**Novelists and Novels** Harold Bloom, 2009 Read what Bloom had to say on the world s great novelists including Miguel de Cervantes Charles Dickens Jane Austen Franz Kafka Ernest Hemmingway and more **The Fixer ; The Natural ; The Assistant** Bernard Malamud, 1992 *Fixer* Professor Bernard Malamud, 1989-12-01 *Ethnic Identities in Bernard Malamud's Fiction* Martín Urdiales Shaw, 2000 The present study has been divided into five general chapters each of which is centred around a basic issue related to ethnic identities This central issue may be more or less specific largely depending on its nature and on the corpus it comprises for example chapter two which bears the general title the old country and the New World is naturally the most extensive because of the great scope of this theme and the number of works it involves two novels and a considerable number of stories including the very long *Man in the Drawer* By contrast the last chapter entitled *Beyond*

Race into Myth Seeking the Liberation of the Self is logically the shortest because its focus is restricted to a particular function of ethnic identities metaphorically speaking in Malamud's fantastic works the novel *God's Grace* and one short story. Similar proportions between length complexity of theme and corpus treated are maintained in the three central chapters which focus on ethnic aspects which are neither as general as chapter two nor as specific as chapter six. Literature and Law, 2016-08-09 In recent years there has been a continuing and persistent world wide interest in the interaction between the two disciplines of law and literature. Although there have been many collections of primary texts that combined these two areas this volume presents literary analyses and criticism in an attempt to assess the varied relationships between law and justice between lawyers and clients and between readers perceptions and authors intent hopefully suggesting why they have continually been yoked together. One similarity between the two is that lawyers like writers must catch their audience's attention by novelty of scene distinctiveness of voice and ingenuity of design. Furthermore legal advocates must recreate a concrete sense of reality developing vivid and valid pictures of a specific time and place. In short both lawyers and writers attempt to provide a basis for juries readers to judge defendants characters by their motivations and their actions and to decide whether a favorable ruling assessment is justified. Collectively the essays in this book are designed to deal with themes of guilt and innocence right and wrong morality and legality. The essays also suggest that the world as it is delineated by lawyers is indeed a text that like its literary counterparts sometimes blurs the distinction between fact and fiction as it attempts to define truth and to establish criteria for impartial justice. By exploring interdisciplinary contexts readers will surely be made more aware more sensitive to the roles that stories play in the legal profession and to the dilemmas faced by legal systems that often succeed in maintaining the rights and privileges of a dominant societal group at the expense of a less powerful one. *Witness Through the Imagination* S. Lillian Kremer, Lillian Kremer, 2018-02-05 *Witness through the Imagination* presents a critical reading of themes and stylistic strategies of major

American Holocaust fiction to determine its capacity to render the prelude progress and aftermath of the Holocaust Criticism of Holocaust literature is an emerging field of inquiry and as might be expected the most innovative work has been concentrated on the vanguard of European and Israeli Holocaust literature Now that American fiction has amassed an impressive and provocative Holocaust canon the time is propitious for its evaluation Witness Through the Imagination presents a critical reading of themes and stylistic strategies of major American Holocaust fiction to determine its capacity to render the prelude progress and aftermath of the Holocaust The unifying critical approach is the textual explication of themes and literary method occasional comparative references to international Holocaust literature and a discussion of extra literary Holocaust sources that have influenced the creative writers treatment of the Holocaust universe

**Meaning in Spinoza's Method** Aaron V. Garrett, 2003-06-26 Readers of Spinoza's philosophy have often been daunted and sometimes been enchanted by the geometrical method which he employs in his philosophical masterpiece the Ethics In Meaning in Spinoza's Method Aaron Garrett examines this method and suggests that its purpose in Spinoza's view was not just to present claims and propositions but also in some sense to change

the readers and allow them to look at themselves and the world in a different way His discussion draws not only on Spinoza's works but also on those of the philosophers who influenced Spinoza most strongly including Hobbes Descartes Maimonides and Gersonides This controversial book will be of interest to historians of philosophy and to anyone interested in the relation between form and content in philosophical works

**The Jewish American Novel** Philippe Codde, 2007 Philippe Codde provides a comparative cultural analysis of the unprecedented success of the Jewish novel in the postwar United States by situating the process and event in the context of three closely related American cultural movements the popularity in the US of French philosophical and literary existentialism the increasing visibility of the Holocaust in US American life and the advent of radical theology Codde argues that the literary repertoire of the postwar Jewish novel consists of an amalgam of these cultural elements that were making their mark in the political religious and philosophical systems of the United States at the time and that this explains in part the Jewish novel's sweeping success in the American literary system
