Spiritual Science Eric Dubay, 2012-07-12 For centuries the prevailing western worldview has been built upon the materialistic mechanical model of Isaac Newton a clockwork Universe composed of separate particles of matter interacting according to precise physical laws and existing within objective dimensions of space and time This model has long succeeded in describing many facets of our multi faceted reality but increasingly since the revelations of Einstein and the paradigm crushing implications of quantum physics Newton's world is quietly fading from view and being replaced by a more spiritual science Topics covered include Quantum Physics

Consciousness The Holographic Universe Morphic Fields The Human Energy Body Psychoneuroimmunology Chi Chakras Meridians Acupuncture Auras Telepathy Psychokinesis Remote Viewing Precognition Out of Body Experiences Near Death Experiences Entheogens Death Ghosts Reincarnation God Tao Brahma Void Infinite Consciousness and Oneness **Our Spiritual Destiny** Frederick R. Kipp, 2007-10-22 Our Spiritual Destiny Manifesting New Bodies discusses the ways that evolutionary forces are continuing to unfold through all gradations of life It explains the purpose of human life as the expansion of Consciousness in matter through ongoing body development We have the choice to fulfill this purpose consciously at an accelerated pace by changing and raising the matter of our bodies to a level of our divine essence Utilizing the capacities of our Higher Selves within an initiatory framework of growth and transmutation we can actively participate in our body development thereby helping to expedite the manifestation of new bodies The following are passages from various chapters in the book From Alignment Clarification Many of the ancient wisdom traditions sacred religious texts and modern day writers have all alluded to some form of physical transcendence life extension or the raising and refinement of the physical body From the past each culture religion or entity has its own interpretation and language of what the stories mean or symbolize and how they apply to the present day I believe that many of these references relate to physical ascension physical body perfection or physical immortality All include the same premise that our bodies are of a nature and essence which enable their transformation From Our Journey into Matter I have come to see all of creation as a work in progress gradually working its way towards fulfillment Through evolutionary forces matter is continually being prepared to express ever higher aspects of Consciousness in our physical life It may not always seem like it but I also believe we are important agents of change for the expansion of consciousness in the world Our immortal human spirit repeatedly reincarnates within humanity with increasing experience to help unfold and expand a higher plan for matter However our main problem with this task is that by taking physical form in matter bodies we cannot remember our divine origins in the inner unseen realms From Remembering Some religious scholars suggest that the essence of all sacred material is somehow buried deep within our being If this is true then helping us remember must be the intent and purpose of all divinely inspired sacred books spiritual literature and cultural myths in the world Somewhere in our Being or Higher Self we already know the purpose of physical life in matter As evolution progresses and our consciousness expands through time we are incrementally working towards remembering this purpose From Spiritual Orientation and Alignment For most of us the physical demands of our daily lives capture our conscious attention and vital energies This happens gradually within our ritualized patterns and daily activities Through this physical focus and orientation the crystallizing force in matter constructs barriers within our consciousness and bodies that maintain and reinforce this alignment Because of its compelling and coalescing nature our life energies are drained through attachment to the form and routine of our lives As a result we usually feel and believe we have little left over to devote to our spiritual development From Health and New Body Alignment Most people have grown up with a body

centered identity Everything about living in the world seems to condition us to identify with this orientation The realities of physical life throughout history have encouraged us to strengthen build up or perfect our natural body in one way or another This alignment has ensured the survival of our species Even today in our modern world we continue to value the attributes of physical strength fitness and vitality as the ultimate experience of a good life From the standpoint of our present bodies and our collective beliefs about them this orientation is helpful and necessary However , **Modern Science and the Paranormal** Marie D. Jones,2009-01-15 This book uses scientific theory to explain some of the extrascientific phenomena such as UFOs and poltergeists The Complete Book of Chakra Healing Cyndi Dale,2009 Cyndi Dale s New Chakra Healing established a new standard for healers intuitives and energy workers worldwide It expanded the seven chakra system to thirty two including twenty spiritual points serving as catalysts for dynamic change This comprehensive expanded edition of her classic guide with more than 150 pages of new information features an abundance of original material and illustrations A new introduction with true stories from Cyndi Dale s healing practice Illustrations of the energetic nature of diseases so they can be better understood and addressed Detailed descriptions of energetic bodies and fields found nowhere else such as the energy egg zones of existence a three part kundalini system and dozens of others A wealth of information on healing the earth as you heal yourself The Complete Book of Chakra Healing will help you integrate the powerful forces of your energy body into your everyday life for better health increased happiness and creativity and a stronger awareness of your life s true purpose Awakening the Soul Bill Missett,2008-05-21 Awakening The Soul The Trilogy includes ATS Book One Proof of Our Spiritual Nature which itemizes more than 80 characteristics of our spiritual nature many very familiar and explains 10 of them in depth ATS Book 2 Our Suppressed Spiritual Nature which explains why we are so out of touch with our spiritual nature primarily through suppression of those traits by religions primarily Christianity and ATS Book 3 Restoring Your Spiritual Nature contains detailed channeled instructions to restore immediate awareness of your spiritual nature which has proven highly successful in doing just that
