1st First Edition

Brendan G. Carr

Bonds Of Affection Americans Define Their Patriotism 1st First Edition:

Bonds of Affection John Bodnar, 2020-10-06 During the Civil War Walt Whitman described his admiration for the Union soldiers loyalty to the ideal of democracy His argument that this faith bonded Americans to their nation has received little critical attention yet today it raises increasingly relevant questions about American patriotism in the face of growing nationalist sentiment worldwide Here a group of scholars explores the manner in which Americans have discussed and practiced their patriotism over the past two hundred years Their essays investigate for example the extent to which the promise of democracy has explained citizen loyalty what other factors such as devotion to home and family have influenced patriotism and how patriotism has often served as a tool to maintain the power of a dominant group and to obscure internal social ills This volume examines the use of patriotic language and symbols in building unity in the early republic rebuilding the nation after the Civil War and sustaining loyalty in an increasingly diverse society Continuing through the World Wars to the Clinton presidency the essay topics range from multiculturalism to reactions toward masculine power In addition to the editor the contributors include Cynthia M Koch Cecilia Elizabeth O Leary Andrew Neather Stuart McConnell Gaines M Foster Kimberly Jensen David Glassberg and J Michael Moore Lawrence R Samuel Robert B Westbrook Wendy Kozol George Lipsitz Barbara Truesdell Robin Wagner Pacifici and William B Cohen

Why We Fought Robert B. Westbrook, 2012-01-11 *Why We Fought* is a timely and provocative analysis that examines why Americans really chose to sacrifice and commit themselves to World War II Unlike other depictions of the patriotic greatest generation Westbrook argues that strictly speaking Americans in World War II were not instructed to fight work or die for their country above all they were moved by private obligations Finding political theory in places such as pin ups of Betty Grable he contends that more often than not Americans were urged to wage war as fathers mothers husbands wives lovers sons daughters and consumers not as citizens The thinness of their own citizenship contrasted sharply with the thicker political culture of the Japanese which was regarded with condescending contempt and even occasionally wistful respect *Why We Fought* is a profound and skillful assessment of America s complex political beliefs and the peculiarities of its patriotism While examining the history of American beliefs about war and citizenship Westbrook casts a larger light on what it means to be an American to be patriotic and to willingly go to war

New York and the First World War Ross J. Wilson, 2016-05-06 The First World War constitutes a point in the history of New York when its character and identity were challenged recast and reinforced Due to its pre eminent position as a financial and trading centre its role in the conflict was realised far sooner than elsewhere in the United States This book uses city state and federal archives newspaper reports publications leaflets and the well established ethnic press in the city at the turn of the century to explore how the city and its citizens responded to their role in the First World War from the outbreak in August 1914 through the official entry of the United States in to the war in 1917 and after the cessation of hostilities in the memorials and monuments to the conflict The war and its aftermath forever altered politics economics and

social identities within the city but its import is largely obscured in the history of the twentieth century This book therefore fills an important gap in the histories of New York and the First World War *Science Fiction and the Dismal Science* Gary Westfahl, Gregory Benford, Howard V. Hendrix, 2019-12-10 Despite the growing importance of economics in our lives literary scholars have long been reluctant to consider economic issues as they examine key texts This volume seeks to fill one of these conspicuous gaps in the critical literature by focusing on various connections between science fiction and economics with some attention to related fields such as politics and government Its seventeen contributors include five award winning scholars five science fiction writers and a widely published economist Three topics are covered what noted science fiction writers like Robert A Heinlein Frank Herbert and Kim Stanley Robinson have had to say about our economic and political future how the competitive and ever changing publishing marketplace has affected the growth and development of science fiction from the nineteenth century to today and how the scholars who examine science fiction have themselves been influenced by the economics of academia Although the essays focus primarily on American science fiction the traditions of Russian and Chinese science fiction are also examined A comprehensive bibliography of works related to science fiction and economics will assist other readers and critics who are interested in this subject **Capture the Flag** Arnaldo

Testi, 2010-06 Now an acclaimed European professor of American history brings a fresh perspective to the American flag exploring its political social and cultural significance across the broad swath of its history Mining a rich vein of materials from history literature music and popular culture Arnaldo Testi analyzes the symbolic importance of the flag to the national consciousness of this nation of immigrants and sees in it the very contradictions that make up our history secularism and sacredness freedom and empire inclusiveness and aggressive self confidence **Toward the Visualization of History**

Mark Howard Moss, 2008-01-01 This book discusses the impact of visuals on the study of history by examining visual culture and the future of print providing an analysis of photography film television and computer culture The author shows how the visualization of history can become a driving social and cultural force for change *Americans and the Wars of the*

Twentieth Century Jenel Virden, 2008-02-04 Jenel Virden outlines the causes courses and consequences of the major wars of the Twentieth century in American history examining how the US became involved how the wars were fought and the domestic consequences Applying just war theory foreign policy as well as civil liberty are discussed **Citizen of Empire**

Theresa Kaminski, 2024-01-12 Ethel Thomas Herold 1896 1988 was an ordinary person caught up in extraordinary circumstances a woman whose sense of patriotic duty took her from small town Wisconsin to the Philippines in 1922 There with but a couple of brief interruptions she would spend the next thirty seven years including three in a Japanese internment camp during World War II In *Citizen of Empire* Theresa Kaminski uses Ethel s experiences of war and imperialism to explore a unique example of how those enormous forces helped shape Americans notions of citizenship and patriotism in the first half of the twentieth century As Kaminski s absorbing narrative reveals Ethel s views of active patriotism began to form early on

when her oldest brother became a schoolteacher in the Philippines in 1901 at the end of the Spanish American War After college and marriage Ethel and her husband Elmer Herold went to the islands to teach in the public schools a way in her view of spreading American ideals abroad She quit teaching in 1927 to start a family but continued to support U S imperialism through her colonial household and club work Her comfortable expatriate life fell apart however when the Japanese attacked the Philippines in 1941 the colonial elite were now powerless prisoners After the war wishing to help the people who had supported them during the occupation Ethel and Elmer Herold stayed in the islands but after Philippine independence came in 1946 they increasingly found themselves strangers in a place they had long called home In 1959 the couple returned to Wisconsin where Ethel remained politically active and saw the solution to America s Cold War problems in the conservative wing of the Republican Party Ethel Thomas Herold was a woman of forceful personality Marked most notably by her strongly held views on patriotism and citizenship her transpacific life offers a remarkable instance of how the personal and political came together during the American century Theresa Kaminski is professor of history at the University of Wisconsin Stevens Point and the author of *Prisoners in Paradise American Women in the Wartime South Pacific*

American Studies ,2004 *Public and Private in American History* Raffaella Baritono,2003 An American Dictionary of the English Language Noah Webster,1841 **Patriotism and Fraternalism in the Knights of Columbus** Christopher J. Kauffman,2001 This is a comprehensive account of how the anti Catholicism of the early 20th century was vigorously countered by the Knights of Columbus s Fourth Degree In this study Christopher Kauffman presents the story of the widespread attack upon Catholics loyalty to the nation and the explicit rendering of Catholic patriotism that arose in response to it In competition with organizations which fostered historical memories exclusive of Catholics and immigrants and which frequently portrayed the Knights of Columbus in the vanguard of Vatican Imperialism in the United States the Fourth Degree Patriotism was founded to assert a distinctively Catholic historical memory Such symbols of republicanism as the little red school house were regarded by these anti Catholic groups as emblematic of the necessary training for citizenship as opposed to the Vatican dominated parochial schools with their alleged conspiracy against national institutions and the democratic spirit An American Dictionary of the English Language Webster,1845 **Book Review Digest** ,1998

Debating American Exceptionalism F. Hilfrich,2012-07-26 The Spanish American War focused not only on foreign policy but also on the nation s very essence and purpose At the heart of this debate was a consensus on American nationalism This book explains why the belief in exceptionalism still serves as the basis of American nationalism and foreign policy even in spite of more recent military failures *Transatlantic Encounters: Public uses and misuses of history in Europe and the United States* David Keith Adams,Maurizio Vaudagna,2000 Discussions about fundamental historical events of the past century have invaded the public domain Public opinion and policy makers ask framers of the public image of the past to provide guidance reassurance and legitimisation Increasing social heterogeneity and cultural difference force us to revise

our traditional concepts of culture and examine the public social and pedagogical implications of multiculturalism in an explicitly comparative perspective This book explores how history has been used to support or oppose the political orders of our century as well as its great themes and how historians have dealt with issues of scholarly objectivity personal beliefs and public commitment *Canadian Periodical Index* ,2000 **Noah Webster's First Edition of an American Dictionary of the English Language** Noah Webster,Foundation for American Christian Education,1989 The Webster s 1828 Dictionary is a unique and essential tool for educating Christians It has the greatest number of Biblical definitions of any reference Roots are traced in 26 languages Usage examples come from classical literature and the Bible This dictionary becomes not only a tool for defining words Biblically it becomes a way of thinking that forms your worldview It will equip you for Christian leadership strengthen your vocabulary give you an edge in communicating your view and become your foundation for thinking and reasoning Biblically This tool can be the turning point for you to be more effective in communicating Christian principles used in government economics and marketing or for your student to clearly understand how the Bible has influenced every area of life *Space* ,2002 *Subject Guide to Children's Books in Print 1997* Bowker Editorial Staff,R R Bowker Publishing,1996-09
