing total exculpation of the protector has effectively engendered a quick acceptance of the position by the bulk of the legal community and even by the legislatures of a number of jurisdictions though almost totally unsupported by relevant case law As a result we have been seeing trusts which incorporate the use of a protector having the power to make critical dispositive and administrative decisions as well as extensive modifications to the trusts without being exposed to liability for negligence or bad decisions which result in damages This work will examine in detail the role of the protector of the trust the relationship between the protector and the trustee between the protector and the beneficiaries and the protector s responsibilities to the purposes of the trust It will demonstrate with legal support that the role of the protector is not a new role that in fact the protector is simply a new name for the decades old position of trust advisor and that the trust advisor is consistently regarded as a fiduciary in relevant treatises and has been repeatedly held to be a fiduciary in relevant cases The discussion will also review and analyze the historical issues and professional commentary relevant to trust law and the role of protector as well as case decisions in various international jurisdictions which have shed light on the issues and some of the positions taken in the statutes of a number of jurisdictions in the United States and across the world All legal aspects of the role will be examined including the rights of the protector the protector s relationship to the trustee and the courts regard for and treatment of the position Further the work will discuss in detail all of the practical considerations in using a protector such as selection and special drafting considerations the use of a protector in a foundation and in brief the numerous tax issues that may apply The conclusion will be that with only very limited exception which will be explained the protector is unquestionably a fiduciary and just as a trustee he should be held to fiduciary standards Accordingly while it is certainly possible to grant personal powers to an individual under a trust those powers per se conflict with the duties of a protector And while it is also possible to reduce the fiduciary liability of a protector to a minimum it is not possible to eliminate it entirely regardless of trust language attempting to do so
