together such features however seems to be a paradox that a genre rooted in solving a mystery structured around the gathering of clues must do so by misdirecting our attention even withholding information we think we need to generate the suspense we also desire Yet successful noir stories and films enhance that suspense through passing diversions descriptive details and eccentric perspectives rather than depending on the center pieces of plot alone suspected motives or incriminating traces As the greatest practitioners of the genre have realized the how of detective fiction its stylistic detours draws us in more insistently than the what or the who its linear advance And the achievement of recent film noir is to make that how become the tantalizing object of our entire attention shorn of any pretense of reading for the plot immersing us in the diversionary delight that has animated the genre from the beginning
